INDEPENDENT AUDITOR'S REPORT

Board of Commissioners of the
Knoxville - Knox County Metropolitan Planning Commission
Knoxville, Tennessee

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major governmental fund of the Knoxville - Knox County Metropolitan Planning Commission ("MPC"), as of and for the years ended June 30, 2014 and 2013, the budgetary comparison of the general fund, and the related notes to the financial statements, which collectively comprise the MPC's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major governmental fund of the Knoxville - Knox County Metropolitan Planning Commission as of June 30, 2014 and 2013, and the respective changes in financial position and the budgetary comparison of the general fund for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise MPC's basic financial statements. The schedule of general fund expenditures, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), schedule of expenditures of state awards and introductory section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The information presented in the schedule of general fund expenditures and schedules of expenditures of federal and state awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information presented in the schedule of general fund expenditures and schedules of expenditures of federal and state awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The information included in the introductory section as listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2014 on our consideration of MPC's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Knoxville - Knox County Metropolitan Planning Commission's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Knoxville - Knox County Metropolitan Planning Commission (the Commission), we offer the readers of the Commission's financial statements this narrative overview and analysis of the financial activities of the Commission for the fiscal years ended June 30, 2014 and June 30, 2013. We encourage readers to consider the information presented here in conjunction with the information provided in the financial statements, notes to financial statements, and supplementary information when reviewing the Commission's financial activities and condition.

Financial Highlights for Fiscal Year 2014

- ❖ The assets of the Commission exceeded its liabilities at the close of the most recent fiscal year by \$1,035,192 (*net position*). Of this amount, \$1,022,260 (unrestricted net position) may be used to meet the Commission's ongoing obligations to citizens and creditors.
- ❖ The Commission's total net position increased by \$187,748. This increase is primarily the result of a combination of higher charges for services and increased grant related revenue.
- ❖ The Commission's total capital assets changed by \$8,656 for the amount of current year depreciation only since there were no capital assets purchased during the year.
- ❖ The Commission's total liabilities increased by \$98,698 due to higher grants related accounts payable, and higher accrued payroll.

Financial Highlights for Fiscal Year 2013

- ❖ The assets of the Commission exceeded its liabilities at the close of the most recent fiscal year by \$847,444 (*net position*). Of this amount, \$825,856 (unrestricted net position) may be used to meet the Commission's ongoing obligations to citizens and creditors.
- ❖ The Commission's total net position increased by \$186,591. This increase is primarily the result of a combination of higher charges for services and lower contracted services costs.
- ❖ The Commission's total capital assets changed by \$9,459 for the amount of the annual depreciation expense only since there were no capital assets purchased during the year.
- ❖ The Commission's total liabilities decreased by \$230,749 due to lower grants related accounts payable.

This discussion and analysis are intended to serve as an introduction to the Commission's basic financial statements which consist of two components: 1) financial statements comprised of the comparative Statements of Net Position, and the comparative Statements of Activities, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Financial Statements. The comparative Statements of Net Position presents information on all of the Commission's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The comparative Statements of Activities presents information showing how the Commission's net position changed during the last two fiscal years. All changes in net position are reported as soon as the underlying event giving rise to the change occurs (full accrual accounting), regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected grant and contract reimbursements, and earned but unused vacation leave).

The financial statements can be found on pages 9-15 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 16-27 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the Commission's budgetary compliance and variances from the final amended budget. This supplementary information can be found on page 28 of this report.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the Commission's financial position. As of June 30, 2014, and 2013 the Commission's assets exceeded its liabilities by \$1,035,192 and \$847,444 (*net position*), respectively. At June 30, 2014, the majority of the Commission's net position reflects its current assets (e.g. cash and cash equivalents, grants receivable, and prepaid items). These current assets (less current liabilities) equal 105 percent of total net position; however, all net position is not available for future operational spending as \$12,932, or one percent, is invested in capital assets. The remaining balance of unrestricted net position \$1,022,260 may be used to meet the Commission's ongoing obligations to citizens and creditors.

As the following table shows, the Commission reported an increase in net position of \$187,748 for the current fiscal year ended June 30, 2014. As previously noted this increase is primarily the result of higher charges for services and increased grant related revenue. The decrease of \$8,656 in investment in capital assets is primarily due to depreciation expense charged during the current fiscal year of \$8,656.

