INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Henry County Emergency Communications District
Paris, Tennessee

We have audited the accompanying statement of net assets of the Henry County Emergency Communications District, a component unit of Henry County, Tennessee, as of June 30, 2011, and the related statement of revenues, expenses and changes in fund net assets, and statement of cash flows for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Henry County Emergency Communications District, and are not intended to present fairly the financial position of Henry County, Tennessee, and the results of operations and cash flows of its proprietary fund types in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Henry County Emergency Communications District as of June 30, 2011, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information of pages 2 through 5 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Henry County Emergency Communications District's basic financial statements. The budgetary comparison schedule, schedule of detailed expenses and schedule of expenditures of state awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information, except that which is marked "unaudited", on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

A handwritten signature in cursive script that reads "Cowart Reese Sargent". The signature is written in black ink and has a long, sweeping horizontal line extending to the right.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Henry County Emergency Communications District, we offer readers of the District's financial statements this narrative overview and analysis of the District's performance during the fiscal year ending June 30, 2011. Please read it in conjunction with the District's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report includes this management's discussion and analysis report, the independent auditor's report and the basic financial statements of the District. The financial statements also include notes that explain in more detail some of the information in the financial statements.

REQUIRED FINANCIAL STATEMENTS

The financial statements of the District report information of the District using accounting methods similar to those used by private sector companies. These statements offer both short-term and long-term information about its activities. The statement of net assets includes all of the District's assets and liabilities and provides information about where the District has invested its resources (assets) and the obligation to the District's creditors (liabilities).

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Fund Net Assets. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through surcharges and fees.

The final required financial statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is "Is the District better off or worse as a result of this year's activities?" The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets report information about the District's activities in a way that will help answer this question. These two statements report the net assets of the District and the changes in them. One can think of the District's net assets – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. A summary of the District's net assets and changes in them is presented on the following page.

ANALYSIS OF FINANCIAL POSITION AND RESULTS OF OPERATIONS

As can be seen from the summarized financial information on the previous page, the District's current assets have increased \$71,942 during the year ended June 30, 2011 and net capital assets increased \$59,589. The increase in net capital assets was due to the current depreciation expense being less than the cost of new equipment purchased during the year. All the new equipment was purchased from funds on hand and required no borrowing. Net assets increased by \$131,530. The emergency telephone service charge revenues, of the District, decreased by \$1,528. The state shared wireless revenues decreased by an amount of \$7,435. The District also received \$189,153 in state operational funding. With a decrease of \$114 in map sales and a increase of \$280 in other income, the overall result is an increase in total revenues of \$32,738. In addition, the District received \$10,000 in grants and reimbursements from the State Emergency Communications Board and \$4,909 in interest income.

The total operating expenses for the District decreased by 1%. The majority of the decrease in operating expenses is due to an decrease in salaries and wages and a decrease in fees paid to service providers. The nonoperating revenues decreased by \$12,738. This decrease is a result of lower interest rates on investment CD's.

BUDGETARY HIGHLIGHTS

The District adopts an annual operating budget, which includes proposed expenses and the means for paying those expenses. The budget is prepared on the cash basis of accounting. As conditions change during the year, the budget may be amended to prevent budget overruns.

The comparison between actual revenues and expenditures and budgeted revenues and expenditures are favorable. Income from residential and business phone lines are \$7,182 more than the amount budgeted and the state shared wireless charges are \$7,789 less than the amount budgeted. These revenue variances along with the state operational funding and favorable map and other income variance, there is a total favorable revenue variance of \$13,782 over the budgeted amounts.

All of the line item expenditures of the District show favorable variances when comparing the budgeted amounts with the actual amounts. The salaries and wages are under the budgeted amounts by \$16, while the employee benefits are under the budgeted amounts by \$262. Contracted services indicate a favorable variance of \$44,221. This is due to the architects fees of \$38,870 that were budgeted as expenses, but were capitalized. The supplies and materials have a favorable variance of \$2,863, while the other charges have a favorable variance of \$18,761. The overall effect of the favorable revenue and expenditure variances is a \$66,123 favorable variance, as compared with the budgeted amounts. These figures are based on a cash basis actual to budget comparison.

