### Independent Auditor's Report

Board of Directors  
Benton County Electric System  
Camden, Tennessee

We have audited the accompanying financial statements of the Benton County Electric System (the System), an enterprise fund of Benton County, Tennessee, as of and for the years ended June 30, 2009 and 2008, as listed in the Table of Contents. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Benton County Electric System enterprise fund and are not intended to present fairly the financial position of Benton County, Tennessee, and the results of its operations and its cash flows of its proprietary fund types in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the System as of June 30, 2009 and 2008, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2009, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and required supplementary information on pages 4 through 8 and 23 are not a required part of the accompanying financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the accompanying financial statements. The introductory section and financial information listed as other supplementary information in the Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplementary information, except for that which has been marked as "unaudited", has been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, is fairly stated in all material respects, in relation to the financial statements taken as a whole. The introductory section and other supplementary information, which has been marked "unaudited," has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Benton County Electric System (the System), we offer readers of the System's financial statements this narrative overview and analysis of the financial activities of the System for the fiscal years ended June 30, 2009 and 2008. All amounts, unless otherwise indicated, are expressed in actual dollars.

### FINANCIAL HIGHLIGHTS

Management believes the System's financial condition is strong. The System is well within its debt covenants and the more stringent financial policies and guidelines set by the Board and management. The following are key financial highlights.

- Total assets at year-end were \$20.70 million and exceeded liabilities in the amount of \$12.96 million (i.e. net assets). Total assets increased by \$165 thousand due primarily to increases in capital assets and an increase in a notes receivable - TVA Home Insulation Program.
- Net assets increased \$512 thousand during the current year due to an operating profit. Unrestricted net assets increased by \$101 thousand.
- During fiscal year 2009, the System delivered 195.62 million KWH compared to 210.57 million KWH during the fiscal year 2008. All sales areas were fairly stable for the year.
- Operating revenues were \$21.46 million, an increase from year 2008 in the amount of \$2.19 million or 11.36%.
- Operating expenses were \$20.84 million, an increase from year 2008 in the amount of \$1.88 million or 9.92%.
- The operating profit for the year was \$626 thousand as compared to \$317 thousand during the 2008 fiscal year.
- Ratios of operating income to total operating revenue were 2.92%, 1.64%, and 0.80%, for 2009, 2008, and 2007, respectively.

### OVERVIEW OF THE FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with, the financial statements and supplementary information. The MD&A represents management's examination and analysis of the System's financial condition and performance. Summary financial statement data, key financial and operational indicators used in the System's strategic plan, budget, bond resolutions and other management tools were used for this analysis. The Financial Statements and Supplementary Information are made up of three sections: 1) the introductory section, 2) the financial section, and 3) the internal control and compliance section. The introductory section includes the System's directory. The financial section includes the MD&A, the independent auditor's report, the financial statements with accompanying notes, the required supplementary information, and the other supplementary information. The internal control and compliance section includes the report on internal control and compliance. These sections make up the financial report presented here.

### REQUIRED FINANCIAL STATEMENTS

A Proprietary Fund is used to account for the operations of the System, which is financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing services to the general public on a continuing basis be financed or recovered primarily through user charges.

The financial statements report information about the System, using accounting methods similar to those used by private sector companies. These statements offer short- and long-term financial information about its activities.

The *Statement of Net Assets* presents the financial position of the System on a full accrual historical cost basis. The balance sheet includes all of the System's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to the System's creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the System, and assessing the liquidity and financial flexibility of the System.

## REQUIRED FINANCIAL STATEMENTS (Cont.)

The *Statement of Revenues, Expenses, and Changes in Net Assets* presents the results of the business activities over the course of the fiscal year and information as to how the net assets changed during the year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement measures the success of the System's operations and can be used to determine whether the System has successfully recovered all of its costs. This statement also measures the System's profitability and credit worthiness.

The *Statement of Cash Flows* presents changes in cash and cash equivalents, resulting from operational, financing, and investing activities. This statement presents cash receipt and cash disbursement information, without consideration of the earnings event, when an obligation arises.

