Clarksville Montgomery County E-911 Management's Discussion and Analysis

As management of the Clarksville Montgomery County E-911 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2012. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the District's financial statements, which follow this narrative.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the fiscal year by \$3,242,491 (net assets).
- The District's total net assets increased by \$458,869, primarily due to an increase in operating received from emergency telephone service charges, state shared wireless revenues distributed by the Tennessee Emergency Communication Board, and a decrease in the interest expenses paid by the District.
- As of the close of the current fiscal year, the District's enterprise fund reported ending fund balance of \$3,242,491 including an increase of \$458,869 due to operations. Approximately 44 percent of this total amount, or \$1,437,835, is available for spending at the government's discretion (unrestricted net assets).
- The District's total debt decreased by \$240,000, or 7% during the current fiscal year. The key factor in this decrease was the payment of principal on long-term debt secured by the building.

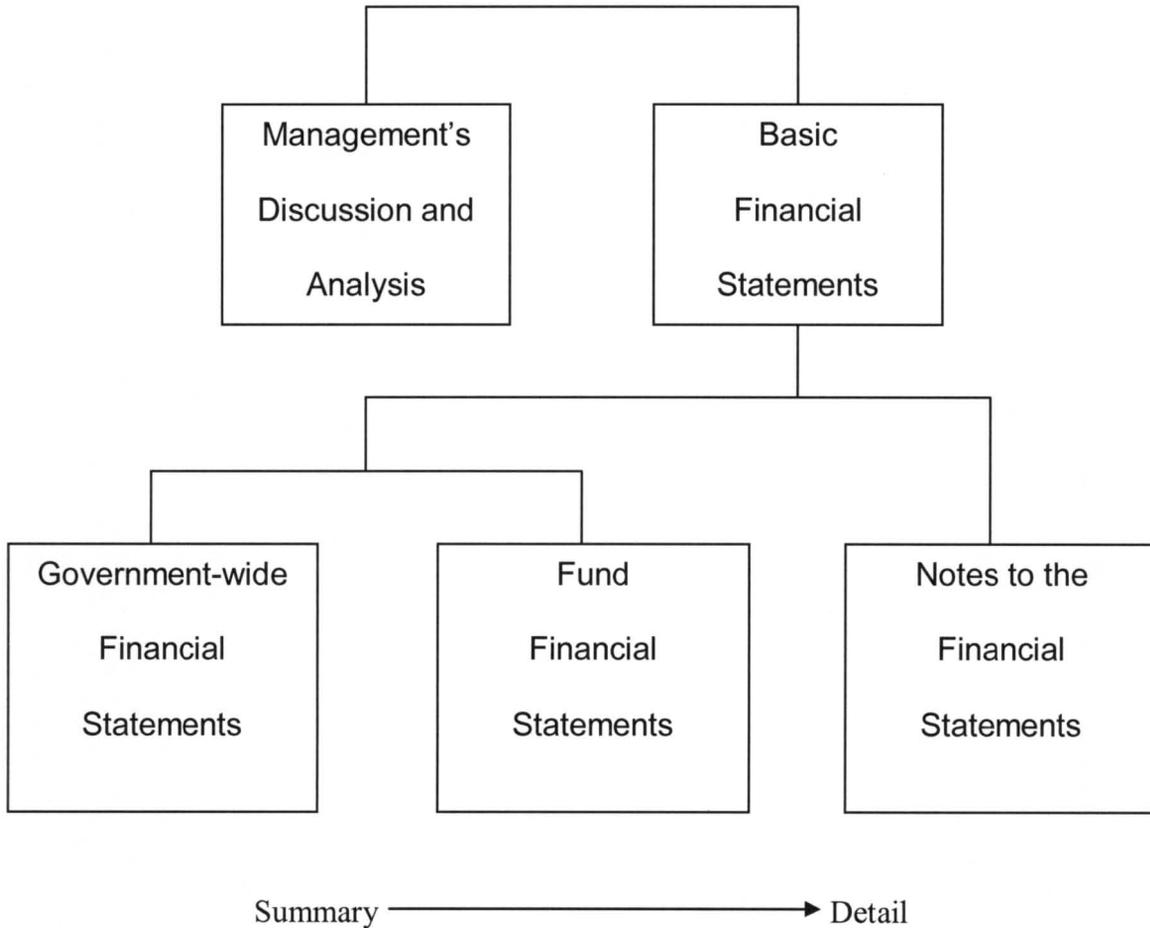

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the District through the use of government-wide statements and fund financial statements. The government wide and fund financial statements are not presented separately because they are essentially the same. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the District.

**Clarksville Montgomery County E-911
Management's Discussion and Analysis - Continued**

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The basic financial statements are the Government-wide and the Fund Financial Statements. They provide both short and long-term information about the District's financial status.

Fund Financial Statements focus on the activities of the individual parts of the District. These statements normally provide more details than the government-wide statements; however in the case of the District the statements are nearly identical. There are three parts to the Fund Financial Statements: 1) the governmental funds statement; 2) the budgetary comparison statement; and 3) the proprietary fund statement. The District's fund financial statements only contain proprietary fund statements.

Clarksville Montgomery County E-911 Management's Discussion and Analysis - Continued

The next sections of the basic financial statements are the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the District's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the District's financial status as a whole.