CAPITAL ASSETS

The District's investment in capital assets amounts to \$934,613 with accumulated depreciation of \$639,046. Investments in capital assets are \$130,814 for the current year. Capital assets include communications equipment, furniture and fixtures, a vehicle, as well as office equipment.

ECONOMIC FACTORS AND FUTURE NEEDS

The main economic factor facing Henry County Emergency Communications District is the decrease in revenue generated from landline telephones. Many individuals are using cellular phones and VOIP services instead of landline services. While the increase in cell phone and VOIP services generate revenue, only a portion of that revenue is being returned to each 911 district under the current system being used by the state for distributing shared wireless fees. Due to the steady number of individuals who change their service providers during a given year, in addition to the continual emergence and departure of telephone service providers, it is extremely difficult to estimate revenues for budgeting purposes.

The increased availability of state grants and reimbursements is also a major economic factor for the District. The District's ability to qualify for the various types of grants and reimbursements enables the District to acquire and maintain the necessary equipment and services to continue to operate the District efficiently and effectively.

This financial report is designed to provide the readers with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information, contact:

HENRY COUNTY EMERGENCY COMMUNICATIONS DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

NOTE 1 – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Henry County Emergency Communications District is a nonprofit organization, established under Tennessee law. The District was organized in 1989 to provide Emergency 911 service to the residents of Henry County. Although the District is considered a municipality under its enabling legislation, it cannot levy or collect taxes and the charges for services shall not be considered or classified as taxes. A volunteer board of directors who are appointed by the District's primary government manages the District. All Tennessee emergency communications districts are required to follow the *Accounting and Financial Reporting Manual for Tennessee Emergency Communications Districts*, developed by the Office of the Comptroller of the Treasury, Division of County Audit, pursuant to Section 7-86-304, *Tennessee Code Annotated*.

The District is a discretely presented component unit of Henry County, Tennessee, and the financial statements are presented in both the District's separate financial report and within the Henry County, Tennessee financial report. The District is considered a discretely presented component unit of Henry County as defined under the criteria set forth in Governmental Accounting Standards Board Statement No. 14, because the District would be unable to issue debt without going through Henry County, Tennessee.

Basis of Accounting and Financial Statement Presentation

The term "basis of accounting" is used to determine when a transaction or event is recognized on the District's operating statement. The District uses the full accrual basis of accounting. Under this basis, revenues are recorded when earned and expenses are recorded when incurred, even though actual payment or receipt may not occur until after the period ends.

The Governmental Accounting Standards Board (GASB) exercises jurisdiction over accounting and financial reporting for governments. The Financial Accounting Standards Board (FASB) exercises jurisdiction over private enterprises and nonprofits. The Office of the Comptroller of the Treasury requires Tennessee emergency communications districts to follow option one of GASB Statement No. 20. This option requires the District to follow only GASB guidance after November 30, 1989, and not follow any FASB guidance after that date.

Use of Estimates

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

Accounts receivable represent amounts due from various phone companies for emergency telephone surcharges and monthly reimbursable wireless fees.

Budgetary Policies

The District's Board of Directors approves an appropriatory budget annually. The budget is prepared on a cash basis, which differs from generally accepted accounting principles (GAAP) pertaining to proprietary funds, in that expenses are on the cash basis rather than the accrual basis. It is only necessary to present budgetary revenues and expenses compared to actual. The legal level of control is at each line item of expense; therefore, each line item must be amended prior to expending funds.