The *Notes to the Financial Statements* provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the System's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any. A *Supplementary Schedule* comparing the budget to actual expenses is also presented.

## FINANCIAL ANALYSIS

One of the most important questions asked about the System's finances is "Is the System, as a whole, better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets report information about the System's activities in a way that will help answer this question. These two statements report the net assets of the System, and the changes in the net assets. Net assets are one way to measure the financial health or financial position of the System. Over time, increases or decreases in the System's net assets is an indicator of whether its financial health is improving or deteriorating. However, you will need to also consider other non-financial factors such as changes in economic conditions, customer growth, and legislative mandates.

The System's total net assets increased by \$512 thousand and \$244 thousand for the fiscal years ended June 30, 2009 and 2008, respectively. The analysis below focuses on the System's net assets (Tables 1A and 1B) and changes in net assets (Tables 2A and 2B).

Table 1A  
CONDENSED STATEMENT OF NET ASSETS

	June 30, 2009	June 30, 2008	Increase (Decrease)	
			\$	%
Current and other assets	\$ 4,192,575	\$ 4,159,121	\$ 33,454	0.80%
Capital assets	16,504,520	16,372,482	132,038	0.81%
Total assets	<u>20,697,095</u>	<u>20,531,603</u>	<u>165,492</u>	<u>0.81%</u>
Long-term liabilities	4,542,278	4,692,618	(150,340)	-3.20%
Other liabilities	<u>3,197,526</u>	<u>3,394,153</u>	<u>(196,627)</u>	<u>-5.79%</u>
Total liabilities	<u>7,739,804</u>	<u>8,086,771</u>	<u>(346,967)</u>	<u>-4.29%</u>
Net assets:				
Invested in capital assets, net of related debt	13,289,520	12,887,482	402,038	3.12%
Restricted for debt service	567,700	558,377	9,323	1.67%
Unrestricted	<u>(899,929)</u>	<u>(1,001,027)</u>	<u>101,098</u>	<u>-10.10%</u>
Total net assets	<u>\$ 12,957,291</u>	<u>\$ 12,444,832</u>	<u>\$ 512,459</u>	<u>4.12%</u>

**REQUIRED FINANCIAL ANALYSIS (Cont.)**

**Table 1B  
CONDENSED STATEMENT OF NET ASSETS**

	June 30, 2008	June 30, 2007	Increase (Decrease)	
			\$	%
Current and other assets	\$ 4,159,121	\$ 4,236,575	\$ (77,454)	-1.83%
Capital assets	16,372,482	16,013,870	358,612	2.24%
Total assets	<u>20,531,603</u>	<u>20,250,445</u>	<u>281,158</u>	1.39%
Long-term liabilities	4,692,618	4,941,574	(248,956)	-5.04%
Other liabilities	3,394,153	3,107,544	286,609	9.22%
Total liabilities	<u>8,086,771</u>	<u>8,049,118</u>	<u>37,653</u>	0.47%
Net assets:				
Invested in capital assets, net of related debt	12,887,482	12,258,870	628,612	5.13%
Restricted for debt service	558,377	558,291	86	0.02%
Unrestricted	<u>(1,001,027)</u>	<u>(615,834)</u>	<u>(385,193)</u>	62.55%
Total net assets	<u>\$ 12,444,832</u>	<u>\$ 12,201,327</u>	<u>\$ 243,505</u>	2.00%

The increase in capital assets over the three year period was not significant. The total liabilities decreased during the three year period, but also were not significant. Net assets over the three year period have increased by 6.20% due to gross profits each year.

Changes in the System's net assets can be determined by reviewing the following condensed Statement of Revenues, Expenses and Changes in Net Assets for the years.

