INTRODUCTORY SECTION

Justin P. Wilson

Comptroller

JASON E. MUMPOWER

Chief of Staff

December 21, 2018

The Honorable Bill Haslam, Governor and Chairman and Members of the Tennessee State School Bond Authority

I am pleased to submit the Comprehensive Annual Financial Report of the Tennessee State School Bond Authority (the "Authority"), a component unit of the State of Tennessee, for the fiscal years ended June 30, 2018, and June 30, 2017. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included.

This letter of transmittal is designed to complement Management's Discussion and Analysis and should be read in conjunction with it. The Authority's Management Discussion and Analysis can be found on pages 4 - 11 of this report.

BUSINESS ENVIRONMENT

Legal Authority

The Tennessee State School Bond Authority, created in 1965, is a corporate governmental agency and instrumentality of the State of Tennessee whose purpose is to finance capital projects for public institutions of higher education located in Tennessee and to finance projects approved pursuant to the Qualified Zone Academy Bond Program and Qualified School Construction Bond Program of the federal government for local education agencies. The Authority has no taxing power. Pursuant to Section 49-3-1204, *Tennessee Code Annotated* ("T.C.A.") (the "Act"), the Governor serves as Chairman and the Comptroller of the Treasury serves as Secretary to the Authority.

Higher Education Facilities Programs. Pursuant to the General Higher Educational Facilities Bond Resolution adopted in May 1967 ("1967 Resolution"), bonds were issued to provide funds to make loans to the institutions of higher education. In April 1998, the Authority adopted the Higher Educational Facilities Second Program General Bond Resolution ("1998 Resolution") with the same purpose and closed the 1967 Resolution. All higher education bonds are now issued pursuant to the 1998 Resolution, as amended. Projects financed by the Authority must generate revenue sufficient to pay the debt service on the bonds. The fee charged for financing a project includes both a debt service and an administrative component. The Authority has financed a variety of projects including dormitories, athletic facilities, parking facilities and major equipment purchases. These projects could be contrasted with capital projects for higher education needs such as classrooms and libraries that are funded with the proceeds of the State's general obligation bonds.

In 1997, the Authority approved a Commercial Paper Resolution that authorized the Authority to issue commercial paper. The Credit Agreement with State Street Bank and Trust Company for the commercial paper program expired on March 20, 2014. On March 20, 2014, the Authority terminated the commercial paper program and entered into a Revolving Credit Agreement ("RCA") with Wells Fargo Bank, National Association, and U.S. Bank, National Association (collectively the "Banks"). Through the RCA, the Banks have agreed to make loans to the Authority in an aggregate amount not to exceed \$300 million. The loan proceeds are used to fund the construction phase of certain projects for the higher education facilities. When a project is completed or near completion, long-term, fixed-rate debt may be issued to finance the project. The debt issued to finance a project may be amortized over its useful life, but not to exceed 30 years. Proceeds from the issuance of the debt will be used to repay the RCA. Certain equipment and property acquisitions are financed solely within the RCA program. Equipment financed solely within the RCA program is deemed to have a useful life of less than ten years.

Qualified Zone Academy Bond Program. In 1999, the General Assembly authorized the Authority to issue Qualified Zone Academy Bonds ("QZAB") pursuant to program requirements approved by the Congress of the United States in Section 226 of the Taxpayer's Relief Act of 1997. These bonds are a part of a federal government program in which an investor receives a federal income tax credit in lieu of an interest payment on the bonds. These bonds are issued under the provisions of the Authority's Qualified Zone Academy Bonds First Program Resolution, and they are not supported by either the 1967 Resolution or the 1998 Resolution for Higher Education Facilities. The QZAB program provides loans to local education agencies to fund the renovation of classroom buildings and to purchase equipment to enhance learning opportunities in connection with the establishment of special academic programs from kindergarten through secondary school. Funding for this program is limited to the amount allocated by the federal government.

Qualified School Construction Bond Program. In 2009, the General Assembly authorized the Authority to issue Qualified School Construction Bonds ("QSCB") pursuant to program requirements approved by the Congress of the United States in Section 1521 of the American Recovery and Reinvestment Act of 2009. The QSCB program is a part of a federal government program designed to allow schools to borrow funds at minimal interest cost to the borrower. The bonds were issued under the provision of the Authority's Qualified School Construction Bonds General Bond Resolution. The bonds are not supported by either the 1967 Resolution or the 1998 Resolution for Higher Education Facilities. The QSCB program provides loans to local governments to fund new construction, renovation and rehabilitation of schools, as well as the purchase of land and equipment for use in a qualified project. The Series 2009 QSCBs were issued as tax credit bonds under which an eligible holder of a OSCB is generally allowed quarterly federal income tax credits in addition to quarterly supplemental interest payments from the issuer during the time the bond is outstanding. These credits compensate the bondholder for lending money to the borrower and function as partial payments of interest on the bonds. The Series 2010 QSCBs were issued as direct subsidy payment bonds under which the Authority has elected to receive direct interest subsidy payments from the United States Treasury rather than to provide a tax credit to the bondholder. The interest subsidy payments received by the Authority are then transferred to the borrowers as a reimbursement of the interest portion of their loan repayments. Funding for the QSCB program is limited to the amount allocated by the federal government. The program only received allocations for 2009 and 2010.

Responsibility of Management

Management assumes responsibility for the fair presentation of the financial statements found in this report in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP); for compliance with applicable laws, regulations, and the provisions of contracts (including bond resolutions); and for establishing and maintaining effective internal control over financial reporting, operations, and compliance.

Internal Control. In developing the Authority's accounting system, much consideration was given to the adequacy of internal accounting controls. Such controls are designed to provide reasonable, but not absolute assurance regarding (1) preventing, deterring, and detecting fraudulent activity, and (2) the reliability of financial records used in preparing financial statements. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

Independent Audit Committee. T.C.A. § 4-35-101 requires that a state governing board, council, commission, or equivalent body that (a) has the authority to hire and terminate its employees or (b) is responsible for the preparation of financial statements, whether included in the financial statements of other entities or free standing, shall create an audit committee. The Authority appointed an independent audit committee on August 12, 2004.

The Authority approved an Audit Charter created by the Audit Committee on September 14, 2006. The Audit Charter defines the responsibilities of the Audit Committee as follows:

- Overseeing the Authority's financial reporting and related disclosures, especially when financial statements are issued:
- Reviewing the adequacy of the management's process for assessment of risk, including fraud risk;
- Reviewing documentation of assessment results to determine that internal controls are sufficient to mitigate the assessed risks in the agency;
- Formally reiterating, on a regular basis, to the Authority or its management and staff, the responsibility of the Authority or its management and staff to prevent, detect and report fraud, waste and abuse;

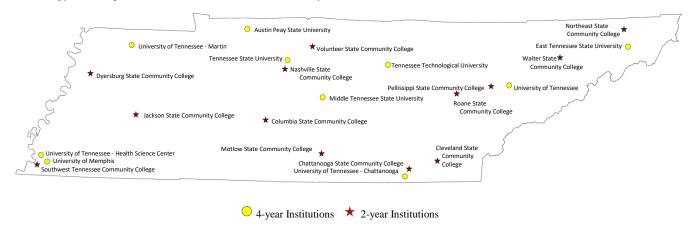

- Serving as a facilitator of any audits or investigations of the Authority, including advising auditors and investigators of any information the Committee may receive pertinent to audit or investigative matters;
- Promptly notifying the Comptroller of the Treasury of any indications of fraud; and
- Establishing a process by which employees, taxpayers, investors or other citizens may confidentially report suspected illegal, improper, wasteful or fraudulent activity and ensure procedures exist for the receipt, retention, and treatment of such complaints.