The two government-wide statements report the District's net assets and how they have changed. Net assets are the difference between the District's total assets and liabilities. Measuring net assets is one way to gauge the District's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; and 3) component units. The business-type activities are those that the District charges customers to provide services.

The government-wide financial statements are on pages 11-14 of this report.

Fund Financial Statements

The fund financial statements (see Figure 2) provide a more detailed look at the District's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like all proprietary funds in Tennessee, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the District's budget. The District only has proprietary funds.

Proprietary Funds – The District has one proprietary fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses its enterprise fund to account for its operations. These funds are the same as those functions shown in the business-type activities in the Statement of Net Assets and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 15-26 of this report.

**Clarksville Montgomery County E-911
Management's Discussion and Analysis - Continued**

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain supplementary information concerning the District's operations. Supplementary information can be found beginning on page 27-33 of this report.

Government-Wide Financial Analysis

The Clarksville Montgomery County E-911's Net Assets

Figure 2

	Business-Type Activities	
	2012	2011
Current and other assets	\$ 1,575,018	\$ 1,126,084
Capital assets, net	4,869,658	5,083,161
Total assets	6,444,676	6,209,245
Liabilities		
Current Liabilities	375,708	360,623
Other liabilities	2,826,477	3,065,000
Total liabilities	3,202,185	3,425,623
Net assets:		
Invested in capital assets, net of related debt	1,804,656	1,778,160
Unrestricted	1,437,835	1,005,462
Total net assets	\$ 3,242,491	\$ 2,783,622

As noted earlier, net assets may serve over time as one useful indicator of a government's financial condition. The assets of the District exceeded liabilities by \$3,242,491 and net assets increased by \$458,869 for the fiscal year ended June 30, 2012. However, 56% reflects the District's investment in capital assets (e.g. land, buildings, machinery, and equipment); less any related debt still outstanding that was issued to acquire those items. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. The remaining balance of \$1,437,835 is unrestricted.

Several particular aspects of the District's financial operations positively influenced the total unrestricted governmental net assets:

- Continued investment in the E911 District from Montgomery County and the City of Clarksville.
- Grants obtained from the State of Tennessee's Emergency Communications Board.
- Continued diligence by management to contain expenses.