**Table 2A  
CONDENSED STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET ASSETS**

	June 30, 2009	June 30, 2008	Increase (Decrease)	
			\$	%

Depreciation expense	890,151	834,964	55,187	6.61%
Taxes and tax equivalents	603,032	582,434	20,598	3.54%
Non-operating expenses	<u>145,686</u>	<u>151,938</u>	<u>(6,252)</u>	-4.11%
Total expenses	<u>19,102,220</u>	<u>17,809,651</u>	<u>1,292,569</u>	7.26%
Change in net assets	243,505	110,740	132,765	119.89%
Beginning net assets	<u>12,201,327</u>	<u>12,090,587</u>	<u>110,740</u>	0.92%
Ending net assets	<u>\$ 12,444,832</u>	<u>\$ 12,201,327</u>	<u>\$ 243,505</u>	2.00%

Operating revenues showed an 8.27% increase from 2007 to 2008 and an 11.36% increase from 2008 to 2009. There have been several plant closings in the county, which has caused total sales to drop over the past several years. However, utility rates increased substantially during that time frame and other areas have had an increase in sales, which has helped counteract the drop in industrial sales. Non-operating revenues have decreased 79.44% over the three year period, due primarily to decreasing interest rates on certificates of deposits and savings accounts the entity has cashed in certificates of deposit reducing the principal that interest is earned on. Expenses have increased 17.78% over the three year period, due primarily to costs of sales and service increasing over the period. Ending net assets increased 6.20% over the three year period due to the above mentioned facts.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of fiscal year 2009, the system had \$16.50 million (net of accumulated depreciation) invested in a broad range of utility capital assets. This investment includes land, land rights, distribution and transmission systems and their related equipment, and various types of equipment. Based on the uses of the aforementioned assets, they are classified for financial purposes as transmission plant, distribution plant, and general plant. This investment represents an overall increase (net of increases and decreases) of \$132 thousand or 0.81% over last year.

The following tables summarize the System's capital assets, net of accumulated depreciation, and changes therein, for the years ended June 30, 2009 and 2008. These changes are presented in detail in Note 3D to the financial statements.

**CAPITAL ASSETS AND DEBT ADMINISTRATION (Cont.)****Capital Assets (Cont.)**

Table 3A

	<b>CAPITAL ASSETS, NET OF ACCUMULATED DEPRECIATION</b>			
	June 30, 2009	June 30, 2008	Increase (Decrease)	
			\$	%
Transmission plant	\$ 114,017	\$ 126,770	\$ (12,753)	-10.06%
Distribution plant	14,011,004	14,092,341	(81,337)	-0.58%
General plant	2,097,926	1,962,965	134,961	6.88%
Construction in progress	281,573	190,406	91,167	47.88%
Total capital assets	<u>\$ 16,504,520</u>	<u>\$ 16,372,482</u>	<u>\$ 132,038</u>	0.81%

The major portion of the additions between 2008 and 2009 took place for the substation replacement. Due to an unexpected occurrence in 2005, a substation had to be replaced during the 2005 and 2006 fiscal years. The unexpected timing of this meant that the System had to issue revenue bonds in 2005 to cover the cost of this construction. The System plans on using existing financial resources in the future to keep upgrading existing systems and adding new systems. There was not a substantial increase in the fiscal year 2009.

Table 3B

	<b>CAPITAL ASSETS, NET OF ACCUMULATED DEPRECIATION</b>			
	June 30, 2008	June 30, 2007	Increase (Decrease)	
			\$	%
Transmission plant	\$ 126,770	\$ 139,523	\$ (12,753)	-9.14%
Distribution plant	14,092,341	13,984,536	107,805	0.77%
General plant	1,962,965	1,823,672	139,293	7.64%
Construction in progress	190,406	66,139	124,267	187.89%
Total capital assets	<u>\$ 16,372,482</u>	<u>\$ 16,013,870</u>	<u>\$ 358,612</u>	2.24%

**Debt Administration**

The System has outstanding Revenue Bonds of \$3.215 million as of June 30, 2009. Principal payments are due in the upcoming fiscal year in the amount of \$285 thousand with interest payments totaling approximately \$115 thousand also due. Details relating to the outstanding debt can be found in Note 3E. The System is well within its debt covenants and foresees no problems in the future relating to outstanding debt. The System also has no current plans to issue new debt or refund outstanding debt.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

During the fiscal year 2009, the System had rate changes as follows: quarterly fuel cost adjustments as set by TVA, a 3.41% wholesale firm base rate increase in October 2008. The System has not decided on any additional rate increases at this time. The fiscal year 2010 budget was approved unanimously at the July 2009 Board meeting. The County is actively recruiting new industries to the area to make up for past plant closures. Any new industry that comes to the area will increase the System's power sales and should help the overall financial condition of the System.

**CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide a general overview of the System's finances for all those with an interest in the System's finances and to demonstrate the System's accountability for the money it receives. Questions concerning any information provided in this report or requests for any additional information should be directed to the Office Manager of Benton County Electric System, P.O. Box 429, Camden, TN 38320.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2009 AND 2008**

**Chapter 2 NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

These are proprietary fund financial statements and include only the financial activities of Benton County Electric System (The System). The TCA code section 7-52-117(c) states "Subject to the provisions of section 7-52-132, the superintendent, with the approval of the supervisory body, may acquire and dispose of all property, real and personal, necessary to effectuate the purposes of this part. The title of such property shall be taken in the name of the municipality" (county). Therefore, Benton County Electric System does not possess sufficient corporate powers that distinguish it as a legally separate entity, and is considered a proprietary fund of Benton County, Tennessee.

**B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The System's financial statements are presented on the full accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The accounting policies of the System conform to applicable generally accepted accounting principles as defined in the pronouncements of the *Governmental Accounting Standards Board (GASB)*, *Financial Accounting Standards Board (FASB) Statements and Interpretations*, *Accounting Principle Board (APB) Opinions*, and *Accounting Research Bulletins (ARBs)*, issued on or before November 30, 1989. As allowed by GASB, the System has elected not to apply FASB Statements and Interpretations issued after November 30, 1989.

Proprietary funds distinguish operating revenues and expense from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the System are charges for sales to customers for sales and service. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**C. Assets, Liabilities, and Net Assets**

***Deposits and Investments***

The System's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the System to invest in certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities, obligations guaranteed by the U.S. government or its agencies, repurchase agreements and the state's investment pool.

Investments were made up entirely of certificates of deposits with a maturity of three months or more for the fiscal years ended June 30, 2009 and 2008.

***Accounts Receivable***

Trade receivables result from unpaid billings for electric service to customers and from unpaid billings related to work performed for or materials sold to certain entities. All trade receivables are shown net of an allowance for uncollectible accounts. The allowance for uncollectible customer accounts recorded by the System is based on past history of uncollectible accounts and management's analysis of current accounts.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

**C. Assets, Liabilities, and Net Assets (Cont.)**

***Inventories and Prepaid Items***

All inventories are valued at the lower of average cost or market, using the first-in/first-out (FIFO) method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

***Restricted Assets***

Certain proceeds of the bond issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The System elects to use restricted assets before unrestricted assets when the situation arises where either can be used.

***Capital Assets***

Capital assets, which include property, plant, equipment, and construction in progress, are defined by the System as assets with an initial, individual cost of more than \$500 (amount not rounded) and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Assets acquired through contributions from developers or other customers are capitalized at their estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the System is depreciated using the straight line method over the following useful lives:

General plant	5 - 40 years
Transmission plant	28 - 33 years
Distribution plant	16 - 40 years

***Compensated Absences***

It is the System's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay has been accrued and is reflected as a long-term liability on the financial statements. All sick leave has been accrued at 75% of the total value and is reflected as a long-term liability on the financial statements.

In March 1997, the System approved a policy that would permit employees, at their discretion, to give sick leave to another employee involved in a catastrophic illness where such an employee had exhausted all available sick leave and vacation. The leave would be paid at the rate the employee receiving leave is currently earning. The Board feels that the 75% approximation of sick leave accrued is enough to cover any expenditures for leave under this policy.

***Long-term Obligations***

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

**C. Assets, Liabilities, and Net Assets (Cont.)**

*Net Assets*

Equity is classified as net assets and displayed in the following three components:

- Invested in Capital Assets, net of related debt – Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds that are attributable to the acquisition, construction, or improvement of those assets; debt related to unspent proceeds or other restricted cash and investments is excluded from the determination.
- Restricted for Debt Service – Consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates, less any related liabilities.
- Unrestricted – All other net assets that do not meet the description of the above categories.

**NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**A. Budgetary Information**

The System adopts flexible annual operating and capital budgets. Budgets are adopted on a basis consistent with generally accepted accounting principles. The current operating budget details the System's plans to earn and expend funds for charges incurred for operation, maintenance, certain interest and general functions, and other charges for the fiscal year. The capital budget details the plan to receive and expend cash basis capital contribution fees, special assessments, grants, borrowings, and certain revenues for capital projects.

All unexpended appropriations in the operating budget remaining at the end of the fiscal year lapse. Management submits a proposed budget to the Board prior to the July meeting and the budget is then adopted at that meeting for the next fiscal year. During the year, management is authorized to transfer budgeted amounts between line items.

**NOTE 3 - DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

*Custodial Credit Risk*

The System's policies limit deposits and investments to those instruments allowed by applicable state laws and described below. State statute requires that all deposits with financial institutions must be collateralized by securities whose market value is equal to 105% of the value of uninsured deposits. The deposits must be collateralized by federal depository insurance or the Tennessee Bank Collateral Pool, by collateral held by the System's agent in the System's name, or by the Federal Reserve Banks acting as third party agents. State statutes also authorize the System to invest in bonds, notes or treasury bills of the United States or any of its agencies, certificates of deposit at Tennessee state chartered banks and savings and loan associations and federally chartered banks and savings and loan associations, repurchase agreements utilizing obligations of the United States or its agencies as the underlying securities, the state pooled investment fund, and mutual funds. Statutes also require that securities underlying repurchase agreements must have a market value at least equal to the amount of funds invested in the repurchase transaction. As of June 30, 2009, none of the System's deposits were exposed to custodial credit risk.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

**NOTE 3 - DETAILED NOTES ON ALL FUNDS (Cont.)**

**B. Receivables**

Receivables as of the fiscal year ends were made up of the following:

	June 30,	
	2009	2008
Billed services for utility customers	\$ 1,150,646	\$ 1,288,248
Other receivables for utility services	-	82,795
Allowance for doubtful accounts	(8,567)	(8,484)
<b>Total</b>	<b>\$ 1,142,079</b>	<b>\$ 1,362,559</b>

**C. Restricted Assets**

All deposits required by the 2000 and 2004 Electric Plant Revenue Bonds have been made. Transactions in funds, other than the 2000 and 2004 Electric Plant Revenue Bond Funds are at the discretion of the Board of Directors and there are no applicable legal requirements or restrictions on these funds.

	June 30	
	2008	2008
The restricted assets consist of the following:		
2000 & 2004 Electric Plant Revenue Bond Funds		
Interest and sinking fund	\$ 176,261	\$ 168,234
Reserve fund	400,659	400,659
The total of these funds is represented by:		
Certificates of deposit and bank accounts	\$ 576,920	\$ 568,893

**D. Capital Assets**

Capital asset activity during the year was as follows:

Description	Balance at June 30, 2008	Additions	Disposals	Balance at June 30, 2009
Capital assets, not being depreciated				
Transmission plant	\$ 29,495	\$ -	\$ -	\$ 29,495

Total capital assets, net	<u>\$ 16,372,482</u>	<u>\$ 57,370</u>	<u>\$ (74,668)</u>	<u>\$ 16,504,520</u>

Depreciation expense amounted to \$916,711 for the fiscal year ended June 30, 2009 and \$890,151 for the fiscal year ended June 30, 2008.

