INDEPENDENT AUDITORS' REPORT

The Board of Directors
Tennessee Duck River Development Agency
Shelbyville, Tennessee

We have audited the accompanying financial statements of the governmental activities and each major fund of the Tennessee Duck River Development Agency (the "Agency"), as of and for the year ended June 30, 2012, which collectively comprise the Agency's basic financial statements as listed in the Table of Contents, pages 8 through 18. These financial statements are the responsibility of the management of the Tennessee Duck River Development Agency. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the Tennessee Duck River Development Agency, as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2012, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 through 7 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management and the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the Agency's basic financial statements. The General Fund Schedule of Expenditures and Net Changes in Fund Balance, Budget to Actual is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund Schedule of Expenditures and Net Changes in Fund Balance, Budget to Actual, is fairly stated in all material respects in relation to the financial statements as a whole.

Executive Director	Doug Murphy
Director of Finance and Administration	Linda Justice

Management's Discussion and Analysis

As management of the Tennessee Duck River Development Agency (the "Agency"), we offer readers of the Agency's financial statements this narrative overview and analysis of the financial activities of the Agency for the fiscal year ended June 30, 2012.

Financial Highlights

- The assets of the Agency exceeded its liabilities at the close of the most recent fiscal year by \$85,526 (*net assets*). Except for investments in capital assets, all of this amount may be used to meet the Agency's ongoing obligations to projects and vendors.
- The Agency's total net assets increased by \$13,264. The Agency's budget included a minimal increase in net assets and the Agency withdrew only necessary amounts from Trust B and the Water Supply escrow.
- As of the close of the current fiscal year, the Agency's General Fund reported ending fund balance of \$44,549, an increase of \$19,293 in comparison with the prior year. This represents 5.26% of total general fund expenditures. With the exception of amounts spent on prepaid expenses and deposits, the entire amount is *available for spending* at the Agency's discretion (*unrestricted net assets*).

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Agency's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

The *statement of activities* presents information showing how the Agency's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The governmental activities of the Agency include the operating and administrative fund.

Fund financial statements. A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The General Fund, the only fund of the Agency, is a governmental fund.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Agency maintains one governmental fund, the General Fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and is considered to be a major fund.

The Agency adopts an annual budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government’s financial position. In the case of the Agency, assets exceeded liabilities by \$85,526 at the close of the most recent fiscal year.

A portion of the Agency’s net assets is invested in capital assets (e.g., land, buildings, and building improvements). There is no outstanding debt related to the Agency’s capital assets. The Agency uses these capital assets to provide services to constituents; consequently, these assets are not available for future spending as of and for the year ended:

	2012	2011
Current assets	\$ 69,332	\$ 54,164
Capital assets	40,977	47,006
Total assets	110,309	101,170
Current liabilities	24,783	28,908
Invested in capital assets	40,977	47,006
Unrestricted net assets	44,549	25,256
Total net assets	\$ 85,526	\$ 72,262

The remaining balance of unrestricted net assets may be used to meet the Agency’s ongoing obligations to constituents and creditors.

At the end of both the current and prior fiscal years, the Agency reported positive balances in both categories of net assets. There was an increase of \$13,264 in net assets reported.

Governmental activities. Governmental activities make up the entire net asset balance, thus are responsible for the changes in total net assets. Key elements of this change are as follows:

	2012	2011
Revenues:		
Trust Fund B - administrative	\$ 207,465	\$ 201,405
Trust Fund B - program revenues	37,600	37,600
TVA reimbursements	30,400	30,400
Water Supply Projects	76,979	276,902
Drought management plan	30,979	368
Duck River cleanup	2,535	5,165
Miscellaneous income	26	101
Total revenues	<u>385,984</u>	<u>551,941</u>
Expenses:		
Administration	194,004	205,271
Programs	<u>178,716</u>	<u>346,863</u>
Total expenses	<u>372,720</u>	<u>552,134</u>
Increase (decrease) in net assets	13,264	(193)
Net assets - beginning of the year	<u>72,262</u>	<u>72,455</u>
Net assets - end of the year	<u>\$ 85,526</u>	<u>\$ 72,262</u>

Financial Analysis of the Government's Funds

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Agency's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable resources*. Such information is useful in assessing the Agency's financing requirements. In particular, *fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Agency. At the end of the current fiscal year, fund balance of the general fund was \$44,549.

The fund balance of the Agency's General Fund increased \$19,293 during the current fiscal year due to management operating under budget on several administrative items and projects.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget can be briefly summarized as follows:

- Management added an additional \$1,000 to the Professional Services budget to allow for accounting consultation services to be purchased.
- An additional \$15,000 was added to the Water Supply Projects budget to account for additional consultation services related to the drought management plan and drought forecasting that had not been planned for at the beginning of the year.