**Clarksville Montgomery County E-911
Management's Discussion and Analysis - Continued**

Clarksville Montgomery County E-911 Changes in Net Assets

Figure 3

	Business Type Activities 2012	Business Type Activities 2011
Revenues:		
Program revenues:		
Charges for services	\$ 1,536,795	\$ 1,390,599
Operational Funding	345,113	345,095
Grants and contributions	655,282	591,337
Other	186,228	184,635
Total revenues	<u>2,723,418</u>	<u>2,511,666</u>
Expenses:		
Operating Expenses	2,114,857	2,253,354
Non Operating Expenses	149,693	200,409
Total expenses	<u>2,264,550</u>	<u>2,453,763</u>
Increase in net assets	458,868	57,903
Net assets, July 1	<u>2,783,623</u>	<u>2,725,720</u>
Net assets, June 30	<u>\$ 3,242,491</u>	<u>\$ 2,783,623</u>

Business-type activities: Business-type activities increased the District's net assets by \$458,868, accounting for 100% of the total growth in the government's net assets. The key element of this increase is as follows:

- An increase in Emergency Telephone Service Charges, and Tennessee Emergency Communications Board- Shared Wireless Charges, and decreases in expenses.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Proprietary Funds: The District's proprietary funds provide the same type of information found in the government-wide statements. Unrestricted net assets of the District at the end of the fiscal year amounted to \$1,437,835.

**Clarksville Montgomery County E-911
Management's Discussion and Analysis - Continued**

Budgetary Highlights: During the fiscal year, the District revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were more than the budgeted amounts primarily because of the increases in emergency telephone service charges and increases in the shared wireless revenue collected by the Tennessee Emergency Communications Board (TECB) and remitted to the District.

Operating expenses did not exceed the budget totals, primarily due to personnel vacancies.

Capital Asset and Debt Administration

Capital assets: The District's investment in capital assets for its business-type activities as of June 30, 2012, totals \$4,869,658 (net of accumulated depreciation). These assets include buildings and improvements, furniture and fixtures, communications equipment and other fixed assets.

There were no major asset additions or disposals in the current year.

District's Capital Assets

Figure 4

(net of depreciation)

	Business-type Activities 2011	Business-type Activities 2011
Building and Improvements	4,255,064	4,388,028
Furniture and Fixtures	-	-
Communications Equipment	587,603	661,441
Other Fixed Assets	26,991	33,692
Total	\$ 4,869,658	\$ 5,083,161

**Clarksville Montgomery County E-911
Management's Discussion and Analysis - Continued**

Additional information on the District's capital assets can be found in note 4 of the Basic Financial Statements.

Long-term Debt: As of June 30, 2012, the District had total bonded debt outstanding of \$3,065,000.

District's Outstanding Debt

Figure 5

	Business-type Activities	
	2012	2011
Revenue bonds	\$ 3,065,000	\$ 3,305,000
Total	\$ 3,065,000	\$ 3,305,000

The District's total debt decreased by \$240,000 during the past fiscal year, due to the principal payments on the bonds.

Additional information regarding the District's long-term debt can be found in note 7 beginning on page 23 of this report.

Economic Factors and Next Year's Budgets and Rates

Budget Highlights for the Fiscal Year Ending June 30, 2012

Business – type Activities: Revenues budgeted in fiscal year 2012 exceed the budget notably in the emergency telephone service charges for wireless usage and increases in emergency service charges. With continue cell phone usage as primary source of communication in household steadily increases, wireless usage fees are projected to steadily increase, whereas landline service charges are expected to decline. Pay step increases are scheduled to take effect in the upcoming fiscal year, as well as filing of vacant positions, will impact the overall personnel costs to the District. As equipment is beginning to reach the end to it useful life, an increase in equipment purchases will begin to increase in the coming fiscal year.

Requests for Information

This report is designed to provide an overview of the District's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Director, Betty Miller, and (931) 552-1011.