During the fiscal year ended June 30, 2013, the Commission reported an increase in net position of \$186,591. This increase was primarily the result of higher charges for services and lower operating costs. The decrease of \$9,459 in investment in capital assets results chiefly from depreciation and amortization expense charged during the prior fiscal year totaling \$9,459.

Total Net Position	<u>\$ 1,035,192</u>	<u>\$ 847,444</u>	<u>\$ 660,853</u>

The next table shows the key elements from ongoing operations that contributed to the increase in net position of \$187,748 during the current fiscal year. This increase compares to the fiscal year 2013 increase of \$186,591. The reasons for this year’s increase are similar to last year’s increase. Program revenues, comprised mainly of grant revenues, increased by \$261,137 or approximately 8% during fiscal year 2014, and program expenses increased by \$359,980 or 8%, a result primarily of increased personnel costs and contracted services. Also, General Revenues increased by \$100,000 or 7%, the result of revenue from Knox County’s increased appropriation.

For fiscal year 2014 Revenues increased by \$361,137. That increase is the combination of an increase in the charges for service totaling \$65,744, increase of federal government grants \$186,432, increase of \$3,167 in state government grants, increase of local grant match of \$5,794, and General Revenues increased by \$100,000 primarily as a result of increased funding from Knox County.

Total expenses for FY 2014 increased by \$359,980, with the increase being comprised of an increase of \$179,592 in personnel services (this includes salaries and employee benefits), increased costs of contracted services totaling \$121,266, an increase in supplies and materials totaling \$64,757, a decrease in other charges totaling \$4,832, and a lower depreciation expense. The difference in depreciation from the current fiscal year and the previous fiscal year amounted to \$803. During FY 2013, total expenses decreased by \$260,857, with the decrease being comprised of lower contracted services for grant subcontractors.

Budgetary Highlights

The Statement of Revenues / Expenditures and Changes in Fund Balance – Budget to Actual – General Fund, which is found on page 15 of this report, details the original and final budget, actual revenues and expenses, as well as the variances from the final budget. The Commission’s actual revenues were \$431,567 under budget primarily due from delays in grant and contract related projects. The Commission’s actual expenses were \$1,231,068 under budget primarily due from delays in grant related projects. The net result is a \$799,501 favorable budget variance.

Capital Assets and Debt Administration

Capital Assets. The Commission’s investment in capital assets as of June 30, 2014, amounts to \$12,932 (net of accumulated depreciation). Capital assets include furniture and fixtures, computer and office equipment, and vehicles. The Commission’s investment in capital assets decreased for the current fiscal year by 40%, or \$8,656, due chiefly to a decrease in investment in capital assets due to depreciation expense charged during the current fiscal year of \$8,656. As of June 30, 2013, the Commission’s investment in capital assets amounted to \$21,588 (net of accumulated depreciation). For the fiscal year ending June 30, 2013, the Commission’s investment in capital assets decreased 30%, or \$9,459. The fiscal year 2013 decrease resulted chiefly from a decrease in investment in capital assets due to depreciation expense charged during the 2013 fiscal year totaling \$9,459. For a detailed schedule of the Commission’s capital assets, see Note 5: Capital Assets on pages 24 and 25 in the Notes to the Financial Statements.

Long-term Debt. Compensated absences payable decreased by a net of \$24,323 in FY 2014, and increased by a net of \$12,178 in FY 2013. For a detailed schedule of the Commission’s long term debt, see Note 6: Long Term Liabilities on page 26 in the Notes to the Financial Statements.

Requests for Information

This financial report is designed to provide a general overview of the Knoxville-Knox County Metropolitan Planning Commission’s finances for all of those with an interest in the Commission’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Executive Director, Knoxville-Knox County Metropolitan Planning Commission, 400 Main Street, Suite 403, City-County Building, Knoxville, Tennessee, 37902.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Knoxville - Knox County Metropolitan Planning Commission (the Commission) was formed in 1956. The Commission is a regional planning commission established by the Tennessee Department of Economic and Community Development pursuant to the provisions of the Tennessee Code Annotated, Section 13-3-102. The Commission's Board is composed of fifteen members serving four-year terms, eight of whom are nominated by the Knox County Mayor and the remaining seven are nominated by the Mayor of the City of Knoxville. The Local Planning Division of the Tennessee Department of Economic and Community Development approves the nominations. The participating governments have an ongoing financial responsibility to the Commission, but do not have any equity interest in the Commission

The Commission's financial statements include the accounts of all Commission operations.

