**Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

The Board of Directors
Shelby County Health Care Corporation:

We have audited the financial statements of Shelby County Health Care Corporation (d/b/a The Regional Medical Center at Memphis), a component unit of Shelby County, Tennessee (The Med), as of and for the year ended June 30, 2012, and have issued our report thereon dated October 18, 2012. Our report states that the Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information required by U.S. generally accepted accounting principles and that the supplementary information included in Schedules 1, 2, and 3 is presented for purposes of additional analysis and is not a required part of the basic financial statements. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of The Med is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered The Med's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Med's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of The Med's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Med's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

* * * * *

We noted certain other matters that we reported to management of The Med in a separate letter dated October 18, 2012.

This report is intended solely for the information and use of the Board of Directors, management, the Department of Audit of the State of Tennessee, the government of Shelby County, Tennessee, and federal awarding agencies, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance With Requirements
That Could Have a Direct and Material Effect on
Each Major Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133**

The Board of Directors
Shelby County Health Care Corporation:

Compliance

We have audited Shelby County Health Care Corporation's (d/b/a The Regional Medical Center at Memphis), a component unit of Shelby County, Tennessee, (The Med) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (*OMB Circular A-133 Compliance Supplement*) that could have a direct and material effect on each of The Med's major federal programs for the year ended June 30, 2012. The Med's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of The Med's management. Our responsibility is to express an opinion on The Med's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about The Med's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of The Med's compliance with those requirements.

In our opinion, The Med complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of The Med is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered The Med's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the

purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of The Med's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards and Schedule of Expenditures of State of Tennessee Financial Assistance

We have audited the basic financial statements of The Med as of and for the year ended June 30, 2012, and have issued our report thereon dated October 18, 2012 which contained an unqualified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. We have not performed any procedures with respect to the audited financial statements subsequent to October 18, 2012. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. In addition, the accompanying schedule of expenditures of State of Tennessee financial assistance is presented for purposes of additional analysis as required by the State of Tennessee and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal awards and expenditures of State of Tennessee financial assistance are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

SHELBY COUNTY HEALTH CARE CORPORATION

(a Component Unit of Shelby County, Tennessee)

Notes to Schedule of Expenditures of Federal Awards and
Schedule of Expenditures of State of Tennessee Financial Assistance

Year ended June 30, 2012

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards summarizes the expenditures of Shelby County Health Care Corporation (d/b/a The Regional Medical Center at Memphis) (The Med) under programs of the federal government for the year ended June 30, 2012. The accompanying Schedule of Expenditures of State of Tennessee Financial Assistance summarizes the expenditures of The Med under programs of the state government that require an audit in accordance with the Office of Management and Budget Circular A-133 (collectively with the Schedule of Expenditures of Federal Awards, the Schedules). The amounts reported as federal and state expenditures were obtained from The Med's general ledger. Because the Schedules present only a selected portion of the operations of The Med, they are not intended to and do not present the financial position, results of operations, changes in net assets and cash flows of The Med.

For purposes of the Schedules, federal awards include all grants, contracts, and similar agreements entered into directly between The Med and agencies and departments of the federal government and all subawards to The Med by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The information in the Schedules is presented in accordance with the provisions of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

(2) Summary of Significant Accounting Policies

For the purposes of the Schedules, expenditures of federal and state award programs are recognized on the accrual basis of accounting.