Independent Auditors' Report

We have audited the accompanying basic financial statements of Clarksville Montgomery County E-911, a component unit of Montgomery County, TN, as of and for the year ended June 30, 2012, as listed in the table of contents. These financial statements are the responsibility of the entity's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Clarksville Montgomery County E-911 as of June 30, 2012, and the changes in its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated February 20, 2013 on our consideration of Clarksville Montgomery County E-911's internal control over financial reporting and on tests of its compliance with certain provisions of laws, regulations and contracts. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards, and important for assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 - 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Clarksville Montgomery County E-911's financial statements taken as a whole. The introductory section on page 1 and supplementary information on pages 27-33 are presented for purposes of additional analysis as required by the Accounting and Financial Reporting Manual for Tennessee Emergency Communications Districts and are not a required part of the basic financial statements. The budgetary comparison schedule on pages 27-28 and schedules of detailed expenses on pages 29-33 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements**

Note 1 - Summary of Significant Accounting Policies

Organization

The Clarksville Montgomery County E-911 District (the District) was created as a "Municipality" or public corporation under authority of the provisions of Chapter 867 of the Tennessee Public Acts of 1984, and approved by the voters of Montgomery County, Tennessee on November 4, 1986. The powers of the District are vested in and exercised by a majority of the members of the Board of Directors. The Board consists of nine (9) members comprised of the County Sheriff, the Clarksville Chief of Police, the chairman of the E-911 user group, three (3) members (one of whom shall be a County Commissioner) nominated by the County Executive and approved by the Montgomery County Board of Commissioners, and three (3) members (one of whom shall be a member of the City Council) nominated by the Mayor and approved by the City Council. The District is considered a political sub-division of the County, and is exempt from Federal and State income tax.

Reporting Entity

The District, a component unit of Montgomery County, provides emergency communications and dispatch services for all fire, law enforcement and other emergency departments within the County. The District is a component unit of Montgomery County because it is fiscally dependent on the county. The District cannot issue bonded debt without approval of the County and it cannot adjust the rate of service charges without the County Commission's approval. The governing board of the District is appointed equally by the City and County and a substantial portion of operating revenues are provided by allocations from Montgomery County. The District's financial statements include only the assets and operations of the District, and do not include any other fund, organization, agency or department of the City or County.

Measurement Focus/ Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

District operations are accounted for on a cost of service measurement focus using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when the related liabilities are incurred.

Operating Revenues and Expenses

The accounts of the District are organized as a proprietary governmental fund. A proprietary fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the costs of providing services to the general public covered by the District are financed through user charges. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's ongoing operations.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 1 - Summary of Significant Accounting Policies-continued
Operating Revenues and Expenses-continued

The major sources of operating revenue are customer service charges, shared wireless charges and operating subsidies.

(1) Customer Service Charges

A monthly subscriber fee is added to each telephone line in Montgomery County. The charge is billed and collected by the telephone company and is remitted to the District after a deduction of a 1% administrative fee.

(2) Shared Wireless Charges

A monthly wireless E-911 fee is collected by the State of Tennessee from wireless customers and is remitted to the District.

(3) Operating Subsidies

The District receives an operating subsidy from the Tennessee Emergency Communications Board. The District also receives rent from the City and County on the 911 building.

Operating expenses for enterprise funds include expenses incurred relating to the operation and maintenance of its system. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Proprietary funds have the option of consistently following or not following FASB pronouncements issued subsequent to November 30, 1989. The District, considering the requirements of the Office of the Comptroller of the Treasury, will only follow GASB guidance issued after November 1989, and not follow any FASB guidance subsequent to November 1989.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Cash Equivalents

Cash and cash equivalents, as shown in the Statement of Cash Flows, includes all cash in bank accounts and on hand that is allocated for use by the District. For the purposes of the statement of cash flows, the District considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents. The cash flow statement is prepared in accordance with GASB statement No. 9 as the organization is considered a component of the County. As of June 30, 2012 there were no cash equivalents.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 1 - Summary of Significant Accounting Policies-continued

Accounts Receivable/Due from Tennessee Emergency Communications Board

The District has receivables due from communication service providers and the State ECB for service charges and tariffs. Based on the nature of the revenues there will always be at least one month's receivable at the end of the year.

There has been no allowance for doubtful accounts recorded because the probability of non-payment is low. Accounts receivable are recorded when incurred.

Accounts receivable is concentrated with two vendors. Both vendors are pass-thru entities that collect and forward wireless and land line collections from customers in Robertson County.