The Borrowers

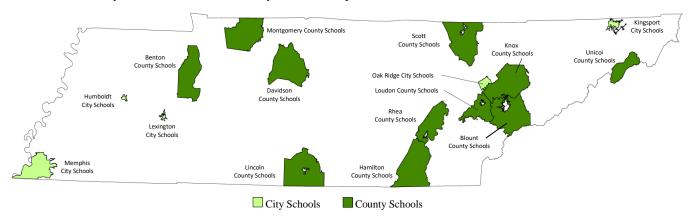

Higher Education Facilities Programs. Public higher education in Tennessee is coordinated by the Tennessee Higher Education Commission and consists of two systems: The University of Tennessee Board of Trustees ("Board of Trustees") governs the University of Tennessee System and the Tennessee Board of Regents ("Board of Regents") of the State University and Community College System of Tennessee governs the state universities, community colleges, and colleges of applied technology. The Board of Trustees and the Board of Regents are referred to collectively as the "Boards". The Boards are the governing bodies for all public higher education in Tennessee.

The definition of "Institution" was amended by Chapter 174, Public Laws of 2013 to be "(i) the University of Tennessee system, including all of its branches and divisions wherever located, and the services, programs and activities provided therein, and the board of trustees of the University of Tennessee, in the aggregate, and (ii) the state university and community college system, including all of its constituent institutions, wherever located (whether or not conferring degrees), and the services, programs and activities provided therein, and the Board of Regents of the state university and community college system, in the aggregate;".

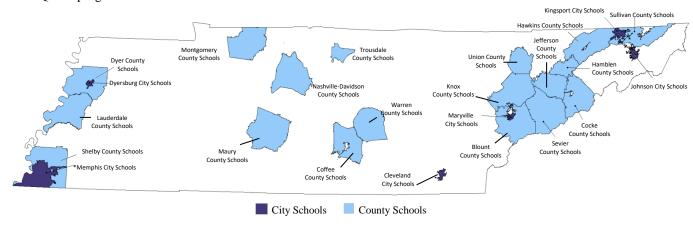

The University of Tennessee has four campuses (at Knoxville, Martin, Memphis, and Chattanooga), with 33 colleges, schools and divisions, all of which constitute a single Institution. The Tennessee Board of Regents system includes 6 universities, 13 community colleges, and 27 colleges of applied technology, all of which constitute a single Institution. The colleges of applied technology are not permitted to borrow from the Authority.

Qualified Zone Academy Bond Program. The QZAB program is a capital financing program originally authorized by the federal government. The borrowers under the QZAB program are local government units that borrow on behalf of local education agencies that are governed by the Tennessee Department of Education. A total of 16 local education agencies have participated in the QZAB program. As of June 30, 2018, Humboldt City Schools, Knox County Schools, Lincoln County Schools, Scott County Schools, and Unicoi County Schools had paid their debt in full.

Qualified School Construction Bond Program. The QSCB program is a capital financing program authorized by the federal government. The borrowers under the QSCB program are local government units that borrow on behalf of local education agencies that are governed by the Tennessee Department of Education. There are currently 23 local governments participating in the QSCB program.

^{*}Shelby County borrowed QSCB funds from the Authority on behalf of both the Shelby County Schools and the Memphis City Schools.

The Programs

Higher Education Facilities Programs. The Authority and each Board have entered into separate financing agreements under which the Authority agrees to finance projects and the respective boards agree to make payments to the Authority. Under each financing agreement, the relevant board covenants and agrees to establish and collect fees and charges at each institution at a level sufficient to produce in each fiscal year no less than two times the amount required for the payment of the aggregate of financing charges. In the event a Board fails to make timely and full payment of amounts due and payable, the Commissioner of Finance and Administration, after notice from the Authority, shall deduct from the amounts appropriated by the General Assembly of the State of Tennessee for the operation and maintenance of the Institution for which such project was undertaken, the amount or amounts as may be required to make the Board current with respect to amounts due and payable.

Qualified Zone Academy Bond Program. To receive a QZAB loan, a local education agency, in cooperation with its city or county, completed an application provided by the Tennessee Department of Education. The Department of Education recommended to the Authority the projects deemed worthy of funding. Each local education agency and the respective city or county entered into a loan agreement with the Authority under which the Authority agreed to finance the projects and the respective city or county agreed to repay the loan.

Qualified School Construction Bond Program. To receive a QSCB loan, a local education agency, in cooperation with its city or county, completed an application provided by the Authority. The Tennessee Advisory Commission on Intergovernmental Relations ("TACIR") recommended to the Authority the projects deemed worthy of funding. Each local education agency and respective city or county entered into a loan agreement with the Authority under which the Authority agreed to finance the projects and the respective city or county agreed to repay the loan.

For both the QZAB and QSCB programs, local education agencies received their funding through the city and/or county where they are located. Debt service for these two federal programs is secured by the general obligation pledge of the borrower and the pledge of the borrower's unobligated state-shared taxes. In the event the city or county should fail to make timely debt service payments, the Commissioner of Finance and Administration, after notice from the Authority, shall intercept a portion of the state-shared taxes sufficient to cover the debt service payment. Local education agencies do not have taxing power in Tennessee. The power to tax is vested in cities and counties.

Future Outlook

Enrollment Trends in Higher Education. Enrollment in higher education facilities surged due to the economic downturn that began in 2008. In 2010, enrollment reached its highest level, up 15% compared to before the recession. Enrollment in universities and community colleges increased by 5% and 10%, respectively. The Tennessee Education Lottery Scholarship program ("TELS") enabled more Tennesseans to attend college. In the 2016-2017 academic year, the Tennessee Lottery provided an \$355 million in scholarships to more than 132,000 students. Beginning with the 2015 Tennessee high school graduates, the Tennessee Promise program provides for two years of tuition-free attendance at any of the state's community colleges or colleges of applied technology. The Tennessee Promise is a last-dollar scholarship, meaning it will cover tuition and mandatory fees not covered by the federal Pell Grant, the HOPE scholarship (a TELS award), or the Tennessee Student Assistance Award (a state-funded grant program). In 2016-2017, the Tennessee Promise program distributed over \$25 million to nearly 14,000 students. In the Knowledge Economy, the importance of receiving training beyond high school is significant. The growing demand for higher education will guarantee that the higher education system will sustain its long-term debt commitments well into the future.

FINANCIAL INFORMATION

Budget. The Authority has no formally approved operating budget. However, controls are in place to assure financial compliance for each project. All loans made and bonds issued must be approved by the Authority in public meetings. T.C.A. § 49-3-1201 et. seq. permits the Authority to make and collect charges from the borrowers for all administrative fees that it determines to be reasonable. These administrative fees include but are not limited to costs relating to the issuance and payment of debt, liquidity facilities, trustee fees, and administrative costs of staff. All such fees and charges are subject to independent audit for reporting and compliance purposes.

Financial Statements. The financial statements included in this report present information on the financial condition of the Authority and whether resources were adequate to cover the costs of providing services during the reporting period. A discussion of the financial statements is included on pages 8 - 10 in the Management's Discussion and Analysis section of this Comprehensive Annual Financial Report.

Relevant Financial Policies. The Authority adopted a Debt Management Policy (the "Policy") on November 14, 2011. The Policy is reviewed annually. The Policy provides written guidance about the amount and type of debt issued as well as the method used for issuing the debt. The Policy governs the issuance of revolving credit facility loans as short-term debt as well the issuance of long-term debt. During fiscal year ending June 30, 2018, the Authority borrowed \$48,000,000 from the revolving credit facility and issued the 2017 Series A, B, and C bonds in the amount of \$402,460,000. During fiscal year ending June 30, 2017, the Authority borrowed \$117,000,000 from the revolving credit facility.

OTHER INFORMATION

Securities and Exchange Commission Disclosures. The Tennessee State School Bond Authority has entered into Continuing Disclosure Undertakings ("Undertakings") with respect to certain debt issues. The Undertakings were made for the benefit of the holders of the debt pursuant to U.S. Securities and Exchange Commission Rule 15c2-12. The Authority has covenanted to provide certain annual financial information, including audited financial statements, as well as certain additional financial and operating data. However, certain financial and operating data required pursuant to the Undertakings are included in the Comprehensive Annual Financial Report of the State of Tennessee, not in this report.

