INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the
The Industrial Development Board of Jackson County
Gainesboro, Tennessee

I have audited the accompanying government-wide financial statements and the major governmental fund financial statements of The Industrial Development Board of Jackson County, a component unit of Jackson County, as of and for the nine years ended June 30, 2010, as listed in the table of contents. These financial statements are the responsibility of The Industrial Development Board of Jackson County's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the government-wide and the major governmental fund of The Industrial Development Board of Jackson County, as of June 30, 2010, and the respective changes in financial position thereof for the nine years then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. However, management has chosen to exclude this information.

My audit was conducted for the purpose of forming opinions on the government-wide and major fund financial statements. The Schedule of Statement of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual is presented for purposes of additional analysis and is not a required part of the basic financial statements. This schedule has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on it.

In accordance with *Government Auditing Standards*, I have also issued my report dated August 31, 2011 on my consideration of The Industrial Development Board of Jackson County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

--	--	------------------------

THE ACCOMPANYING NOTES ARE AN INTEGRAL PART OF THE FINANCIAL STATEMENT

**THE INDUSTRIAL DEVELOPMENT BOARD OF
JACKSON COUNTY, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 1 – Organization

The Industrial Development Board of Jackson County was incorporated February 21, 1978. The purpose of The Industrial Development Board of Jackson County is to do business as an industrial development corporation as prescribed by Chapter 210 of the Public Act of 1955, as codified in 6-2801, et seq. Tennessee Code Annotated, and as amended by Chapter 222, Public Act of 1959. It is a component unit of Jackson County, Tennessee. The directors are elected by the governing body of Jackson County. It must file a budget with Jackson County each year. Upon dissolution, the title to all funds and properties owned by The Industrial Development Board of Jackson County at that time shall become the property of Jackson County.

Note 2 – Government – Wide Financial Statements

The Government-wide financial statements include the Statement of Net Assets and the Statement of Activities. These statements report the governmental activities of the Industrial Development Board of Jackson County. The governmental activities are reported on the economic resources measurement focus on the accrual basis of accounting.

Note 3- Fund Financial Statements

To ensure observance of limitations and restrictions placed on the use of resources available to the Industrial Development Board of Jackson County, the accounts of the Board are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group. The fund financial statements report using current financial resources measurement focus and the modified accrual basis of accounting. The measurement focus of governmental fund accounting is on expenditures rather than expenses. Most expenditures are measurable and are recorded when the related liability is incurred.

Note 4 - Capital Assets and Depreciation

The Industrial Development Board of Jackson County's property, plant and equipment with useful lives of more than one year are stated at historical cost. The capital assets purchased in the current year are reported in the fund financial statements as expenditures in the current year. Donated assets are stated at fair value on the date donated. The Industrial Development Board of Jackson County generally capitalizes assets that have a cost of over \$5,000 and have a useful life of more than one year.

The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. All capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations.

Note 5 – Cash and Cash Equivalents:

Cash and cash equivalents consist of demand deposits with original maturities of three months or less with local financial institutions. The organization's cash at June 30, 2010 was maintained as follows: The operating fund, the development fund and the rental fund were maintained in separate checking accounts.

Note 6 – Compensated Absences

The Board has no employees; therefore compensated absences are not accrued in the financial statements.

Note 7 – Cash in Bank

The Tennessee Government Code requires Tennessee banks and savings and loan associations to secure a governmental entity's deposits by pledging government securities as collateral. The market value of pledged securities must equal 105% of the entity's deposits. The entity may waive collateral requirements for deposits that are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) or Savings Association Insurance Fund (SAIF).

At June 30, 2010, the carrying amount of The Industrial Development Board of Jackson County's cash deposits was \$262,714.87. All cash deposits are covered by the Federal Deposit Insurance Corporation up to the limit of \$250,000.00. Any amounts in excess of this limit are covered by the Tennessee Collateralization Pool. The Board is authorized to deposit and invest funds according to the provisions of Section 5-8-301 of the Tennessee Code Annotated. [Acts 1992, ch. 891, section 10].

Note 8 – Budget

The director of the Industrial Development Board of Jackson County and staff compile the budget. It is then brought before the city and county for approval. Changes made by the city or county are not reflected in the budget. This is a non-appropriated budget used for guidance only and is not legally binding.

Note 9 - Risk

The Industrial Development Board of Jackson County maintains general liability and property insurance on Buildings. There have been no claims or settlement that exceeded coverage during the prior three years.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors of the
The Industrial Development Board of Jackson County
Gainesboro, Tennessee

I have audited the accompanying government-wide financial statements and the major governmental fund financial statements of The Industrial Development Board of Jackson County, a component unit of Jackson County, as of and for the nine years ended June 30, 2010, and have issued my report thereon dated August 31, 2011. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing my audit, I considered Jackson County Industrial Development Board's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing my opinion on the effectiveness of Jackson County Industrial Development Board's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Jackson County Industrial Development Board's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. I did not identify any

deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jackson County Industrial Development Board's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of the management and federal awarding agencies and pass-through entities and the State of Tennessee Comptroller of the Treasury and is not intended to be and should not be used by anyone other than these specified parties.