HENRY COUNTY EMERGENCY COMMUNICATIONS DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

**NOTE 1 – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

Cash and Cash Equivalents

For purposes of the statement of net assets and the statement of cash flows, Henry County Emergency Communications District considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

State statutes authorize the District to invest in certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities, obligations by the U.S. government or its agencies, repurchase agreements, as approved by the state director of local finance, and the state's local government pool.

Capital Assets

The District defines capital assets as assets with an initial cost of more than \$200 and an estimated useful life in excess of one year. Additions to capital assets are recorded at acquisition cost or estimated market value at the date of donation in the case of donated property. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 40 years. Interest costs incurred on financing during the construction or installation period of capital assets are capitalized as part of the cost of the assets. For the year under review, there were no interest costs capitalized.

Net Assets

Equity is classified as net assets. Net assets are categorized as invested in capital assets (net of related debt), restricted, and unrestricted.

- Invested in capital assets, net of related debt – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- Restricted – This component of net assets consists of constraints placed on net asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

- Unrestricted net assets – This component of net assets consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

HENRY COUNTY EMERGENCY COMMUNICATIONS DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

NOTE 1 – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital asset activity during the year was as follows:

	Balance at July 1, 2010	Additions	Deletions	Balance at June 30, 2011
Non-depreciable assets				
Land	\$ -	\$ 96,322	\$ -	\$ 96,322

Office Equipment	8,755	2,079	-	10,834
Communications Equipment	521,323	60,091	-	581,414
Vehicles	12,527	5,633	-	18,160
Total Accumulated Depreciation	567,821	71,226	-	639,047
Total Depreciable Assets, net	\$ 229,828	\$ (66,975)	\$ -	\$ 162,853
Total Capital Assets, net	\$ 235,978	\$ 59,588	\$ -	\$ 295,566

Income Taxes

Henry County Emergency Communications District is a tax-exempt organization under Section 115 of the Internal Revenue Code and, accordingly, no provision for federal income taxes has been made.

NOTE 2 – DEPOSITS AND INVESTMENTS

The Utility has implemented GASB Statement No. 40, *Deposit and Investment Risk Disclosures* for financial reporting of deposit risk.

HENRY COUNTY EMERGENCY COMMUNICATIONS DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Custodial Credit Risk – The Utility's policies limit investments to those instruments allowed by applicable state laws as described in Note 1. State statute requires that all deposits with financial institutions must be collateralized by securities whose market value is equal to 105% of the value of uninsured deposits. The deposits must be collateralized by federal depository insurance of the Tennessee Bank Collateral Pool, by collateral held by the Utility's agent in the Utility's name, or by the Federal Reserve Banks acting as third party agents. As of June 30, 2011 and 2010, all bank deposits were fully collateralized or insured.

NOTE 3 – MAJOR REVENUE SOURCE

Revenue for operation and maintenance of the Henry County Emergency Communications District is generated by a surcharge placed on residential and business phone lines. The major surcharge is collected by AT&T and remitted to the District monthly less a 1% administrative fee. The District also collects revenue generated by wireless phone users. The Tennessee Emergency Communications Board collects the revenue and distributes 25% of the funds to the Emergency Communications Districts based on the proportion of the population of each district to that of the state, according to the latest census.

NOTE 4 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District is covered through commercial insurance. Workers' compensation is covered through the Tennessee Municipal League Risk Management Pool. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 5 – SUBSEQUENT EVENTS

The District has evaluated subsequent events through January 5, 2012, the date which the financial statements were available to be issued.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors

Henry County Emergency Communications District

Paris, Tennessee

We have audited the financial statements of the Henry County Emergency Communications District, a component unit of Henry County, Tennessee, as of and for the year ended June 30, 2011, and have issued our report thereon dated January 5, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Henry County Emergency Communications District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Henry County Emergency Communications District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Henry County Emergency Communications District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Henry County Emergency Communications District’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the management and the board of the Emergency Communications District of Henry County Tennessee and the State of Tennessee, Comptroller Office, Division of County Audit and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