Independent Audit. T.C.A. § 4-3-304 requires that the Department of Audit performs a post-audit of all accounts and other financial records of the state government, and any department, institution, office or agency thereof in accordance with generally accepted auditing standards and in accordance with such procedures as may be established by the Comptroller of the Treasury.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Tennessee State School Bond Authority for its comprehensive annual financial report for the fiscal year ended June 30, 2017. This was the fifteenth consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

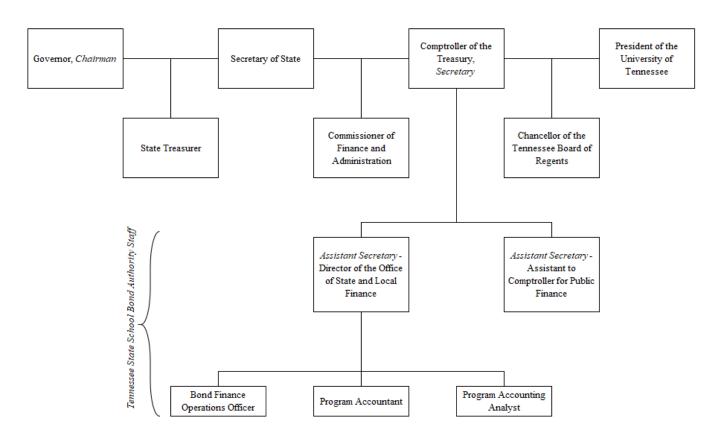

Acknowledgements. The preparation of the comprehensive annual financial report was made possible by the dedication of the staff of the Office of State and Local Finance in the Office of the Comptroller of the Treasury.

Independent Auditor's Report

The Honorable Bill Haslam, Governor Members of the General Assembly Members of the Tennessee State School Bond Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the Tennessee State School Bond Authority, a component unit of the State of Tennessee, as of and for the years ended June 30, 2018, and June 30, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used

and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of directors of the Tennessee State School Bond Authority. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Authority.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tennessee State School Bond Authority as of June 30, 2018, and June 30, 2017, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Tennessee State School Bond Authority's basic financial statements. The accompanying financial information listed as supplementary information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United

States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Tennessee State School Bond Authority's basic financial statements. The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2018, on our consideration of the Tennessee State School Bond Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts (including the bond resolutions) and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tennessee State School Bond Authority's internal control over financial reporting and compliance.

Debow Lale

Division of State Audit December 11, 2018

Management's Discussion and Analysis

As management of the Tennessee State School Bond Authority (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities as presented in the financial statements and notes to the financial statements of the Authority for the fiscal year ended June 30, 2018. These activities are compared to the results of the fiscal years ended June 30, 2017, and June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal along with the Independent Auditor's Report, the audited financial statements and accompanying notes of this report.

Program Activity Highlights

The Authority's purpose is to provide loans to the state's higher education institutions by issuing bonds and notes of the Authority and to local governments on behalf of local education agencies (LEAs) through Qualified Zone Academy Bonds (QZABs) and Qualified School Construction Bonds (QSCBs). The tables below summarize this business activity.

	Higher Education Facilities Programs					
	_	2018		2017	_	2016
Number of higher education facilities with outstanding loans		19		19		19
Balance of outstanding loans	\$	1,773,613,511	\$	1,685,658,324	\$	1,595,683,475
Total number of projects with outstanding loans		230		225		221
Number of projects approved in fiscal year		9		13		8
Dollar amount of loans approved in fiscal year	\$	197,490,000	\$	159,828,000	\$	196,829,000
Dollar amount of loans approved in fiscal year - unspent	\$	196,658,200	\$	129,714,086	\$	193,267,544
Dollar amount of loans financed in fiscal year	\$	196,656,725	\$	135,382,974	\$	243,257,387
Balance of outstanding debt	\$	1,881,272,947	\$	1,768,511,257	\$	1,739,673,979
Bonds issued in fiscal year	\$	402,460,000	\$	-	\$	-
Revolving credit facility loans issued in fiscal year	\$	48,000,000	\$	117,000,000	\$	35,000,000

	Qualified Zone Academy Bond Program						
		2018		2017		2016	
Number of LEAs with outstanding loans		11		11		11	
Total number of outstanding loans		13		13		13	
Balance of outstanding loans	\$	5,197,888	\$	7,505,974	\$	9,975,299	
Balance held in Sinking Fund	\$	27,322,433	\$	25,014,347	\$	22,614,701	
Balance of outstanding debt	\$	32,590,000	\$	32,590,000	\$	32,590,000	

	Qualified School Construction Bond Program					
		2018		2017		2016
Number of LEAs with outstanding loans		23		23		23
Total number of outstanding loans		28		28		28
Balance of outstanding loans	\$	211,859,661	\$	235,032,069	\$	259,596,908
Balance held in Sinking Fund	\$	176,098,188	\$	157,702,303	\$	140,878,305
Balance of outstanding debt	\$	389,440,000	\$	389,440,000	\$	389,440,000

The financial statements and the analysis provided in the remainder of this report reflect the financial results of this activity.

Debt Administration

Pursuant to Section 49-3-1201 et seq., *Tennessee Code Annotated*, the General Assembly of the state created the Tennessee State School Bond Authority to issue revenue bonds and notes to fund capital projects for the higher education institutions including both four-year institutions and two-year community colleges. Such loans are payable from user fees or savings generated from the projects in the case of energy conservation projects. The statute was amended in 1999 to authorize the Authority to issue QZABs and again in 2009 to authorize the Authority to issue QSCBs on behalf of LEAs throughout the State. For more specific financial information on long-term debt activity, see Note 5, Debt Payable, on pages 26 - 30 in the Notes to the Financial Statements.

The State is not liable on the bonds, and the bonds are not a debt of the State of Tennessee.

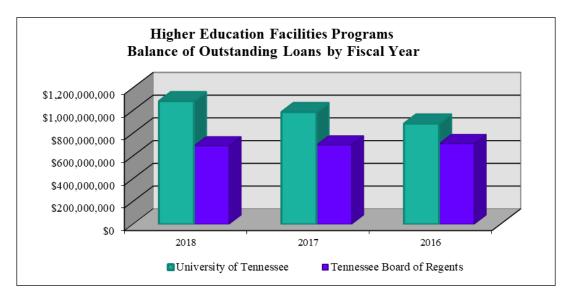

Higher Education Facilities Programs. When a higher education facility applies for project funding through the Authority, an analysis of the financial feasibility of each loan application is undertaken by comparing the projected debt service to the pledged revenue before it is approved by the Authority. Once approved by the Authority, the project will be included in the Financing Agreement between the Authority and the respective higher education system (the Board of Trustees of the University of Tennessee and the Tennessee Board of Regents of the State University and Community College System of the State of Tennessee, referred to collectively as the Boards). The Boards covenant and agree in the Financing Agreements to establish and collect fees and charges at each institution at a level sufficient to produce in each fiscal year no less than two times the amount required for the payment of total debt service. Fees and charges include all revenues, fees, rental and other charges received by or on behalf of an institution which are available to pay debt service. In addition, the Boards agree in the Financing Agreements that the Commissioner of Finance and Administration, after notice from the Authority that a Board has failed to pay its annual financing charges or administrative fees, shall deduct from the institution's appropriations the amount required to make it current with respect to the unpaid annual financing charges and administrative fees.