Fixed Assets and Depreciation

Fixed assets are recorded at cost. Capital expenditures of \$10,000 or more and certain sensitive equipment, such as computer equipment, are capitalized for future depreciation. General equipment costing less than \$10,000 is an expense of the period when placed in service. Computer software is not considered capital equipment. Depreciation and accumulated depreciation are recorded on capitalized equipment. Assets are depreciated using the straight-line basis, and a 5-40 year expected useful life as required by the Accounting and Financial Reporting Manual. The District capitalizes all significant purchases with a useful life greater than five years.

Budgets and Budgetary Accounting

The District board of directors formally approves the budget. The budget is adopted on a basis consistent with generally accepted accounting principles except that depreciation is not budgeted and the budgeted cost of fixed assets purchased is included as an expenditure. The District is required by Section 7-86-120, Tennessee Code Annotated, to adopt and operate under an annual budget. In addition, the Accounting and Financial Reporting Manual for Tennessee Emergency Communication Districts established the legal level of control, which is defined to be at the line item.

Budgeted amounts lapse at the end of the fiscal year and no unexpended balances are carried to the subsequent year.

A statement of comparison for the budgeted and actual revenues and expenditures is included in the Supplementary Information section of this report.

The budget was amended during the year by vote of the Board of Directors.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 1 - Summary of Significant Accounting Policies-continued

Leave Policies

Annual leave is accrued on a monthly basis from the effective date of an employee's appointment. Annual leave may be accrued up to a maximum 160 hours for less than 5 years of employment, 192 hours for 5-10 years of employment, and 200 hours for more than 10 years employment. At the end of each month, accrued hours for each employee in excess of the maximum are transferred to sick leave. On termination of employment, the District pays an accrued vacation leave in a lump cash payment to such employee. All accrued compensated absences are shown on the balance sheet as short-term liabilities since a reasonable estimation of the long-term portion cannot be made.

Sick leave is accumulated on a monthly basis from the effective date of an employee's appointment. Employees may accrue an unlimited number of hours. On termination of employment of any employee, for any reason except retirement, all sick leave is forfeited. On retirement of an employee, accrued sick leave is credited toward extending the computation of longevity. Accrued sick leave is not included as a liability in the balance sheet.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employee, natural disasters. The District has elected to obtain various insurance policies to transfer risk to a commercial insurance company either directly or through the Tennessee County Services Association Pool. Insurance settlements have not been in excess of insurance coverage in any of the prior three fiscal years. Insurance for the District is included in the policies written for Montgomery County and the City of Clarksville.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash Funds

Cash funds of the District are combined with other County funds and managed by the County Trustee. Interest earned on these combined cash funds is allocated as directed by the County Commissioners. Interest income of \$12,648 was allocated to the District during the current year.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 2 - Cash Deposits

Cash deposits are carried at cost which approximates fair value. The carrying amount of deposits is separately displayed on the balance sheet as \$1,402,421.

Custodial credit risk for the District's deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. At June 30, 2012, the deposits of the District were held by the Montgomery County Trustee in a combined fund with other Montgomery County deposits. The deposits of Montgomery County Trustee that exceed FDIC insurance limits are further insured by securities set aside as collateral and pledged to the State Treasurer of the State of Tennessee. This pledging is accomplished as prescribed by Tennessee State Code, Public Funds Collateral Pool Board.

State statutes authorize the District to invest in obligations of the federal government, federal agencies, state government, the state investment pool, certificates of deposit, other time deposits and repurchase agreements. The District's investment policy - via Montgomery County - follows state law which authorizes investments for emergency communications districts in Tennessee Code Annotated Section 5-8-301.