**E. Long-term Debt**

Long-term debt is made up of the following:

	<u>June 30,</u>	
	<u>2009</u>	<u>2008</u>
Revenue Bonds:		
Electric Plant Revenue Bonds, Series 2000, interest at 4.2% to 5.25% due serially through 2020	\$ 720,000	\$ 760,000
Electric Plant Revenue Refunding Bonds, Series 2004, interest at 1.1% to 3.3% due serially through 2016	1,445,000	1,630,000
Electric System Revenue Bonds, Series 2005, interest at 3.9% due serially through 2025	<u>1,050,000</u>	<u>1,095,000</u>
Total Revenue Bonds	<u>3,215,000</u>	<u>3,485,000</u>
Total current portion of Revenue Bonds	<u>\$ 285,000</u>	<u>\$ 270,000</u>
Total long-term portion of Revenue Bonds	<u>\$ 2,930,000</u>	<u>\$ 3,215,000</u>

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

**NOTE 3 - DETAILED NOTES ON ALL FUNDS (Cont.)**

**E. Long-term Debt (Cont.)**

During 2005, Benton County issued \$1,225,000 Electric System Revenue Bonds, Series 2005, for the purpose of replacing a substation in Camden, Tennessee. The bonds bear interest at rates from 3.90% and mature serially in varying amounts from \$40,000 in fiscal year 2006 to \$85,000 in fiscal year 2025. The bonds are secured by a pledge of revenues by the System. Expenses incurred in the issuance of the bonds are being amortized by equal charges to operations over the life of the bonds.

On April 1, 2004, Benton County Electric System issued at par \$2,275,000 of electric system revenue refunding bonds, series 2004, for the purpose of refunding \$2,205,000 of then outstanding series 1995 and 1998 bonds. The 2004 bonds bear an interest rate varying between 1.1% and 3.3% and will be repaid in variable amounts, with the final payment due December 1, 2015. The refunded 1995 and 1998 bonds carried an interest rate varying between 3.9% and 5.3% and also were due in variable amounts, with the final payment due January 1, 2016.

Unamortized debt issuance costs and premium discounts of \$91,047 on the series 1995 and 1998 bonds were rolled into the new debt when the refunding was completed. These costs, along with an additional \$13,650 in premium discounts and \$53,859 in debt issuance costs on the series 2004 bonds, are now being amortized over the new debt issuance.

During 2000, Benton County issued \$1,000,000 Electric System Revenue Bonds, Series 2000, for the purpose of constructing a warehouse in Camden, Tennessee. The bonds bear interest at rates from 4.2% to 5.25% and mature serially in varying amounts from \$30,000 in fiscal year 2002 to \$80,000 in fiscal year 2020. The bonds are secured by a pledge of revenues by the System. Expenses incurred in the issuance of the bonds are being amortized by equal charges to operations over the life of the bonds.

The following is a summary of long-term debt transactions for the year ended June 30, 2009.

	Balance at June 30, 2008	Additions	Retirements	Balance at June 30, 2009	Due Within One Year
Revenue bonds payable	\$ 3,485,000	\$ -	\$ 270,000	\$ 3,215,000	\$ 285,000

The scheduled annual requirements for long-term debt at June 30, 2009, including interest of \$768,334 are as follows:

<u>Year Ending June 30.</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2010	285,000	114,754	399,754
2011	290,000	106,138	396,138
2012	300,000	96,796	396,796
2013-2016	1,310,000	277,580	1,587,580
2017-2021	705,000	147,034	852,034
2022-2025	325,000	26,032	351,032
	<u>\$ 3,215,000</u>	<u>\$ 768,334</u>	<u>\$ 3,983,334</u>

**F. Net Assets**

Net assets represent the difference between assets and liabilities. The restricted net assets amounts were as follows:

	<u>June 30</u>	
	2009	2008
Invested in capital assets, net of related liabilities		
Net property, plant and equipment in service	\$ 16,504,520	\$ 16,372,482
Unamortized bond issue costs	128,356	-
Less: Debt as disclosed in Note 3E	(3,215,000)	(3,485,000)
	<u>13,417,876</u>	<u>12,887,482</u>
Restricted for debt service:		
Restricted investments	576,920	568,893
Less: Current liabilities payable from restricted assets	(9,220)	(10,516)
	567,700	558,377
Unrestricted	<u>(1,028,285)</u>	<u>(1,001,027)</u>
Total net assets	<u>\$ 12,957,291</u>	<u>\$ 12,444,832</u>

**NOTE 4 - OTHER INFORMATION**

**A. Pension Costs**

The following pension information is for the year ended June 30, 2009, with exception of Annual Pension Costs which is presented with June 30, 2008 information. It is the most current information available.