B. Basis of Accounting

The government-wide financial statements (i.e., the statements of net position and the statements of activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements employ the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are "measurable and available". "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Commission considers revenue generated from charges for service (i.e. fees) available if they are collected within 60 days after the fiscal year end. All other revenues are considered available if collected within one year after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, as under accrual accounting, except for compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Accounting (continued)

The General Fund is accounted for using the current flow of financial resources as the measurement focus. This means that only current assets and current liabilities are generally included on the balance sheet. The general fund balance is considered a measure of “available spendable resources”. The operating statement of the general fund presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of its spending measurement focus, expenditure recognition for the General Fund excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long term amounts are not recognized as general fund expenditures or fund liabilities.

1. Fund Accounting

The accounts of the Commission are organized, operated and presented on the basis of funds. Funds are independent fiscal and accounting entities with self-balancing sets of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The Commission reports one governmental fund, the General Fund. The General Fund is the Commission’s operating fund which accounts for all financial resources.

2. Sources of Revenue

The Commission receives funding from Knox County, the City of Knoxville, the State of Tennessee, the Federal Government, and from private grants and fees.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Accounting (continued)

3. Pronouncements

During the fiscal year ended June 30, 2013, the Commission implemented GASB Statement No. 62 "*Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*", which incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance, included in certain FASB and AICPA pronouncements issued prior to November 30, 1989, which does not conflict with or contradict GASB pronouncements.

During the fiscal year ended June 30, 2013, the Commission implemented GASB Statement No. 63, "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*", which establishes guidance for reporting the statements of net position and statements of revenues, expenses, and changes in net position.

C. Assets, Liabilities, and Equity

1. Deposits and Investments

The Commission's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The Commission's cash, cash equivalents and investments are pooled and managed by the Trustee of Knox County. State Statutes authorize the Commission to invest in obligations of the federal government, State of Tennessee, U.S. governmental agencies, the State of Tennessee Local Government Investment Pool, certificates of deposit and repurchase agreements. All investments are reported at fair value. Short-term investments, however, are reported at cost, which approximates fair value. Tennessee Code Annotated Section 5-8-201 requires financial institutions to secure the Commission's deposits by pledging governmental securities as collateral. The market value of the securities must be at least 105 percent of the average daily balance of the Commission's deposits.

PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Assets, Liabilities, and Equity (continued)

2. Receivables and Payables

All trade and subsidy receivables and payables are recognized when incurred and recorded at full value. Any amounts later determined to be uncollectible are written off when that determination is made. Any necessary allowance for doubtful accounts would not be material.

3. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items when paid, and expensed in the applicable future accounting period.

4. Capital Assets

Capital assets, which include property and equipment, are defined as assets with an initial, individual cost of more than \$5,000 (amount not rounded). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Property and equipment are depreciated using the straight-line method over the following estimated useful lives of the assets:

<u>Assets</u>	<u>Years</u>
Furniture and Fixtures	5
Computers and Equipment	5-10
Vehicles	5

Maintenance and repairs are charged to operations as incurred; major renewals and betterments are capitalized. When capital assets are sold, the related costs and accumulated depreciation are removed from the respective accounts, and any gain or loss is charged or credited to operations.

Capital assets considered construction in progress are stated at cost and are depreciated using the straight-line method over their estimated useful lives when placed into service.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Assets, Liabilities, and Equity (continued)

5. Compensated Absences Payable

It is the Commission's policy to permit employees to accumulate earned but unused vacation and sick pay benefits based on years of service. There is no liability for unpaid accumulated sick leave since it is the Commission's policy that, upon separation or retirement, employees do not receive any payment for unused sick time. Vacation pay is accrued when earned.

6. Fund Balance

In the governmental fund financial statements, fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the Commission is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. The classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are (a) not in spendable form, or (b) legally or contractually required to be maintained intact (e.g. endowments). Fund balance not in spendable form includes items not expected to be converted to cash (e.g. prepaid items).

Restricted fund balance includes amounts that are restricted for specific purposes. These amounts result from constraints placed on the use of resources (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority, which for the Knoxville-Knox County Metropolitan Planning Commission is the Commission's Board. Amounts are reported as committed pursuant to approvals voted by the Commission's legislative branch, which have also been approved the Commission's Director, the executive branch.