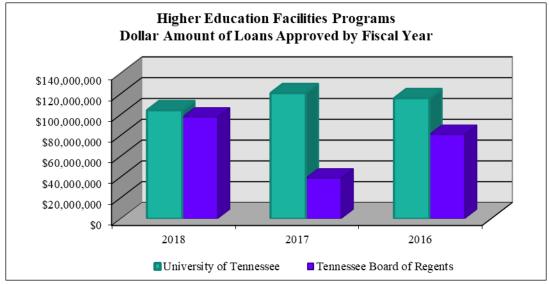

On March 20, 2014, all outstanding commercial paper was redeemed and the commercial paper program was terminated when the Authority entered into a Revolving Credit Agreement (RCA) with Wells Fargo Bank, National Association, and U.S. Bank, National Association. As of March 20, 2014, and thereafter, projects are funded through the RCA program during its construction phase. For projects in the construction phase that are completed or near completion, the Authority may fix the interest rate for the term of the projects by issuing long-term debt. The range of RCA interest rates are shown below for the fiscal year ended June 30, 2018, as compared to fiscal years 2017 and 2016.

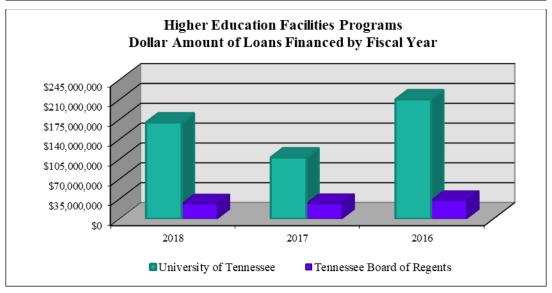

Higher Education Facilities Programs Revolving Credit Facility Interest Rates Ranges							
Federally							
	Tax-Exempt Taxable						
Fiscal Year	Low	High	Low	High			
2018	1.244%	2.006%	1.757%	2.512%			
2017	0.697%	1.120%	0.967%	1.581%			
2016	0.501%	0.690%	0.687%	0.957%			

For the fiscal year ended June 30, 2018, interest rates on the higher education facilities long-term, fixed-rate, tax-exempt bonds ranged from a low of 2.50% to a high of 5.00%, and the interest rates on the higher education facilities long-term fixed-rate federally taxable bonds ranged from a low of 1.324% to a high of 4.207%. By pooling the financing of the capital needs for all public higher education facilities, management believes that economic efficiency is achieved through a single large borrowing administered by one agency. The creditworthiness of both large and small institutions is blended into one credit resulting in a lower cost of borrowing and providing a more equitable cost to students and other users who repay the debt through various user fees and charges and student debt service fees.

Higher Education Facilities Programs Debt Ratings. As of the fiscal year ended June 30, 2018, the Authority's higher education facilities program is rated AA+, and AA+ by Fitch and S&P Global Ratings, respectively. Moody's Investors Service has assigned the Authority's bonds an enhanced rating of Aa1 and a programmatic rating of Aa1. As of the fiscal year ended June 30, 2017, the Authority's higher education facilities program was rated AA+, and AA+ by Fitch and S&P Global Ratings, respectively. Moody's Investors Service had assigned the Authority's bonds an enhanced rating of Aa1 and a programmatic rating of Aa1. On July 27, 2016, S&P Global Ratings upgraded the Authority's higher education facilities program rating to AA+ from AA.

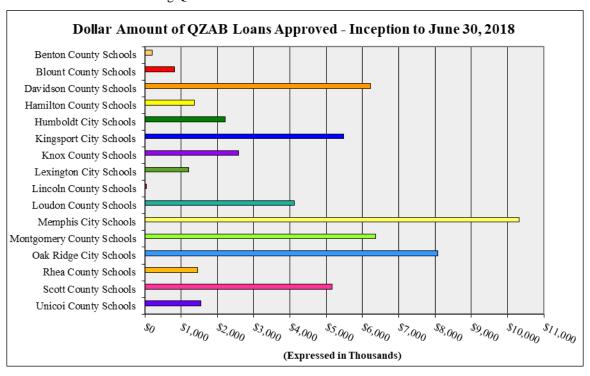

Qualified Zone Academy Bond Program. The QZAB program is a capital financing program authorized by the federal government under the Taxpayer Relief Act of 1997, Section 227(a). A QZAB is a taxable bond issued by the Authority, the proceeds of which are used to finance certain eligible public schools' renovation projects and equipment purchases. During the time the bond is outstanding, an eligible holder of a QZAB is generally allowed annual federal income tax credits in lieu of receiving periodic interest payments from the issuer. These credits compensate the holder for lending money to the borrower and function as payments of interest on the bonds. The Tennessee Department of Education distributes the application for a QZAB allocation to all LEAs in the State. The Department of Education recommends those projects that best meet the requirements of the program to the Authority for funding.

The LEA and the city or county supporting the agency pledges its full faith and credit and unlimited taxing power to the Authority for the repayment of its loans. Should the LEA/local government fail to repay its loan timely, the Authority is authorized to intercept the local government's unobligated state-shared taxes.

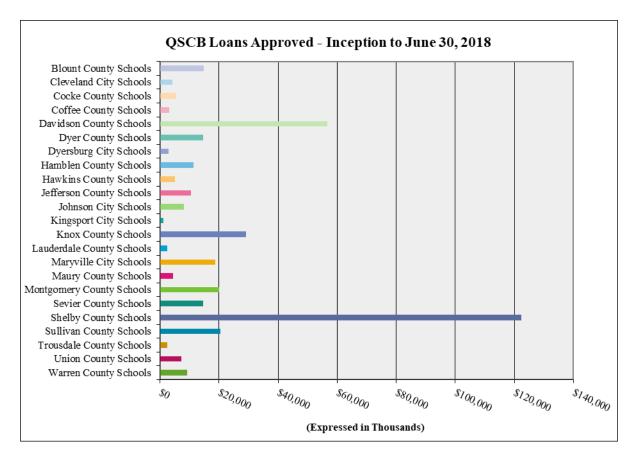

As of June 30, 2018, the QZAB program has no unused allocations. The State has up to two years after the yearly allocations are made by the federal government to issue bonds or the allocations will be forfeited. The Authority last issued bonds for the QZAB program on December 28, 2005. The implementation of the 2017 Tax Cuts and Jobs Act on State and Local Bonds eliminated all tax credit bonds including OZAB bonds.

Qualified Zone Academy Bond Program Debt Ratings. All of the QZAB's have been placed with private investors. The QZAB's are not rated.

Qualified School Construction Bond Program. The QSCB program is a capital financing program originally authorized by the federal government under the American Recovery and Reinvestment Act of 2009 and Section 49-3-12, *Tennessee Code Annotated*, as amended. The QSCBs are bonds issued by the Authority, the proceeds of which are used to finance certain eligible public schools' renovation and rehabilitation projects, equipment purchases, new building construction and land acquisition. The Series 2009 QSCB is structured as a tax credit bond under which an eligible holder of a QSCB is generally allowed quarterly federal income tax credits in addition to quarterly supplemental interest payments from the issuer during the period the bond is outstanding. These credits compensate the bondholder for lending money to the Authority and function as partial payments of interest on the bonds. The Series 2010 QSCB is structured as a direct subsidy payment bond under which the holder of the bond is compensated with a semi-annual cash interest payment that is subsidized by the federal government. The Authority elects to receive the direct interest subsidy payments from the United States Treasury, and the loan agreements provide that the subsidy payments received by the Authority will then be transferred to the borrowers.

The city or county supporting the LEA must pledge its full faith and credit and unlimited taxing power to the Authority for the repayment of its loans. Should the LEA/local government fail to repay its loan timely, the Authority is authorized to intercept the local government's unobligated state-shared taxes.

Qualified School Construction Bonds Program Debt Ratings. As of the fiscal year ended June 30, 2018, the Authority's QSCB program is rated Aa2, AA+, and AA by Moody's Investors Service, Inc., S&P Global Ratings, and Fitch Ratings, respectively.

Overview of the Financial Statements

The Authority is a discretely presented component unit of the State of Tennessee and uses proprietary fund accounting. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting and the flow of economic resources measurement focus. This basis recognizes revenues when earned and expenses at the time liabilities are incurred. Using the economic resources measurement focus, a reader is presented information that allows him/her to determine the transactions and events that have increased or decreased the total economic resources for the period.