The District's deposits with financial institutions consist of the following at June 30, 2012:

	Maturity Date	Interest Rate	Carrying Amount	Bank Balance
Cash: Held in Pooled Checking	n/a	variable	\$1,402,421	\$1,409,918

Note 3 – Accounts Receivable

Accounts receivable consists primarily of amounts due for monthly service charges collected for the District:

AT&T	\$ 41,418
Other Service Providers	64,802
Due From TECB	66,377
Total	\$ 172,597

**Clarksville Montgomery County E-911

Note 5 – Operating Lease and Related Party Transactions

The District entered into a lease effective July 1, 2005 with Montgomery County, Tennessee, a related party, to lease the second floor of the E-911 Building. The base term of this lease is three years from July 1, 2005, continuing through June 30, 2008. A new two year agreement was entered into for the period from July 1, 2011 to June 30, 2013 at \$6,533/month. In addition, the lessee has agreed to pay a portion of the utility costs, maintenance salaries, custodial supplies, and trash collection on an annual basis. Said reimbursement shall be made monthly at \$3,369/month and shall be in an amount based on the prior year's costs.

The District also signed interlocal agreements with Montgomery County to receive compensation for dispatch services provided by the District and to compensate the District for a portion of the new PSAP equipment upgrade. The interlocal agreement for the offset of the PSAP upgrade is in place from July 1, 2009 thru June 30, 2013 at \$3,327/month. The interlocal agreement for the dispatch services was in place from July 1, 2011 through June 30, 2012 at 37,083/month. There were no amounts due to or from Montgomery County at June 30, 2012.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 5 – Operating Lease and Related Party Transactions – continued

Finally, Montgomery County has agreed to reimburse the District for a portion of the annual PSAP maintenance cost. The amount paid to the District for the year ending June 30, 2012 was \$7,740.

Note 6 – Retirement Plan

PLAN DESCRIPTION

Employees of Montgomery County 911 Emergency Communications District are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Montgomery County 911 Emergency Communications District participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at <http://www.treasury.state.tn.us/tcrs/PS/>.

FUNDING POLICY

Montgomery County 911 Emergency Communications District has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to five percent of annual covered payroll.

Montgomery County 911 Emergency Communications District is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2012 was 12.22% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for Montgomery County 911 Emergency Communications District is established and may be amended by the TCRS Board of Trustees.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 6 – Retirement Plan-continued

ANNUAL PENSION COST

For the year ending June 30, 2012, Montgomery County 911 Emergency Communications District's annual pension cost of \$127,272 to TCRS was equal to Montgomery County 911 Emergency Communications District's required and actual contributions. The required contribution was determined as part of the July 1, 2009 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. Montgomery County 911 Emergency Communications District's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2009 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FUNDED STATUS AND FUNDING PROGRESS

As of July 1, 2009, the most recent actuarial valuation date, the plan was 83.63 percent funded. The actuarial accrued liability for benefits was \$2.1 million, and the actuarial value of assets was \$1.7 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$0.3 million. The covered payroll (annual payroll of active employees covered by the plan) was \$1 million, and the ratio of the UAAL to the covered payroll was 35.25 percent.

Trend Information

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2012	\$127,272	100.00%	\$0.00
June 30, 2011	\$120,476	100.00%	\$0.00
June 30, 2010	\$130,915	100.00%	\$0.00

The schedules of funding progress present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

The annual required contribution (ARC) was calculated using the aggregate actuarial cost method. Since the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funding progress has been prepared using the entry age actuarial cost method for that purpose,

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 6 – Retirement Plan-continued

and this information is intended to serve as a surrogate for the funded status and funding progress of the plan.

Schedule of Funding Progress for Montgomery County 911 ECD
(Dollar amounts in thousands)

<i>Actuarial Valuation Date</i>	<i>Actuarial Value of Plan Assets (a)</i>	<i>Actuarial Accrued Liability (AAL) - Entry Age (b)</i>	<i>Unfunded AAL (UAAL) (b) - (a)</i>	<i>Funded Ratio (a/b)</i>	<i>Covered Payroll (c)</i>	<i>UAAL as a Percentage of Covered Payroll ((b-a)/c)</i>
July 1, 2011	\$2,290	\$2,566	\$276	89.25%	\$995	27.73%
July 1, 2009	\$1,745	\$1,932	\$187	90.32%	\$968	19.31%
July 1, 2007	\$1,524	\$1,729	\$205	88.14%	\$947	21.65%

The Governmental Accounting Standards Board (GASB) requires the plan to prepare the Schedule of Funding Progress using the entry age actuarial cost method. The requirement to present the Schedule of Funding Progress using the Entry Age actuarial cost method change went into effect during the year of the 2007 actuarial valuation, therefore only the two most recent valuations are presented.