Significant budget to actual variations are explained below:

- It is management's strategy to limit withdrawals to necessary expenses in administrative uses. During 2012, management was able to leave \$22,330 of the administrative revenue budget in Trust Fund B for future projects by operating under budget on various administrative expenses.
- The Agency also expended \$207,000 less than expected during 2012 due to engineering analysis for the Normandy Reservoir project taking longer than expected and not using a professional engineering firm for program management services.

Capital Asset Administration

Capital assets. The Agency's investment in capital assets for its governmental type activities as of June 30, 2012, amounts to \$40,977 (net of accumulated depreciation). This investment in capital assets includes land, buildings, and building improvements. There were additions to building improvements in the current year. The decrease in total capital assets was due to annual depreciation of \$6,029.

	2012	2011
Land	\$ 6,000	\$ 6,000
Buildings and improvements	34,977	41,006
Total capital assets	<u>\$ 40,977</u>	<u>\$ 47,006</u>

Additional information on the Agency's capital assets can be found in Note 3 of the Financial Section of this report.

Economic Factors and Next Year's Budget

The Agency's revenues for operations are limited to a maximum of sixty percent of the contributions by seven water systems in the Duck River Region in the prior year. Since the current year contributions totaled \$341,772 the Agency's 2013 fiscal year budget for the operating fund is limited to \$205,063.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

STATEMENT OF NET ASSETS

JUNE 30, 2012

	<u>PRIMARY GOVERNMENT GOVERNMENTAL ACTIVITIES</u>
ASSETS	
Cash and cash equivalents - unrestricted	\$ 44,655
Contract receivable	7,600
Due from Trust B	9,400
Due from Water Supply escrow	4,827
Prepaid expenses	2,550
Deposits	300
Capital assets, net of accumulated depreciation:	
Land	6,000
Buildings and improvements	<u>34,977</u>
Total assets	<u>110,309</u>
LIABILITIES	
Contract payable and accrued expenses	<u>24,783</u>
Total liabilities	<u>24,783</u>
NET ASSETS	
Invested in capital assets	40,977
Unrestricted	<u>44,549</u>
Total net assets	<u>\$ 85,526</u>

See accompanying notes to financial statements.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2012

<u>FUNCTIONS/PROGRAMS</u>	<u>EXPENSES</u>	<u>PROGRAM REVENUES OPERATING GRANTS AND CONTRIBUTIONS</u>	<u>NET (EXPENSE) REVENUE AND CHANGES IN NET ASSETS GOVERNMENTAL ACTIVITIES</u>
Governmental activities:			
Environmental programs	\$ 178,716	\$ 178,493	\$ (223)
Administration	194,004	207,465	13,461
Total governmental activities:	\$ 372,720	\$ 385,958	13,238
General Revenues:			
Interest			26
Total general revenues			26
Change in net assets			13,264

 <u>LIABILITIES AND FUND BALANCE</u>	
 LIABILITIES	
Contracts payable and accrued expenses	<u>\$ 24,783</u>
 FUND BALANCE	
Nonspendable	2,850
Unassigned	<u>41,699</u>
 TOTAL FUND BALANCE	 <u>44,549</u>
 TOTAL LIABILITIES AND FUND BALANCE	 <u>\$ 69,332</u>
 Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Total Fund Balance	\$ 44,549
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	<u>40,977</u>
Net Assets of Governmental Activities	<u>\$ 85,526</u>

See accompanying notes to the financial statements.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

STATEMENT OF REVENUES, EXPENDITURES, AND NET CHANGE IN FUND BALANCE

GOVERNMENTAL FUND

JUNE 30, 2012

	<u>GENERAL FUND</u>
REVENUES	
Trust Fund B - administrative	\$ 207,465
Trust Fund B - program revenues	37,600
TVA reimbursements	30,400
Water Supply Projects	76,979
Drought management plan	30,979
Duck River cleanup	2,535
Miscellaneous income	<u>26</u>
 TOTAL REVENUES	 <u>385,984</u>
 EXPENDITURES	
Current:	
Environmental programs	178,716
Administration	<u>187,975</u>
 TOTAL EXPENDITURES	 <u>366,691</u>
 EXCESS OF REVENUES OVER EXPENDITURES	 <u>19,293</u>
 NET CHANGE IN FUND BALANCE	 19,293
 FUND BALANCE, beginning of year	 <u>25,256</u>
 FUND BALANCE, end of year	 <u>\$ 44,549</u>

Amounts reported for governmental activities in the Statement of Activities are different from amounts reported for governmental funds in the Schedule of Revenues and Expenditures, and Net Change in Fund Balance because:

Net change in Fund Balance - Governmental Funds	\$ 19,293
 Governmental funds report capital outlays as expenditures. However, the cost of those assets is allocated over their useful lives and reported as depreciation expense for governmental activities.	 <u>(6,029)</u>
 Change in Net Assets of Governmental Activities	 <u>\$ 13,264</u>

See accompanying notes to the financial statements.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General and nature of entity

The Tennessee Duck River Development Agency (the "Agency") was established by a Public Act of the General Assembly of the State of Tennessee (the "State") in 1965 for the purpose of developing the natural and economic resources of the Duck River Basin (TCA 64-1-601 as amended). A 17-member Board of Directors ("DRA Board"), whose members are appointed by the Governor of Tennessee, governs the Agency. In 1998, the Agency adopted a new mission - "to develop, protect, and sustain a clean and dependable water resource for all citizens of the Duck River region."

The Agency, in agreement with Tennessee Valley Authority (TVA) and the State of Tennessee, receives funding from two trust funds. The Water Supply Escrow Fund is to be used only for the support of new or improved water supply infrastructure projects in the Duck River Watershed. Trust Fund B receives a nickel for every 1,000 gallons of water sold by seven Water Systems in the Duck River region. It allows the Agency to make annual withdrawals for its administrative budget up to 60% of the prior year's total contributions to the fund, and additional amounts for projects not to exceed \$50,000, provided the project is included in the Agency's Annual Work Plan. Other withdrawals may be made only with the written consent of both the Agency and a majority (60%) of the Water Systems.

Financial reporting entity

The financial statements present the accounts and operations of the Agency, which is the reporting entity. Because the Water Supply Escrow Fund and Trust Fund B are separate legal entities from the Agency, and the Agency is not financially accountable for the Water Supply Escrow Fund or Trust Fund B, the Trusts' assets, liabilities, and operations are excluded from the reporting entity.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the activities of the special purpose government.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-wide and fund financial statements (continued)

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Agency considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All revenues collected by the Agency are susceptible to accrual. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except for prepaid expenses, which are recognized when paid.

Measurement focus, basis of accounting, and financial statement presentation

The *general fund* is the Agency's primary operating fund. It accounts for all financial resources of the Agency, and is reported as a major governmental fund.

Budgetary data

A budget to actual schedule of revenues and expenditures for the general fund is included as supplementary information, although the budget is not legally adopted. Formal budgetary accounting is employed as a management control by the Agency.

Cash and cash equivalents

Cash and cash equivalents include highly liquid investments that have an original maturity date when acquired of three months or less.

Statutes authorize the Agency to invest in: (1) U. S. government securities and obligations guaranteed by the U. S. government; (2) deposit accounts at state and federal chartered banks and savings and loan associations; (3) the Local Government Investment Pool of the State of Tennessee; and (4) obligations of the United States or its agencies under repurchase agreements with certain restrictions.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and cash equivalents (continued)

Deposits in financial institutions are required by State statute to be secured and collateralized by the institutions. The collateral must meet certain requirements and must have a total minimum market value of 105% of the value of the deposits placed in the institutions less the amount protected by federal depository insurance. Financial institutions that participate in the bank collateral pool, as administered by the Treasurer of the State of Tennessee, determine the aggregate balance of their deposits for the System. Securities are pledged to the State Treasurer on behalf of the bank collateral pool as collateral for the participating institution's public deposits. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

Receivables

Receivables consist of payments due from other government agencies for contracted services and reimbursements due from Trust B and Water Supply Escrow for environmental program and project expenditures. Based on favorable collection history, no provision for uncollectible accounts receivable has been recorded.

Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital assets

Capital assets acquired for general governmental purposes are recorded as expenditures of applicable governmental funds and accounted for in the government-wide Statement of Net Assets. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are recorded at estimated fair market value at the time received. Depreciation expense is recorded on a straight-line basis, with lives ranging from 5 - 20 years. The Agency applies a capitalization threshold whereby an individual asset with a per unit cost of \$5,000 or more qualifies for capitalization. Certain exceptions may apply to this policy depending on the nature and expected life of the asset.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net assets

Government-wide net assets are divided into three components:

- Invested in capital assets, net of related debt - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- Restricted net asset - consist of net assets that are restricted by the Agency's creditors and by other contributors. The Agency has no restricted net assets as of June 30, 2012.
- Unrestricted - all other net assets are reported in this category.

Governmental fund balances

In the governmental fund financial statements, fund balances are defined as follows:

- Nonspendable - Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- Restricted - Amounts that can be spent only for specific purposes because of externally imposed conditions by grantors.
- Committed - Amounts that can be used only for specific purposes determined by a formal action by board of directors of the Agency.
- Assigned - Amounts that are designated by the board of directors or management for a particular purpose but are not spendable until there is a majority vote approval by the board of directors.
- Unassigned - All amounts not included in other spendable classifications.

