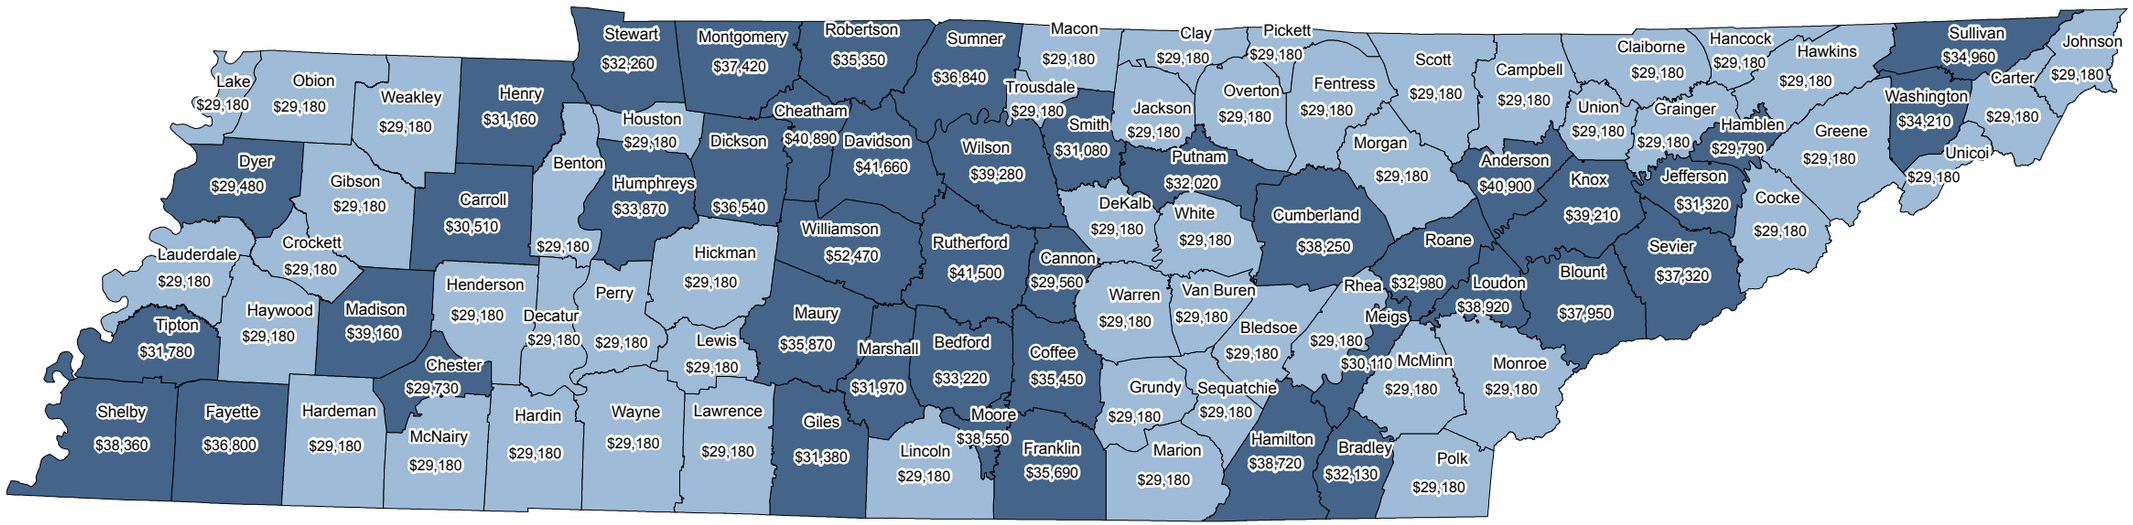
Property Tax Freeze

Income Limits by County

Tax Year 2016



Income limits for the Property Tax Freeze are the weighted average of median household income by county for age groups 65 to 74 and 75 or over from the 2000 Census, adjusted by Social Security cost-of-living adjustments and rounded to the nearest ten dollars. The median incomes for the two age groups are weighted based on population. This number is a weighted average of two medians and does not represent an actual median income for both groups combined.

The minimum income limit is equal to the $29,180 Property Tax Relief program income limit.

Income Limits

- $29,180 Minimum Income Limit
- $29,180 - $52,470