Tennessee Consolidated Retirement System

All employees hired after November 22, 1988 are included with the employees of Benton County and are covered under the Tennessee Consolidated Retirement System, a multi-employer plan. The System's payroll for these employees totaled \$1,179,806 with employer contributions of \$58,990 (5% of covered wages) and employee contributions of \$76,333. Additional disclosures pertaining to the System's employees may be obtained by referring to the Benton County Comprehensive Annual Financial Report.

Central Service Plan (CSA)

The System participates in a multi-employer pension plan sponsored by Central Service Association (the Plan). Substantially all employees are covered by this trusteed, contributory pension plan. The System funds both the employee and employer portion of the pension plan. Contributions to the plan were \$232,000. The System's payroll for employees covered by the plan for the year ended June 30, 2009 was \$1,074,508 and the total payroll for the year was \$2,340,569.

Plan Description: The following description of the Plan is provided for the Central Service Association Employee Retirement Plan in total. Plan net assets and accumulated plan benefit information relative to the System's portion of the multi-employee plan are not determinable.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

**Chapter 3 NOTE 4 - OTHER INFORMATION (Cont.)**

**A. Pension Costs (Cont.)**

The Plan is a multi-employer defined benefit plan with employees eligible to participate on the date of employment. The employer contributes amounts sufficient to meet the actuarially determined funding requirements of the Plan in order to provide for anticipated benefits. The employer has a right to discontinue contributions at any time and terminate the Plan. In the event of termination of the Plan, the net assets of the Plan are to be used to purchase annuities for the participants in a specified manner.

However, the Pension Benefit Guaranty Corporation guarantees the payments of all non-forfeitable basic benefits, subject to certain limitations prescribed by the Employee Retirement Income Security Act of 1974 (ERISA).

**Funding Policy:** The contributions of the employer are made in amounts sufficient to fund the Plan's current service costs on a current basis and to fund the initial past service costs plus interest thereon over 20 years. The Plan has met the ERISA minimum funding requirements.

**Annual Pension Costs:** For the year ended June 30, 2008, the System's annual pension cost of \$360,544 for the Plan was equal to the System's required and actual contributions. The required contribution was determined as part of the October 1, 2007 actuarial valuation using the Frozen Entry Age Actuarial Cost Method. The actuarial assumptions included (a) 7% investment rate of return (net of administrative expenses), (b) projected salary increases of 5%, including cost of living adjustments. The actuarial value of Plan assets was determined using the following: The pension account is maintained in accordance with the Group Annuity contract between the Plan Sponsor and Massachusetts Mutual. Assets are assigned to the General Investment Account for the Insurance Company where investments are comprised mainly of bonds and mortgages. For valuation purposes, the unadjusted value of the Pension Account assigned by the Insurance Company is used.

For assets held in separate investment accounts the Actuarial Value of Assets is equal to the average market value of assets, with phase-in, as defined in 1.412 (c) (2)-1(b)(7) of the regulations under Section 412 of the Internal Revenue Code. The averaging period is 5 years. The average market value is adjusted to be no greater than 120% and no less than 80% of the market value of assets.

**Three-Year Trend Information**

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
9/30/2007	\$ 218,674	103.39%	\$ 7,417
9/30/2006	220,668	128.75%	63,445
9/30/2005	6,198,868	105.23%	(12,768)

The information above is presented for all years that information is available. The information shown above for Year ending 9/30/05 and prior includes all entities covered by CSA. Separate information for the System became available for the year ended 9/30/06 and is subsequently reported separately.

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

Chapter 4 NOTE 4 - OTHER INFORMATION (Cont.)