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of two components: 1) the financial statements and 2) the notes to the financial statements. The financial statements consist of the Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows.

The Statements of Net Position on **page 15** present the Authority's financial position at June 30, 2018, and June 30, 2017. The Statements of Revenues, Expenses and Changes in Net Position on **page 16** portray the results of operations and the change in net position for the years presented. The Statements of Cash Flows on **pages 17 - 18** summarize the sources and uses of cash for the fiscal years presented. These statements are accompanied by notes to the financial statements that provide information that is essential to the reader's understanding of the financial statements. The Authority's basic financial statements are followed by supplementary information containing the financial statement information at the program level.

Financial Analysis of the Authority

Standard indicators of financial success are not applicable to the Authority. The financial goals of the Authority are to provide timely access to the capital markets for public higher educational institutions and local governments on behalf of LEAs at the lowest possible cost, to repay debt timely and to achieve the highest possible rating for its debt. During the fiscal year ended June 30, 2018, the Authority issued 3 series of bonds. At no time did the Authority deny approval of a loan application due to its inability to access the capital market. For long-term debt, the Authority made all debt service payments timely without

having to withdraw funds from the debt service reserve fund or intercept the state appropriations for the higher education institutions. For short-term debt, No Event of Default, as defined in the RCA, has occurred. The Authority maintained both its long and short-term credit ratings with all rating agencies.

Statements of Net Position Summary								
(in thousands of dollars)								
	2018	2017	2016					
Current assets	\$ 193,530	\$ 175,358	\$ 195,321					
Noncurrent assets	2,098,896	2,043,307	1,962,600					
Total assets	2,292,426	2,218,665	2,157,921					
Deferred outflows of resources	37,433	39,973	42,771					
Current liabilities	93,497	124,480	85,808					
Noncurrent liabilities	2,230,222	2,122,290	2,095,123					
Total liabilities	2,323,719	2,246,770	2,180,931					
Deferred inflows of resources	917	756	1,791					
Net position (unrestricted)	\$ 5,223	\$ 11,112	\$ 17,970					
Note: The Authority owns i	o capital assets.							

At June 30, 2018, current assets include \$42,308,936 of unexpended proceeds from prior debt issued that will fund approved higher education loans as compared to \$292,461 at June 30, 2017, and \$53,092,376 at June 30, 2016. During the fiscal year ended June 30, 2018, the Authority issued \$402,460,000 in Higher Education Facilities Second Program bonds which were used to redeem \$128,306,800 of the Authority's revolving credit facility and refund \$186,155,000 of the Authority's outstanding long-term debt with the balance of the bond proceeds to be used to fund various project costs and costs of issuance. The Authority did not issue any bonds during the fiscal year ended June 30, 2017 or the fiscal year ended June 30, 2016.

Principal was repaid on the higher education outstanding long-term bonds in the amounts of \$66,925,000 in 2018; \$66,595,000 in 2017; \$60,385,000 in 2016. Deposits to the Sinking Fund for the QZABs were made in the amounts of \$2,326,556.75 in 2018; \$2,406,957 in 2017; \$3,009,053 in 2016. No QZAB Bonds were retired in fiscal year 2018 or fiscal year 2017. QZAB Series 2001 Bonds in the amount of \$11,330,000 were retired during the fiscal year 2016. Deposits to the Sinking Fund for the QSCBs were made in the amounts of \$23,650,375 in 2018; \$26,543,123 in 2017; \$22,772,381 in 2016. No QSCB bonds were retired during the fiscal years 2018, 2017, or 2016.

Net position is available to fund ongoing operations and other expenses necessary to meet the goals of the Authority. Assets and liabilities increase and decrease together in correlation to the issuance and repayment of debt and the resulting loans. The change in net position from fiscal year ended June 30, 2017, to fiscal year ended June 30, 2018, was due primarily to the unrealized loss on the QSCB investments. The change in net position from fiscal year ended June 30, 2016, to fiscal year ended June 30, 2017, was due primarily to the unrealized loss on the QSCB investments.

Net position, June 30	\$ 5,223	\$ 11,112	<u>\$ 17,970</u>						

The Authority's operating revenues include revenue from loans in the form of administrative fees, interest on loans, and income earned on investments. Operating expenses include interest expense on outstanding short-term and long-term debt and administrative expenses. The change in operating revenues and expenses for fiscal year ended June 30, 2018, can be attributed to the QSCB program. The QSCB had an increase in value in the Sinking Fund which resulted in a significant increase in unrealized investment earnings and a decrease in net position. The decrease was partially mitigated by an increase to the subsidy to borrowers.

The change in operating revenues and expenses for fiscal year ended June 30, 2017, can be attributed to the QSCB program. The QSCB had a decrease in value in the Sinking Fund which resulted in a significant decrease in unrealized investment earnings and a decrease in net position. The decrease was partially mitigated by lower bond interest expense in the higher education program and subsidy to borrowers.

For the fiscal years ended June 30, 2018, June 30, 2017, and June 30, 2016, the Authority elected to return the investment income that it earned on funds held by the trustee and interest earned on unspent bond proceeds to the borrowers in the higher education facilities program to be applied toward amounts due on debt service from the borrowers.

Pursuant to the bond resolution for the QZABs, Sinking Fund payments are invested in the State Pooled Investment Fund ("SPIF"). SPIF rates for fiscal year ended June 30, 2018, ranged from 0.96% to 1.79%. Investment earnings related to the QZAB program are held by the Authority for the benefit of the LEAs participating in the program and are applied as a subsidy toward each LEA's individual debt service Sinking Fund payment on an annual basis. Pursuant to the supplemental bond resolutions for the 2004 and 2005 Series QZABs, Sinking Fund payments are invested in Forward Delivery Agreements which guarantee a fixed rate of interest of 3.00% and 3.64%, respectively, on investments. The investments are held by the State Treasurer in the Authority's name.

Investment earnings related to the QSCB program are held by the Authority for the benefit of the local governments participating in the program and are applied as a subsidy on a monthly basis toward the amounts due on each LEA's individual debt service principal and interest payments.

Future Financing Activities

Higher Education Facilities Programs. As Tennessee continues into an economic era that emphasizes the human capital potential of its citizens rather than physical capital and natural resources, the higher education system must be positioned to serve the broader-based need for access to post-secondary education and to produce degree and certificate holding work-ready

citizens. A host of policy and environmental factors influence the demands for access and completion, and the means through which this demand will be met. Tennessee has implemented two programs to increase the number of Tennesseans with a postsecondary credential – Tennessee Promise and Tennessee Reconnect. With these programs, Tennessee is the first state to offer all high school graduates and adults two years of community or technical college free of tuition and mandatory fees. First-time freshmen enrollment has increased approximately 30% at community colleges and 32% at technical colleges since the implementation of Tennessee Promise. As the State continues to promote educational attainment to its citizens, we anticipate an increased need for funding of various facilities through the Authority.

Qualified Zone Academy Bonds and Qualified School Construction Bonds Programs. The issuance of bonds within the QZAB and QSCB programs is limited to the amounts allocated by the federal government. At this time, the Authority does not anticipate further issuance of debt for the QZAB program due to economic and financial conditions and constraints. The QSCB only received allocations for 2009 and 2010.