Assigned fund balance consists of amounts constrained by the Commission's intent to be used for specific purposes, but are neither restricted nor committed. Assignments may be made upon the authority of the Commission's Director.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Assets, Liabilities, and Equity (continued)

Unassigned fund balance is the residual balance in the general fund (i.e. fund balance that is not nonspendable, nor restricted, nor committed, nor assigned). When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, restricted amounts are expended first, and then unrestricted funds are used. When expenditures are incurred utilizing unrestricted funds, unassigned amounts are expended first, then assigned amounts, then committed amounts.

Net position in government-wide financial statements is classified as investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law.

7. Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

8. Comparative Data

Summaries of comparative data for the prior year have been presented in selected sections of the accompanying supplementary information to provide an understanding of changes in the Commission's financial position and operations.

NOTE 2: BUDGETARY INFORMATION

As required by State Statutes, the Commission adopts an annual budget. The budget proposal is prepared using the modified accrual basis of accounting. The Commission's budget is presented to its Executive Committee for review and approval then forwarded to the full Commission for vote and legal adoption. The appropriated budget is approved at a summary level and emphasis is also placed on complying with the grant budget, terms and conditions on a grant by grant basis. These terms and conditions usually specify the period during which costs may be incurred and outline budget restrictions or allowances.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 2: BUDGETARY INFORMATION (Continued)

The Commission's primary funding source is federal, state, and local grants which have a grant period that may or may not coincide with the fiscal year due to the grants range from being less than twelve month period to multiple years. Because of the Commission's dependency on federal, state, and local budgetary decisions, revenue estimates are based upon the best available information as to potential sources of funding.

The annual budget is subject to constant change within the fiscal year due to increases/decreases in actual grant awards from those estimated, changes in grant periods, unanticipated grant awards not included in the budget, and revised expenditure needs.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund. Encumbrances outstanding at year end are reported as nonspendable fund balances since they do not constitute expenditures or liabilities.

Encumbrances represent commitments related to unperformed contracts for goods or services. Outstanding encumbrances are reappropriated in the subsequent year. There were not any encumbrances committed at June 30, 2014, nor 2013 respectively.

NOTE 3: DEPOSITS AND INVESTMENTS

At June 30, 2014, and June 30, 2013, the bank collateral pool administered by the Treasurer of the State of Tennessee covered the Commission's cash and cash equivalents, which were pooled and managed by the Trustee of Knox County. Banks participating in the collateral pool determine the aggregate balance of their public fund accounts for the Commission.

The amount of collateral required to secure these deposits must be equal to 105 percent of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the State Treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be entirely insured or collateralized.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 4: EMPLOYEE RETIREMENT PLANS

The Commission has a defined contribution plan (asset accumulation plan) that covers substantially all full time employees of the Commission under the age of 65. The plan is administered by USI Consulting Group. Plan benefits depend solely on amounts contributed to the plan plus investment earnings. Participation begins on the first day of employment and all eligible employees not participating in another County, or state retirement plan are required to participate. Employees vest in the employer contributions at 20% per year after one year of service and are 100% vested after five years. All employees who work at least 18.5 hours a week are required to contribute a minimum of 6% of compensation.

On July 1, 2007, the Commission incorporated both a 401(a) Plan and a 457(b) Plan in the Defined Contribution Plan for Commission participants. Commission's Voluntary 457 plan incorporates voluntary pre-tax contributions by the participant with an employer match based on length of service with the Commission. Two other 457 plans, Security Benefits and Nationwide, also allow similar employee contributions and employer match.

During the year, the Commission made total employer contributions of \$189,909 and the Commission's employees contributed a total amount of \$189,909 to the DC Plan and 457 Plan. During 2013, the Commission contributed a total amount of \$197,166 and the Commission's employees contributed a total amount of \$174,754 to the DC Plan and 457 Plan.

June 30, 2014 and June 30, 2013

NOTE 6: LONG-TERM LIABILITIES

Long-term liability activity for the year ended June 30, 2014, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Compensated Absences	\$ 256,771	\$ 191,289	\$ (215,612)	\$ 232,448	\$ 165,038

Long-term liability activity for the year ended June 30, 2013, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Compensated Absences	\$ 244,593	\$ 177,916	\$ (165,738)	\$ 256,771	\$ 182,307

NOTE 7: CONTRIBUTED SERVICES

Knox County provides office space within the City/County Building to the Commission. The total square footage of space provided is 12,098. The rate per square foot is \$9.85. The Commission paid for space costs amounting to \$119,200 in fiscal year 2014 and 2013 respectively. Knox County provides various administrative and internal service functions to the Commission. During the current fiscal year, the total charged by the County to the Commission for those services was \$47,562. The County charged the Commission \$65,053 for those services in fiscal year 2013.

