INDEPENDENT AUDITOR'S REPORT

Board of Directors
Dyer County E911 Emergency Communication District
Dyersburg, Tennessee

We have audited the accompanying statement of net assets of Dyer County E911 Emergency Communication District, a component unit of Dyer County, Tennessee, as of June 30, 2011 and the related statements of revenues, expenses, and changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Dyer County E911 Emergency Communication District at June 30, 2011, the results of its operations and its cash flows for the year then ended in conformity with accounting principles as generally accepted in the United States of America.

Government Accounting Standard Board Statement No. 34 requires the inclusion of a Management Discussion and Analysis Letter, however the management of Dyer County E911 has decided not to include this letter in the June 30, 2011 report.

In accordance with Government Auditing Standards, we have also issued our report dated May 29, 2012, on our consideration of Dyer County E911 Emergency Communication District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Board of Directors
Dyer County E911 Emergency Communication District
Dyersburg, Tennessee
Page 2

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying financial information is presented for purposes of additional analysis and is not a required part of the basic financial statements of Dyer County E911 Emergency Communication District. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

A handwritten signature in black ink that reads "Joe M. Enoch & Associates". The signature is written in a cursive style with a long horizontal flourish extending to the right.

DYER COUNTY E911 EMERGENCY COMMUNICATION DISTRICT
Dyersburg, Tennessee
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2011

Note 1 - Significant Accounting Policies

The Dyer County E911 Emergency Communication District (the "District"), a component unit of Dyer County, was formed under the provisions of the "Emergency Communication District Law" of the State of Tennessee. The District has a board of directors appointed by the Dyer County legislative body.

The District provides a uniform emergency number to shorten the time required for a citizen to request and receive emergency aid.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Although the District has the option to apply FASB pronouncements issued after November 30, 1989, it has chosen not to do so.

Reporting Entity

The District includes only the funds relevant to the operation of the Dyer County E911 Emergency Communication District. Dyer County E911 is a component unit of the primary government of Dyer County. Therefore, the financial statements of the District include only those funds controlled and administered by the District and the governing board of directors. Control is determined on the basis of budget adoption, taxing authority, funding and appointing of the governing board. The Dyer County Legislative body must approve issuance of debt for the District. They also have the ability to adjust the service charges of the District.

Cash and Cash Equivalents

For purposes of the statement of cash flows, only investments with original maturities of less than three months are considered to be cash equivalents.

Basis of Accounting

The books and records of Dyer County E911 Emergency Communication District are maintained on a full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned, and expenses are recognized when they are incurred.

DYER COUNTY E911 EMERGENCY COMMUNICATION DISTRICT
Dyersburg, Tennessee
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2011

Note 1 - Significant Accounting Policies (Continued)

Property and Equipment

Fixed assets, including infrastructure assets, are recorded at cost and depreciation is computed using the straight-line method over the estimated useful lives of the assets. Any construction period interest is added to the cost of the related asset.

The following is a summary of fixed assets at June 30, 2010 and 2011.

| | <u>Balance</u> <u>6/30/2010</u> | <u>Additions</u> | <u>Retirements</u> <u>and Transfers</u> | <u>Balance</u> <u>6/30/2011</u> |
|--------------------------|------------------------------------|-------------------|--|------------------------------------|
| Land | \$ 10,930 | \$ - | \$ - | \$ 10,930 |
| Equipment | 1,326,600 | 734,883 | 45,111 | 2,016,372 |
| Total | 1,337,530 | 734,883 | 45,111 | 2,027,302 |
| Accumulated depreciation | 579,070 | 193,729 | 35,269 | 737,530 |
| Net Fixed Assets | <u>\$ 758,460</u> | <u>\$ 541,154</u> | <u>\$ (9,842)</u> | <u>\$ 1,289,772</u> |

Investments

Investments of the District consist of certificates of deposit at banks. Investments are valued at cost. The District is allowed to invest in the following: bonds, notes, or treasury bills of the United States; nonconvertible debt securities of the Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, and Student Loan Marketing Association; and other obligations which are guaranteed as to principal and interest by the United States or any of its agencies; certificate of deposit at state and federal chartered banks and savings and loans.

Collateralization of Deposits

The District is mandated by law to require that the financial institutions in which they maintain deposits pledge securities to collateralize deposits which are in excess of the amount covered by federal insurance. At June 30, 2011 the District's carrying amount of deposits was \$949,126 and the bank balance was \$954,794. Of the bank balance, \$569,069 was covered by federal depository insurance and \$385,725 was covered by collateral held by the District's agent in the District's name.

Budget

The District is required by state law to adopt an annual budget that is approved by the Board of Directors. The budget is adopted on a basis consistent with generally accepted accounting principles and once approved, it can be amended only by a majority vote of the Board of Directors. All annual appropriations lapse at fiscal year end.