Contacting the Authority's Management Team

This discussion and analysis is designed to provide our citizens, education agencies, investors and creditors with a general overview of the Authority's finances and to demonstrate its accountability for the monies it receives. If you have questions about this report or need additional financial information, contact the Director of the Office of State and Local Finance, State of Tennessee, Cordell Hull Building, 425 Fifth Avenue North, Nashville, Tennessee 37243-3400, visit our website at www.comptroller.tn.gov/TSSBA/, or call (615) 747-5369.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Tennessee State School Bond Authority (the Authority) was created to provide a mechanism for financing capital projects for the State of Tennessee's higher education institutions. During 1999, the General Assembly empowered the Authority to issue Qualified Zone Academy Bonds (QZABs) for local governments to borrow for financing improvement projects on behalf of local education agencies pursuant to the federal program authorized in the Taxpayer Relief Act of 1997. In addition, under the American Recovery and Reinvestment Act of 2009, the Authority was authorized to issue Qualified School Construction Bonds (QSCBs) for local governments to borrow on behalf of local education agencies at nominal or zero percent interest for financing renovation and rehabilitation projects, equipment purchases, new building construction and land acquisition.

The Authority is a component unit of the State of Tennessee and a separate legal entity. In accordance with the Governmental Accounting Standards Board's (GASB) Statement No. 14 (as amended), *The Financial Reporting Entity*, the Authority is discretely presented in the *Tennessee Comprehensive Annual Financial Report* because a majority of the Authority's board consists of state officials which include the Governor, the State Treasurer, the Secretary of State, the Commissioner of Finance and Administration, the Comptroller of the Treasury, the Chancellor of the Tennessee Board of Regents, and the President of the University of Tennessee. The Governor serves as chairman, and the Comptroller of the Treasury serves as secretary. The Director of the Office of State and Local Finance serves as the assistant secretary; the office provides administrative and financial services to the Authority. Therefore, the State has the ability to affect the day-to-day operations of the Authority.

The Authority does not have any employees. The members will serve without salary but are entitled to reimbursement for their actual and necessary expenses incurred in the performance of their official duty.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board.

Measurement Focus and Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting and the flow of economic resources measurement focus. Under this basis, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering services in connection with principal ongoing operations. The Authority's principal ongoing operation is to provide loans for constructing capital projects, renovating and rehabilitating facilities, and acquiring land and equipment to higher educational facilities and to local government units pursuant to the criteria set by the federal government for the QZAB and QSCB programs. Therefore, the Authority also recognizes income on investments as operating revenue. The Authority's operating expenses include interest paid on borrowings, subsidies to borrowers, bond issuance costs, arbitrage, and administrative expenses. Any revenues and expenses not meeting this definition would be reported as nonoperating revenues and expenses.

Investments

Investments for the Higher Education, OZAB, and OSCB Programs are stated at fair value.

Amortized Amounts

A. Bond Discounts, Premiums, and Deferred Amount on Refundings. The Authority amortizes bond discounts and premiums using the straight-line method over the life of the bonds. The deferred amount on refundings is amortized using the straight-line method over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Amortization of bond discount, premium, and deferred amount on refundings is reported with bond interest expense in the financial statements.

B. *Unearned Revenue*. The Authority requires the QSCB borrowers to prepay bondholder interest to the Debt Service Fund as outlined in the loan agreements. The interest of the Debt Service Fund is credited back to the borrower as bondholder interest payments are made. The prepaid interest is reported on the statement of net position as unearned revenue and is not amortized.

NOTE 2. DEPOSITS AND INVESTMENTS

Moneys pertaining to the Higher Education Second Program General Bond Resolution, the Qualified Zone Academy Bonds First Program Resolution and the Qualified School Construction Bonds General Bond Resolution of the Tennessee State School Bond Authority, pursuant to Section 49-3-1205, *Tennessee Code Annotated*, may be invested, pursuant to each Bond Resolution listed above, in obligations of the United States or its agencies under flexible repurchase agreements which are fully collateralized by obligations of the United States or obligations, the timely payment of the principal of and interest on which are guaranteed by the United States, the State's pooled investment fund as provided in Section 9-4-603, *Tennessee Code Annotated*, and any other investment authorized by the State Investment Policy adopted by the State Funding Board pursuant to Section 9-4-602, *Tennessee Code Annotated*.

Deposits

The Authority has cash on deposit in the State Pooled Investment Fund and Local Government Investment Pool administered by the State Treasurer. The funds are very liquid; there are no minimum amounts or lengths of time for investment. The funds' investment policy and required risk disclosures are presented in the *State of Tennessee's Treasurer's Report*. That report is available on the state's website at www.treasury.state.tn.us.

The Authority has deposits held in a financial institution which participates in the bank collateral pool administered by the State Treasurer. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

Investments

As of June 30, 2018, the Authority has the following investments:

Investment	<u>Maturity</u>	 Fair Value (Level 1)
U.S. Treasury Notes	October 31, 2018	\$ 1,018,965

Total Investments		\$ 204,083,867

Debt and equity securities classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified as Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk

Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The State's Investment Policy does not formally address interest rate risk. As a matter of practice, higher education investments are invested no longer than five years to reduce the interest rate risk. QZAB investments follow the guidelines in the Forward Delivery Agreements, which are limited to six-month maturities so that interest rate risk is contained. QSCB investments are intended to be held to maturity at which time par value will be received, which decreases significantly the concerns related to interest rate risk. The Authority's investments are specifically identified above.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2018, and June 30, 2017, the Authority had cash on deposit in the State Pooled Investment Fund and Local Government Investment Pool administered by the State Treasurer, which are unrated. At June 30, 2018, and June 30, 2017, the Authority also invested in U.S. Government obligations, or obligations of which the principal and interest are guaranteed by the United States.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Authority will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Authority's investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Authority, and are held by either the counterparty or the counterparty's trust department or agent but not in the Authority's name. At June 30, 2018, and June 30, 2017, the Authority's investments were registered in the name of the Authority.

Concentration of Credit Risk

A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. At June 30, 2018, and June 30, 2017, the Authority only invested in U.S. Treasury securities, or obligations of which the principal and interest are guaranteed by the United States.

Forward Delivery Agreements

On November 24, 2004, the Authority entered into a Forward Delivery Agreement (the "Agreement") with Bank of America, N.A. related to the Series 2004 QZABs. The Agreement guarantees to the Authority a fixed rate of interest of 3%. Cash from borrowers' loan repayments will be used to purchase securities from Bank of America, N.A. in accordance with the Agreement. The accumulated funds will be used to redeem the \$12,600,000 Series 2004 QZABs at maturity. As a result of the Agreement, borrowers will repay only \$9,984,800 of the \$12,600,000 principal. The investments will be held by the State Treasurer in the Authority's name. As of June 30, 2018, \$9,973,266 is invested through the Agreement. As of June 30, 2017, \$9,096,268 was invested through the Agreement. The Authority negotiated a "one way" termination provision in the event of counterparty default on the Agreement. The Authority also has the right to optionally terminate the Agreement at any time.

On December 28, 2005, the Authority entered into a Forward Delivery Agreement (the "Agreement") with J.P. Morgan Chase Bank, N.A. related to the Series 2005 QZABs. The Agreement guarantees to the Authority a fixed rate of interest of 3.64%. Cash from borrowers' loan repayments will be used to purchase securities from J.P. Morgan Chase Bank, N.A. in accordance with the Agreement. The accumulated funds will be used to redeem the \$17,545,000 Series 2005 QZABs at maturity. As a result of the Agreement, borrowers will repay only \$13,438,510 of the \$17,545,000 principal. The investments will be held by the State Treasurer in the Authority's name. As of June 30, 2018, \$13,575,782 is invested through the Agreement. As of June 30, 2017, \$12,258,484 was invested through the Agreement. The Authority negotiated a "one way" termination provision in the event of counterparty default on the Agreement. The Authority also has the right to optionally terminate the Agreement at any time.