**KNOXVILLE - KNOX COUNTY METROPOLITAN
PLANNING COMMISSION**

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2014 and June 30, 2013

NOTE 8: ECONOMIC CONCENTRATION

The City of Knoxville and Knox County, Tennessee provided funding of \$1,551,000 in the current fiscal year and \$1,451,000 in the past fiscal year to the Commission, which amounted to 31 percent of total revenues for the fiscal years 2014 and 2013, respectively.

NOTE 9: RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission has been considered an entity of Knox County Government which has elected to be self-insured for general liability coverage and is subject to the limits of the Tennessee Government Tort Liability Act 29-20-101 et seq. The Commission maintains auto liability and worker's compensation insurance through a public entity risk pool operated as a risk-sharing program by the Tennessee Municipal League (TML). This pool is sustained by member premiums. Because the TML pool has excess aggregate and individual claim loss insurance coverage, management considers any related risk to be insignificant. The Commission has had no significant reduction in insurance coverage over the last three years. There have been no settlements in excess of insurance coverage over the last three years.

NOTE 10: FUND BALANCE

The amount that is reported on the balance sheets –general fund as nonspendable fund balance at June 30, 2014 and 2013 is comprised of prepaid items. Those amounts totaled \$11,878 and \$4,729 for fiscal years 2014 and 2013, respectively.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Board of Commissioners of the
Knoxville - Knox County Metropolitan Planning Commission
Knoxville, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major governmental fund of the Knoxville - Knox County Metropolitan Planning Commission ("MPC"), as of and for the year ended June 30, 2014, and the related notes to the financial statements which collectively comprise the MPC's basic financial statements, and have issued our report thereon dated December 22, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered MPC's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of MPC's internal control. Accordingly, we do not express an opinion on the effectiveness of MPC's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether MPC's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Board of Commissioners of the
Knoxville - Knox County Metropolitan Planning Commission
Knoxville, Tennessee

Report on Compliance for Each Major Federal Program

We have audited Knoxville - Knox County Metropolitan Planning Commission's ("MPC") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of MPC's major federal programs for the year ended June 30, 2014. MPC's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of MPC's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about MPC's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of MPC's compliance.

Opinion on Each Major Federal Program

In our opinion, the Knoxville - Knox County Metropolitan Planning Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of MPC is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered MPC's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of MPC's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

KNOXVILLE - KNOX COUNTY METROPOLITAN PLANNING COMMISSION

Knoxville, Tennessee

**NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE
AWARDS**
June 30, 2014

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards summarizes the expenditures of the Knoxville-Knox County Metropolitan Planning Commission (the Commission) under federal programs for the year ended June 30, 2014. Because the schedule presents only a selected portion of the operations for the Commission, it is not intended to, and does not, present the financial position, changes in net assets, or cash flows of the Commission. For purposes of the schedule of expenditures of federal awards, expenditures for federal programs are recognized on the accrual basis of accounting.

Federal awards include all grants, contracts, and similar agreements entered into directly between the Commission and agencies and departments of the federal government, and all subawards to the Commission by nonfederal organizations pursuant to federal grants, contracts, and similar agreements.

In compliance with Tennessee state law, the accompanying schedule of expenditures of state awards is also included in this report. This schedule presents all state funded financial awards, as defined by the State's Comptroller's Office, and is prepared and presented in a manner consistent with the schedule of expenditures of federal awards.

NOTE 2 – INDIRECT COSTS

Many of the Commission's federally funded programs allow indirect costs to be charged and include them as a line item in the grant budget. However, if the grant budget does not specifically provide for indirect costs to be charged, none of the indirect costs are reported as costs to the grantor nor are the costs included or presented in the schedule of expenditures of federal and state awards.

KNOXVILLE - KNOX COUNTY METROPOLITAN PLANNING COMMISSION

**Schedule of Findings and Questioned Costs
For the Year Ended June 30, 2014**