Note 7 – Long-Term Debt

In 2001, an interlocal agreement was signed by the City of Clarksville and the District whereby the City of Clarksville agreed to furnish the land and issue revenue bonds for the construction of the new emergency dispatch center, and the District became responsible for the debt service to retire the revenue bonds. When the debt service is retired, the City will transfer title to the land and building to the District in fee simple free of all liens and encumbrances. This agreement constitutes a lease purchase and therefore a liability for the bond payable is recorded on the District's books. The interlocal agreements calls for the payments of the debt service to be due annually on June 1 and December 1 until 2018, with term bonds due June 1, 2020 and June 1, 2022.

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 7 – Long-Term Debt-continued

Annual debt service requirements to maturity are as follows:

<u>Year Ending</u>	<u>Lease Payable</u>	
	<u>Principal</u>	<u>Interest</u>
6/30/2013	\$ 250,000	\$ 140,093
6/30/2014	260,000	129,780
6/30/2015	270,000	118,860
6/30/2016	285,000	107,250
6/30/2017	295,000	94,710
Thereafter	1,705,000	286,961
Total	<u>\$ 3,065,000</u>	<u>\$ 877,654</u>

Long-Term debt for the year ended June 30, 2012 is as follows:

	<u>6/30/11</u>	<u>Additions</u>	<u>Reductions</u>	<u>6/30/12</u>	<u>Due Within One Year</u>
Revenue					
Bonds	\$ 3,305,000	\$ -	\$ 240,000	\$ 3,065,000	\$ 250,000
Total	<u>\$ 3,305,000</u>	<u>\$ -</u>	<u>\$ 240,000</u>	<u>\$ 3,065,000</u>	<u>\$ 250,000</u>

The total interest incurred on these liabilities for the year ending June 30, 2012 was \$149,693.

Note 8 - Economic Dependency

As of and for the year ended June 30, 2012, the District has the following balances and transactions with respect to major customers:

	<u>Revenues</u>	<u>A/R</u>
TECB	\$ 844,450	\$ 66,377
AT&T	\$ 574,789	\$ 51,418

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

**Note 9 - Other Postemployment Benefits (OPEB)
Self-Insurance Plan**

Plan Description

All full-time employees and eligible retirees of the primary government of Montgomery County including the emergency communications district are eligible to participate in the health and dental insurance cost sharing plan accounted for in the Self-Insurance Fund (internal service fund). For accounting purposes, the plan is an agent single-employer defined benefit OPEB plan. Benefits are established and amended by an insurance committee established by the County Commission.

Funding Policy

The premium requirements of plan members are established and may be amended by the insurance committee. The plan is self-insured and financed on a pay-as-you-go basis. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. The county develops its own contribution policy in terms of subsidizing active employees or retired employees' premiums.

An employee who retires from Montgomery County becomes eligible for retiree health coverage if they have 20 years of service and were enrolled in the health insurance program for at least two years. Montgomery County pays a portion of the premium for retirees and their spouses. Once the retirees or their dependent(s) become eligible for Medicare, the county coverage will become the secondary insurance provider.