Date of Deposits	Nov. 24, 2005 through 2020	Dec. 8, 2006 through 2020

¹ The forward delivery agreements are classified as Level 2 of the fair value hierarchy. Debt securities classified as Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

For the fiscal year ended June 30, 2018, the Agreement for the 2004 QZABs has a negative fair value of \$87,041, and the Agreement for the 2005 QZABs has a positive fair value of \$69,136. For the fiscal year ended June 30, 2017, the Agreement for the 2004 OZABs had a positive fair value of \$202,970, and the Agreement for the 2005 QZABs had a positive fair value of \$553,197. The negative fair value is reported as a deferred outflow of resources on the statement of net position. The positive fair value is reported as a deferred inflow of resources on the statement of net position. The Agreements were valued by an independent investment advisor using the parameters contained in the Agreements and prevailing market conditions and benchmark yields on June 30, 2018, upon which the fair values depend. Borrowers pay no interest on these bonds. The interest rate credit is established by the federal government. The Agreements are agreed to as one of the terms of purchase to induce the investor to purchase the bond. The Authority has a scheduled amount of qualified securities required to be on deposit on specified delivery dates. These Agreements are forward contracts or commitments to deliver the same qualified securities on the scheduled dates at a pre-determined rate; therefore, these are hedging derivative instruments employed as a fair value hedge of the qualified securities for the required deposits. These forward contracts meet all criteria under GASB 53, Paragraph 39, which addresses the consistent critical terms method for forward contracts. All terms of the required deposits and the Agreements are consistent; therefore, hedge accounting is applied.

Termination Risk

Termination risk is the risk that a counterparty will terminate a forward delivery agreement at a time when the state owes it a termination payment. The state has mitigated this risk by specifying that the counterparty has the right to terminate only as a result of the following events: the failure by the State, for any reason, to purchase qualified securities in accordance with the Agreement; the amount to purchase qualified securities on the delivery date is less than the scheduled fund amount; the State is not in compliance with any covenant or obligation, incorporated by reference in this Agreement; any representation or warranty of the State contained in the Agreement proves to have been incorrect, false or misleading; insolvency of the State; or the principal amount under the Bonds becomes due and payable for any reason prior to the maturity date.

If the current market interest rate is higher than the fixed interest rate agreed to in the Agreement, the Agreement has a negative fair value. In the event of termination under this circumstance, the State owes a termination payment to the counterparty. If the fair value is positive, the State is due a termination payment from the counterparty. As of June 30, 2018, the fair value of the State's Agreements is a total

negative value of \$17,905. As of June 30, 2017, the fair value of the State's Agreements was a total positive value of \$756,167.

NOTE 3. LOANS RECEIVABLE

Higher Education Facilities Programs

The Authority has entered into financing agreements with both the Board of Trustees of the University of Tennessee (the Board of Trustees) and the Tennessee Board of Regents of the State University and Community College System of the State of Tennessee (the Tennessee Board of Regents). The Second Financing Agreement (the "Agreement"), is dated November 1, 1997, and was amended and restated on May 9, 2013. Under the Agreement, the Authority agrees to finance construction projects for the Board of Trustees or the Tennessee Board of Regents. Annual financing charges payable under the Agreement must be sufficient to pay the debt obligations of the Authority and the costs of administering the programs.

When the Authority issues bonds to finance capital projects for the higher education institutions and local governments, the principal amount of the loan differs from the actual amount of funds available for capital expenditures because the par amount of the bonds is adjusted by bond discounts and premiums in order to arrive at the amount of bond proceeds available for capital expenditures. These discounts and premiums are amortized on a straight-line basis over the life of the related bond because the higher education institutions and the local governments either receive the benefit or bear the cost of this difference. These differences are included in loans receivable on the statement of net position.

Qualified Zone Academy Bonds Program

The Authority has entered into loan agreements with the local governments on behalf of local education agencies for the 1999 QZABs, dated November 30, 1999; the 2001 QZABs, dated December 18, 2001; the 2003 QZABs, dated December 23, 2003; the 2004 QZABs, dated November 24, 2004; and the 2005 QZABs, dated December 28, 2005. Under the agreements, the Authority agrees to finance renovation projects and equipment for the local education agencies. On the date designated in the agreements, annual financing charges must be paid by the borrower sufficient to pay the annual principal payment, which is deposited into a bond sinking fund held by the State Treasurer that will pay the bonds at maturity, and the costs of administering the program.

Qualified School Construction Bonds Program

The Authority has entered into loan agreements with the local governments on behalf of local education agencies for the 2009 QSCBs, dated December 1, 2009, and the 2010 QSCBs, dated October 1, 2010. Under the agreements, the Authority agrees to finance renovation and rehabilitation projects, equipment purchases, new building construction, and land acquisition for the local education agencies. On the dates designated in the agreements, monthly financing charges must be paid by the borrower sufficient to pay the monthly principal payment, which is deposited into a bond sinking fund held by the State Treasurer that will pay the bonds at maturity; interest payment; and the costs of administering the program.

NOTE 4. RESTRICTED ASSETS

Cash and Investments

The Higher Education Facilities Second Program General Bond Resolution, effective for all bonds issued in 1998 and thereafter, permits the Authority to satisfy the debt service reserve requirement by either placing an amount equal to the maximum semiannual debt service requirement in a debt service reserve account or by maintaining a Reserve Fund Credit Facility. The Authority obtained a surety bond, constituting a Reserve Fund Credit Facility under the Resolution, in lieu of maintaining a debt service

reserve fund for the 2005 Series A and B; 2006 Series A; 2007 Series A, B and C; and 2008 Series A Bonds. Due to market conditions at the time of issuance of the 2008 Series B, 2009 Series A, and 2010 Series A and B Bonds, the Authority deposited funds into a debt service reserve account equal to the maximum semiannual debt service for those bonds. The Authority elected to establish a separate debt service reserve fund solely for the 2012 Series A, B, and C, 2013 Series A, 2014 Series A and B, and 2015 Series A and B bonds with no current funding requirement.

The first program bond resolution of the QZABs requires the establishment of a special trust fund, the bond Sinking Fund account. This account represents the funds set aside to redeem the QZABs at maturity.

The first program bond resolution of the QSCBs requires the establishment of a special trust fund, the bond Sinking Fund account. This account represents the funds set aside to redeem the QSCBs at maturity.

NOTE 5. DEBT PAYABLE

The State of Tennessee shall not be liable on the bonds issued by the Authority, and the bonds shall not be a debt of the State.

Higher Education Facilities Programs

- A. *Bonds*. The principal, Sinking Fund installments, if any, and redemption price of and interest on the bonds are payable solely from the annual financing charges, legislative appropriations, and other moneys and securities held or set aside under the resolutions.
- B. Revolving Credit Facility. Revolving credit facility constitutes a special obligation of the Authority. Principal and interest on the revolving credit facility is payable from the following sources: (i) as to principal only, the proceeds of the draw on the revolving credit facility to pay the principal of other outstanding revolving credit facility, (ii) available revenues, (iii) the money and securities (if any) on deposit in the Reimbursement Fund and in the Debt Service Fund, (iv) the moneys and securities (if any) on deposit in the Project Construction Account for such projects, and (v) the proceeds of bonds or notes issued to make such payments.

Qualified Zone Academy Bonds Program

On September 9, 1999, the Authority adopted a Qualified Zone Academy Bond Resolution authorizing the issuance of QZABs to make loans to local governments on behalf of local education agencies for the purpose of financing eligible costs of certain projects. The state Department of Education recommends the projects to the Authority that should be funded under the QZAB program. The Taxpayer Relief Act of 1997 provided this financial tool whereby interest on QZABs is paid by the federal government in the form of an annual tax credit to the financial institutions that hold the QZABs. The bonds are secured solely by the payments made by the borrowers under the loan agreements, including amounts collected from unobligated state-shared taxes in the event of non-payment by the local governments and by certain funds held under the Qualified Zone Academy Bond Resolution.