DYER COUNTY E911 EMERGENCY COMMUNICATION DISTRICT
Dyersburg, Tennessee
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2011

Events Occurring After Reporting Date

The District has evaluated events and transactions that occurred between June 30, 2010 and May 29, 2012, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

In July 2010, the District paid the first installment of \$99,946, to purchase equipment that will be required to interface into the new Next Generation 9-1-1 network system. The total cost of this equipment upgrade is approximately \$399,795. This system will capitalize on advances in information and communications technologies, and will enable quicker and more robust information as the result of making a 9-1-1 call. It will also transfer 9-1-1 calls between geographically dispersed PSAP's if necessary, increase aggregation and sharing of data, resources, procedures, and standards to improve emergency response, and maximize public capital and operating cost savings for emergency communications services. The district received a grant in the amount of \$204,396 from the State of Tennessee to aid in this required equipment purchase.

During the fiscal year ending June 30, 2010, the District purchased a plat of land adjacent to the Communications Center for the construction of a building to house the Mobile PSAP. Construction on the building began in August 2010. The total construction costs of this building are expected to amount to just over \$200,000.

Note 2 - Concentration of Credit Risk

The District bills all telephone customers within its boundaries by a surcharge on the telephone bills. The telephone companies then remit the collections on a regular basis to the District. At June 30, 2011, these telephone companies are indebted to the District in the amount of \$15,608. There is no collateral or bonds securing these debts.

Note 3 - Revenue Recognition

Revenue is recorded at the time earned.

Note 4 - Operating Lease

The E911 District obtained an operating lease of some emergency telephone equipment from Bell South. There is no pre-arranged lease term on this lease. The E911 District is required to make monthly lease payments using an established rate for as long as the equipment is used by the E911 District. At any time, the E911 District may return the equipment to Bell South and thus terminate the operating lease.

Note 5 - Net Working Capital

At June 30, 2011, net working capital is \$971,055.

DYER COUNTY E911 EMERGENCY COMMUNICATION DISTRICT
Dyersburg, Tennessee
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2011

Note 6 - Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 7 - Risk Management

The District manages the various types of risk that apply through the use of commercial insurance. The District insures against the risk of loss of property and director's misappropriation of funds. There were no settlements in excess of insurance coverage in any of the past three years.

Note 8 –Contracts With Government Agencies

The District entered into an agreement with a local government entity whereby the local government provides technical consulting and mapping/addressing services to the District. \$17,600 was paid for these services during the year ending June 30, 2010.

Note 9 – Non-operating Revenue

The District received a reimbursement from the State Communications Board of \$10,000 for mapping and related expenditures to enhance wireless 911 service and \$32,000 for dispatcher training.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Dyer County E911 Emergency Communication District
Dyersburg, Tennessee

We have audited the accompanying financial statements of Dyer County E911 Emergency Communication District as of and for the year ended June 30, 2011, and have issued our report thereon dated May 29, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Dyer County E911 Emergency Communication District internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the Schedule of Findings, Recommendations and Responses that we consider to be significant deficiencies in internal control over financial reporting. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Dyer County E911 Emergency Communication District
Page 2

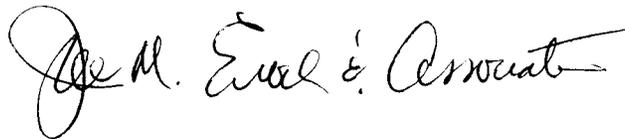

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dyer County E911 Emergency Communication District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

The Dyer County E911 Emergency Communication District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings, Recommendations and Responses. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the audit committee, the board of commissioners, specified legislative or regulatory bodies, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

DYER COUNTY E911 EMERGENCY COMMUNICATION DISTRICT
Dyersburg, Tennessee
SCHEDULE OF FINDINGS, RECOMMENDATIONS AND RESPONSES
June 30, 2011

Prior Year Findings Not Implemented

2009-1 Finding

Due to practical limitations in the size of the District, adequate segregation of duties is not present in the District's internal control structure. However, during the year the Board took an active interest in the financial transactions of the organization by reviewing detail transactions on a regular basis.

Recommendation

Management and the Board need to continue their efforts in complying with the control procedures that are in place to insure that transactions are properly documented and approved. The Board should continue to take an active interest in the financial transactions of the organization by reviewing detail transactions on a regular basis.

Management Response

We concur.

2009-2 Finding

Some of the balance sheet accounts and depreciation are not adjusted to the accrual basis at the end of the year.

Recommendation

An effort should be made to make accrual adjustments to the accounts at the end of the year.

Management Response

We agree, however we prefer those adjustments be made during the audit process with the approval and review of our bookkeeper.