Annual OPEB Cost and Net OPEB Obligation

Annual Required Contribution	\$	13,674
Interest on the Net OPEB Obligation		(78)
Adjustment on Annual Required Contributions		78
Annual OPEB Cost		13,674
Amount of Contribution		(237)
Increase/Decrease in Net OPEB Obligation		13,437
Net OPEB Obligation, July 1, 2011		(1,960)
 Net OPEB Obligation, June 30, 2012	 \$	 <u><u>11,477</u></u>

Fiscal Year	Plans	Annual OPEB Cost	Percentage of Annual OPEB Contributed	Net OPEB Cost Obligation at Year End
6/30/2012	Emergency Communications District	\$ 13,674	1.73%	\$ 11,477

**Clarksville Montgomery County E-911
(A Component Unit)
Notes to Financial Statements**

Note 9 - Other Postemployment Benefits (OPEB) - continued

Funded Status and Funding Progress

The funded status of the plan as of June 30, 2012, was as follows:

Actuarial Valuation Date	<u>1/1/2012</u>
Actuarial Accrued Liability (AAL)	\$ 106,704
Actuarial Value of Plan Assets	-
Unfunded Actuarial Accrued Liability (UAAL)	106,704
Actuarial Value of Assets as a Percentage of AAL	0.00%
Covered Payroll	\$ 1,138,639
Unfunded Actuarial Accrued Liability as a % of Covered Payroll	9.37%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2012, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 6.0 percent investment rate of return (net of administrative expenses) and an annual healthcare cost of 8% grading 6% over 6 years for 2012, with the assumption that annual medical costs will increase eight percent per year.

Note 10 – Subsequent Events

Subsequent events have been evaluated through February 17, 2012, which is the date the financial statements were available to be issued.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

February 20, 2013

To the Board of Directors
Clarksville Montgomery County E-911
Clarksville, TN 37040

We have audited the financial statements of Clarksville Montgomery County E-911 ("The District" - a component unit of Montgomery County) as of and for the year ended June 30, 2012 and have issued our report thereon dated February 20, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Clarksville Montgomery County E-911's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies in internal control over financial reporting: Finding 2012-1 and 2012-2. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is

less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and are described in the accompanying schedule of findings and responses as: Findings 2012-1 and 2012-2.

Clarksville Montgomery County E-911's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the management of Clarksville Montgomery County E-911, the Tennessee Emergency Communications Board, Tennessee State Comptroller's Office and other regulatory bodies and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings and Responses
June 30, 2012**

**Finding 2012-1 – Internal Control over Compliance with the Accounting Manual
(repeat finding)**

Condition: In the course of performing our audit, we noted 2 instances of non-compliance with the audit manual.

Criteria: TCA Section 7-86-124 requires that no board member on sole authority may authorize a transaction affecting a financial asset. Further, TCA Section 7-86-102(d) states that district funds are public funds and limited as to purposes.

Effect: The effect of these violations was unintentional noncompliance with each of these policies by the board of directors. Although not a board member, the Trustee of Montgomery County acted on sole authority and transferred funds of the district to a comingled account in an attempt to earn a higher rate of return on the investment without the board's authorization. Further, in prior years the additional earnings on the investments were transferred to the general fund of the county rather than transferred to the District to be used exclusively for the operations of the District. An attempt was made to calculate the interest due to the District and make restitution in the current audit year. Nevertheless, it appears that only \$8,300 of the estimated \$17,000 in interest was paid to the District. In addition, we were not able to obtain any evidence that the practice of allowing the Trustee to have sole authority over the cash account has been resolved.

Recommendation: We recommend that the board of directors modify the interlocal agreement relative to the Trustee acting on the behalf of the District for investments.

Response: We concur.

Finding 2012-2 – Internal Control over Payroll (repeat finding)

Condition: In the course of performing our audit, we became aware of a lack of internal controls over a segment of the District's payroll system. There are no internal controls in place to oversee the employee in charge of adding employees to the Districts payroll system.

Criteria: The management of an emergency communications district is required to establish and maintain a system of internal controls designed to meet its objectives and prevent fraud, abuse and errors.

Effect: Without a system of internal controls in place, an employee or number of fictitious employees could be added to the payroll system and their salaries diverted for personal use.

Recommendation: We recommend that controls be put into place to oversee the addition of employees to the District's payroll system