The Agency has no restricted, committed, or assigned fund balances as of June 30, 2012.

Use of restricted resources

When an expense is incurred that can be paid using either restricted or unrestricted resources (net assets), the Agency's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the Agency's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications - committed and then assigned fund balances before using unassigned fund balances.

Reclassifications

Certain reclassifications have been made in the 2011 financial statements to conform to the 2012 presentation. These reclassifications had no effect on the results of operations previously reported.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2012

NOTE 2 - CASH AND CASH EQUIVALENTS

As of June 30, 2012, the Agency's demand deposit accounts amounted to \$44,505 and the petty cash balance amounted to \$150. Bank balances for such accounts totaled \$47,575, all of which was covered by federal depository insurance, or by an additional assessment agreement from financial institutions participating in the state collateral pool.

NOTE 3 - PROPERTY AND EQUIPMENT

A summary of changes in capital assets for the year ended June 30, 2012, is presented below:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Ending Balance</u>
Governmental activities:			
Capital assets, not being depreciated:			
Land	\$ 6,000	\$ -	\$ 6,000
Capital assets, being depreciated:			
Buildings and improvements	111,796	-	111,796
Equipment	7,800	-	7,800
Total capital assets, being depreciated	119,596	-	119,596
Less accumulated depreciation for:			
Buildings and improvements	(78,540)	(5,639)	(84,179)
Equipment	(50)	(390)	(440)
Total accumulated depreciation	(78,590)	(6,029)	(84,619)
Total capital assets, being depreciated, net	41,006	(6,029)	34,977
Governmental activities capital assets, net	<u>\$ 47,006</u>	<u>\$ (6,029)</u>	<u>\$ 40,977</u>

Depreciation expense of \$6,029 was charged to administration.

NOTE 4 - RISK MANAGEMENT

The Agency has purchased commercial insurance against the risk of losses on property, general liability, and workers compensation. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2012

NOTE 5 - RETIREMENT PLAN

Plan Description

As of July 1, 2008, employees of Tennessee Duck River Development Agency became members of the Political Subdivision Pension Plan ("PSPP"), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System ("TCRS"). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Participants joining the system after July 1, 1979 become vested after five years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated ("TCA"). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as the Agency participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, Tennessee 37243-0230, or can be accessed at <http://www.tn.gov/treasury/tcrs/PS/>.

Funding Policy

The Agency requires employees to contribute 5.00% of earnable compensation.

The Agency is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2012 was 5.98% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for the Agency is established and may be amended by the TCRS Board of Trustees.

NOTE 5 - RETIREMENT PLAN (CONTINUED)

Annual Pension Cost

For the year ending June 30, 2012, the Agency's annual pension cost of \$7,266 to TCRS was equal to the Agency's required and actual contributions. The required contribution was determined as part of the July 1, 2009 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. The Agency's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2009 was 19 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

<u>Fiscal Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
06/30/12	\$ 7,266	100.00%	\$ -
06/30/11	\$ 6,143	100.00%	\$ -
06/30/10	\$ 6,986	100.00%	\$ -

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 100.00 percent funded. The actuarial accrued liability for benefits was \$83,000, and the actuarial value of assets was \$83,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$0. The covered payroll (annual payroll of active employees covered by the plan) was \$117,000, and the ratio of the UAAL to the covered payroll was 0.00 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to AALs for benefits.

The annual required contribution (ARC) was calculated using the aggregate actuarial cost method. Since the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funding progress has been prepared using the entry age actuarial cost method for that purpose, and this information is intended to serve as a surrogate for the funded status and funding progress of the plan.

TENNESSEE DUCK RIVER DEVELOPMENT AGENCY

NOTE TO SUPPLEMENTARY INFORMATION

JUNE 30, 2012

NOTE 1- STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets and Budgetary Accounting

Annual budgets are adopted for the general fund on a basis consistent with generally accepted accounting principles ("GAAP"). Prior to June 30, the Finance Committee prepares a proposed operating budget for the fiscal year beginning July 1. This budget is submitted to the Board of Directors for review and approval. The budget includes all proposed expenditures and the anticipated means of financing them. Any revisions to the budget must be approved by the Board.

OTHER REPORT

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Directors
Tennessee Duck River Development Agency
Shelbyville, Tennessee

We have audited the accompanying financial statements of the governmental activities and each major fund of the Tennessee Duck River Development Agency (the "Agency"), as of and for the year ended June 30, 2012, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated December 11, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Agency is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Agency's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the board of directors, management, and the Comptroller of the Treasury, Department of Audit of the State of Tennessee and is not intended to be and should not be used by anyone other than these specified parties.