**B. Power Contract**

The System has a power contract with the Tennessee Valley Authority (TVA) whereby the electric system purchases all its electric power from TVA and is subject to certain restrictions and conditions as provided for in the power contract. Such restrictions include, but are not limited to, prohibitions against furnishings, advancing, lending, pledging or otherwise diverting System funds, revenues or property to other operations of the county and the purchase or payment of, or providing security for indebtedness on other obligations applicable to such other operations.

**C. Risk Management**

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2009, the System purchased commercial insurance for all of the above risks. Settled claims have not exceeded this commercial coverage in any of the past three years and there has been no significant reduction in the amount of coverage provided.

**D. Other Post Employment Benefits**

Plan Description: Benton County Electric System sponsors a single-employer post-retirement. The plan provides medical, prescription and death benefits to eligible retirees and their spouses.

Funding Policy: The System intends to continue its policy of funding OPEB liabilities on a pay-go basis and to not pre-fund any unfunded annual required contribution as determined under GASB-45.

Annual OPEB Cost and Net OPEB Obligation: The System's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the System's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the System's net OPEB Obligation

Components of Net OPEB Obligation:

Annual Required Contribution	\$53,701
Interest on Net OPEB Obligation	\$0
Adjustment to Annual Required Contribution	\$0
Annual OPEB Cost (Expense)	<u>\$53,701</u>
Contributions Made	<u>(\$41,067)</u>
Increase in Net Obligation	<u>\$12,634</u>
Net OPEB Obligation (BOY)	\$0
Net OPEB Obligation (EOY)	\$12,634

**BENTON COUNTY ELECTRIC SYSTEM  
NOTES TO FINANCIAL STATEMENTS (Cont.)  
JUNE 30, 2009 AND 2008**

Chapter 4 NOTE 4 - OTHER INFORMATION (Cont.)

**D. OPEB Disclosure (Cont.)**

The System's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2008-2009 is as follows:

<u>Fiscal Year</u> <u>Ended</u>	<u>Annual OPEB Cost</u>	<u>OPEB Cost</u> <u>Contributed</u>	<u>Net OPEB</u> <u>Obligation</u>
06/30/2009	53,701	76.5%	12,634

Funded Status and Funding Progress: As of July 1, 2008, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was \$540,601 and the actuarial value of assets was \$0 resulting in an unfunded actuarial accrued liability (UAA11) of \$540,601.

The covered payroll (annual payroll of active employees covered by the plan) was \$2,153,962 and the ratio of the UAAL to the covered payroll was 25.10%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions out the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on substantive plan (the plan as understood by the employer and the plan members) and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 7.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan assets at the valuation date, and an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 5% after three years. The actuarial value of assets was determined using a standard balanced portfolio expectation for retirement plan asset returns. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2008 was 30 years.

The above pension information is for the year ended June 30, 2009. It is the most current information available for the CSA pension plan.

The information above is presented for all years that information is available. Information shown above included all entities covered by the CSA plan from 1998-2005. Separate information for the System was not available for those years. For the actuarial report dated 10/1/08, the information for the System was available and show seperately. Information in the future should also be shown seperately for the Sytem.

The above schedule is designed to show the extent to which a pension plan has been successful over time in setting aside assets sufficient to cover its actuarial accrued liability.

See the County's audited financial statements for further detail relating to the Tennessee Consolidated Retirement Plan.

**Report on Internal Control over Financial  
Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed  
in Accordance with *Government Auditing Standards***

Board of Directors  
Benton County Electric System  
Camden, Tennessee

We have audited the financial statements of the Benton County Electric System (the System), an enterprise fund of Benton County, Tennessee, as of and for the years ended June 30, 2009 and 2008, and have issued our report thereon dated August 31, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the System’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the System’s internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the System’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the System’s financial statements that is more than inconsequential will not be prevented or detected by the System’s internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the System’s internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the System’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that is required to be reported under *Government Auditing Standards*.

Board of Directors  
Benton County Electric System  
Camden, Tennessee

We noted certain matters that we reported to management of the System, in a separate letter dated August 31, 2009.

This report is intended solely for the information and use of the Board of Directors, management and State of Tennessee, Comptroller of the Treasury and is not intended to be and should not be used by anyone other than these specified parties.