Qualified School Construction Bonds Program

On November 5, 2009, the Authority adopted a Qualified School Construction Bond Resolution authorizing the issuance of QSCBs to make loans to local governments on behalf of local education agencies for the purpose of financing eligible costs of certain projects. The Tennessee Advisory Commission on Intergovernmental Relations recommended the projects to be funded by the Authority under the QSCB program. The American Recovery and Reinvestment Act of 2009 provided this financial tool whereby interest on QSCBs, Series 2009, is paid by the federal government in the form of a quarterly tax credit to the financial institutions that hold the QSCBs. Market conditions at the time of issuance demanded the borrowers pay an additional quarterly interest payment to supplement the tax

credit to the investors. The 2010 QSCBs were issued as direct subsidy payment bonds, a financial tool whereby the interest on the QSCBs is intended to be fully subsidized by the federal government. The bonds are secured solely by the payments made by the borrowers under the Loan Agreements, including amounts collected from unobligated state-shared taxes in the event of non-payment by the local governments and by certain funds held under the Qualified School Construction Bond Resolution. The September 15, 2017, federal interest subsidy payment for the 2010 QSCBs was reduced by 6.9%, or \$355,318.65, as a part of the Budget Control Act of 2011. The sequestration reduction rate was applicable until the end of the federal fiscal year, September 30, 2018. On June 21, 2018, the Internal Revenue Service announced that federal subsidy payments will be cut by 6.2% during the 2019 federal fiscal year.

Changes in debt payable for the years ended June 30, 2018, and June 30, 2017, are as follows (expressed in thousands):

The Authority may issue taxable and/or tax-exempt bonds. Proceeds for the tax-exempt bonds issued after September 1, 1986, are subject to the 1986 Tax Reform Act. The Authority invests, records, and reports these proceeds in the manner set forth by the U.S. Treasury and Internal Revenue Service to maintain the tax-exempt status of the bonds. Arbitrage liabilities, when applicable, are reported as a current accrued liability. For the year ended June 30, 2018, and June 30, 2017, the Authority did not have a liability for arbitrage.

On September 21, 2017, the Authority issued three new series of bonds, 2017 Series A, B and C. The 2017 Series A tax-exempt bond proceeds in the amount of \$247,570,000 were issued to redeem

\$128,306,796 of the Authority's tax-exempt revolving credit facility. The 2017 Series B tax-exempt bond proceeds in the amount of \$139,740,000 were issued to current refund \$2,185,000 of the 2007 Series A bonds and \$37,705,000 of the 2007 Series C bond and to advance refund 69,240,000 of the 2010 Series A bonds, \$47,930,000 of the 2012 Series A bonds, and \$14,250,000 of the 2013 Series A bonds. The 2017 Series C taxable bond proceeds in the amount of \$15,150,000 were issued to advance refund \$14,845,000 of the 2010 Series B bonds. The balance of the proceeds of the 2017 Series A, B and C were used to pay for new construction projects and various costs of issuance. The 2017 Series B refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$731,838.23. This amount is reported as a deferred inflow of resources and is being charged to operations through the year 2040. The 2017 Series B refunding resulted in a reduction of total debt service payments of \$43,571,471.36 over the next 23 years and an economic gain (difference between the present values of the old and new debt service payments) of \$38,803,368.89. The 2017 Series C refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,421,652.14. This amount is reported as a deferred outflow of resources and is being charged to operations through the year 2040. The 2017 Series C refunding resulted in a reduction of total debt service payments of \$3,250,351.46 over the next 23 years and an economic gain (difference between the present values of the old and new debt service payments) of \$2,585,925.42. The funds provided for the advance refundings were placed in irrevocable refunding trust funds to pay the interest on the refunded bonds on each interest payment date to and including the respective redemption date and on the respective redemption price then due on the refunded bonds.

Revolving Credit Facility

The Authority issues short-term debt to finance certain capital projects for the State's higher education institutions. On March 20, 2014, the Authority entered into a Revolving Credit Agreement (RCA) with Wells Fargo Bank, National Association, and U.S. Bank, National Association. The Revolving Credit Agreement permits loans (the Revolving Credit Facility) to be made from time to time (and prepayments and reborrowings) in an aggregate principal amount outstanding at any time not to exceed \$300,000,000. The Revolving Credit Agreement was amended on March 20, 2017, with an expiration date of March 20, 2020. The Revolving Credit Agreement was further amended on April 25, 2018, with an expiration date of March 18, 2021. The revolving credit facility may be issued as tax-exempt or as taxable loans. At the program's inception, the revolving credit facility refinanced certain outstanding commercial paper proceeds that the Authority had previously issued to finance capital projects. At June 30, 2018, \$60,569,132 of tax-exempt revolving credit facility and \$34,730,169 of taxable revolving credit facility loans were outstanding. At June 30, 2017, \$180,165,320 of tax-exempt revolving credit facility and \$7,986,746 of taxable revolving credit facility loans were outstanding.

NOTE 6. UNEARNED REVENUE

Changes in unearned revenue for the years ended June 30, 2018, and June 30, 2017, are as follows (expressed in thousands):

	В	alance					В	alance		
	July	July 1, 2017		1, 2017 Additions		De	eletions	July 1, 2018		
Prepaid Interest	\$	2,260	\$	2,212	\$	2,260	\$	2,212

Total unearned revenue	\$	2,253	\$	2,260	\$	2,235	\$	2,278		

NOTE 7. SUBSEQUENT EVENTS

The September 15, 2018, federal interest subsidy payment for the 2010 QSCBs was reduced by 6.6%, or \$339,870.01, as a part of the Budget Control Act of 2011. The sequestration reduction rate was applicable until the end of the federal fiscal year, September 30, 2018. On June 21, 2018, the Internal Revenue Service announced that federal subsidy payments will be cut by 6.2% during the 2019 federal fiscal year.

As of December 11, 2018, the Authority has \$105,404,744 outstanding in tax-exempt revolving credit facility and \$34,534,520 in taxable revolving credit facility. Between June 30, 2018, and December 11, 2018, the Authority has drawn \$45,000,000 in revolving credit facility to pay construction expenditures.

ALLOCABLE DEBT TO BORROWERS

The Tennessee State School Bond Authority ("Authority") is a corporate governmental agency and instrumentality of the State of Tennessee which was created to provide a means of financing projects for its borrowers through the issuance of debt. The Authority consists of three different programs: Higher Education Facilities Program, Qualified Zone Academy Bond Program, and Qualified School Construction Bond Program. The following charts present each borrower's allocable amount of the outstanding debt of each program under the Authority. The allocable debt to the borrower is equal to the amount of outstanding loans to the borrowers. The allocable debt would not include certain debt proceeds issued by the Authority that are held on deposit for the borrowers in the form of debt service reserve funds, capitalized interest funds, and unspent construction funds. In addition, the allocable debt would not include borrowers' debt service payments held on deposit in sinking funds. Amounts held on deposit are available for the Authority to pay debt service when needed.

The following charts present the allocable debt for each borrower on a per capita basis. In the case of the Higher Education Facilities Program, this amount is expressed on a per student basis – as measured by the Fall Term Full-Time Enrollment ("FTE") of each respective higher education institution. In the case of the Qualified Zone Academy Bonds Program and Qualified School Construction Bonds Program, this amount is expressed on a per resident basis for the county of each respective school district.

Note: The first QSCB bond was issued on December 17, 2009.

Source: Data on State-Shared Taxes is provided by Tennessee Department of Revenue.

¹ Coverage for current and/or prior years is zero due to no QSCB loans or other obligations.

Other Pledged Obligations includes Qualified Zone Academy Bonds (QZAB) and Tennessee Local Development Authority (TLDA)

 $^{^3}$ Kingsport and Metropolitan Government of Nashville paid in full all of their TLDA debt.

 $^{1\}hbox{- Prior to 2010, 14th day enrollment was used to calculate FTE. Since 2010 end-of-term enrollment is used.}$

¹⁻ Prior to 2007, ETSU totals included ETSU Med and ETSU Pharm.

²⁻ Prior to 2007, UTK totals included UT Vet and UTSI.

³⁻ FTE is equivalent to headcount since medical units require residency. From 2010 to 2012 FTE was used instead of headcount. The one-year decline should therefore not be referenced for medical units.
