LBMC MAKE A GOOD BUSINESS BETTER

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Williamson County Hospital District
Franklin, Tennessee:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Williamson County Hospital District (Williamson Medical Center) (the "Medical Center"), a component unit of Williamson County, Tennessee, as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Medical Center's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Williamson County Hospital District as of June 30, 2016 and 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 - 7 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2016 on our consideration of the Medical Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medical Center's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This section presents management's discussion and analysis of the financial performance of Williamson County Hospital District (Williamson Medical Center) (the Medical Center) for the fiscal years ended June 30, 2014 thru June 30, 2016. Please read this discussion in conjunction with the Medical Center's financial statements and accompanying footnotes.

USING THE ANNUAL FINANCIAL REPORT

The Medical Center is operated and maintained by Williamson County, Tennessee (the County). The County Commission adopted a resolution in 1992, in conjunction with acquiring title to the property and equipment of the District, giving the District complete authority and responsibility to manage and operate the Medical Center as provided in Chapter 107 of the Private Act of 1957 passed by the Tennessee legislature. For financial reporting purposes, the Medical Center is considered a component unit of the County.

The financial statements include the accounts and operations of the Medical Center, as well as those of the Williamson Medical Center Foundation, a discretely presented component unit. The Medical Center follows the accrual method of accounting. Revenues are recognized in the period earned; expenses are recorded at the time liabilities are incurred.

The financial statements consist of statements of net position, statements of revenue, expenses and changes in net position and statements of cash flows. The accompanying notes to the financial statements are an integral part of the financial statements and are essential to understanding the data contained in the financial statements. The balance sheets provide descriptions of the Medical Center's financial position. The statements of revenues, expenses and changes in net position report the revenues and expenses related to the Medical Center's activities.

The Medical Center utilizes the proprietary fund method of accounting whereby revenues and expenses are recognized on the accrual basis, which is an economic resources measurement focus approach to accounting. In December 2010, GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. GASB 62 makes the GASB Accounting Standards Codification the sole source of authoritative accounting technical literature for governmental entities in the United States of America. In June 2011, GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources, and Net Position. GASB 62 and 63 were effective for periods beginning after December 15, 2011.

NOTEWORTHY FINANCIAL ACTIVITY

- Key measures of patient activity are noted below. Admissions increased by 140 or 1.3% over the prior year. Patient days increased by 1,271 or 3.5%. Equivalent patient days which is a method of measuring outpatient activity increased by 4,200 or 4.7% over the prior fiscal year. Surgeries increased by 362 or 3.8%. Total Emergency Room visits increased by 7,758 or 20.8%. Births were down by 36 from the prior year or 2.1%.

	Year Ended June 30,		
	2016	**2015**	**2014**

Total net position	$191,995,470	$182,008,544	$165,940,610

As of June 30, 2016 the Medical Center's current assets of $45 million were sufficient to cover current liabilities of $27.5 million (current ratio of 1.6 compared to 1.8 in the prior year). The current ratio includes two notes payable that the Medical Center plans to refinance in fiscal year 2017. When considering the refinance of these two notes payable, the current ratio at June 30 is 2.1 as of June 30, 2016. The Debt Service Coverage Ratio for June 30, 2016

was at 2.7 compared to 2.8 for June 30, 2015. Day's cash on hand was 92.8 at June 30, 2016 versus 109.1 at June 30, 2015, a decrease of 15%. The decrease in day's cash on hand was related to the final stages of funding from operations of a major hospital expansion project.

OPERATING RESULTS AND CHANGES IN THE MEDICAL CENTER'S NET ASSETS

	Year ended June 30,		
	2016	**2015**	**2014**
Operating revenues:			
Net patient service revenue	$184,784,933	$168,910,998	$156,083,037

Non-operating revenue (expenses)			
Investment income	330,876	464,016	477,863
Interest expense	(1,628,070)	(1,270,929)	(1,238,212)
Equity in earnings of joint venture	1,600,601	1,299,933	1,466,983
Contributions received from Williamson County	1,943,624	1,943,624	1,943,624
Other, net	734,500	573,871	519,132
Non-operating revenue (expenses), net	2,981,531	3,010,515	3,169,390
Excess of revenues over expenses	9,986,926	16,067,934	6,232,486
Net position, beginning of year	182,008,544	165,940,610	159,708,124
Net position, end of year	$191,995,470	$182,008,544	$165,940,610

- Total operating revenues for 2016 are comprised of net patient service revenue ($18 million), contributions ($1.3 million) and other operating revenue ($4.2 million).

- Net operating revenue for fiscal year 2016 increased by $16.0 million or 9.1% from prior year. Net patient service revenue for 2016 represents 33.1% of gross service charges, up from 32.4% of gross charges in 2015. Contractual arrangements with third-party payors, bad debt and charity care account for the difference between gross service charges and net patient service revenue.

- Salaries, wages and benefits Increased by $10.1 million or 12% over the prior fiscal year. Additional direct care and support staff was required for the opening of the Pediatric Emergency Room and Pediatric Inpatient Unit. New OR rooms contributed to the increase as well. The hospital also added new physician's practices. Full Time Equivalents (FTEs) average for the year was 1,229 and 1,140 in fiscal years 2016 and 2015, respectively. The salaries, wages and benefits expense accounted for 51.4% of the total operating expenses for 2016 as compared to 52.2% in 2015.

- Total operating expenses for 2016 excluding salaries were $89 million, $11.9 million or 15.4% over the prior year. Supplies increased $3.2 million or 8.3% due to increased utilization. Professional Fees increased by $1.2 million or 62%. The majority of the increase was related to the management of the new Pediatric Units. Purchased services increased by $2.7 million and was due to staffing fees and outside contract services from various departments. The depreciation increase of $2.4 million came from the opening of the Pediatric Inpatient and Emergency Room wing along with other expanded services completed in this last construction project.

THE MEDICAL CENTER'S CASH FLOWS

In the current fiscal year, the final phase of the current hospital expansion project was funded, as planned, with operating reserves from the hospital's funded deprecation account. Also, the increase in operating expenses on a per day basis impacted the formula for the Day's Cash on Hand ratios. As noted above, day's cash on hand was 92.8 at June 30, 2016 versus 109.1 at June 30, 2015, a decrease of 15%.

CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of 2016, the Medical Center had $183.5 million invested in capital assets, net of accumulated depreciation as compared to $181.4 million in 2015. The net increase is a result of the total assets purchased of $15.4 million and depreciation expense of $13.1 million.

REQUEST FOR INFORMATION

The Financial Statements and Management's Discussion and Analysis are designed to provide a summary and general overview of the Medical Center's finances for all those interested. Questions concerning any of the information provided in this report or requests for additional information should be addressed in writing to the Chief Financial Officer of Williamson Medical Center at 4321 Carothers Parkway, Franklin, Tennessee 37067. Financial statements for the discretely presented component unit may also be obtained at this address.

(1) Nature of operations

(a) Organization

Primary Enterprise: Williamson County Hospital District (the "District") operates under the name of Williamson Medical Center (the "Medical Center") and is a general short-term acute care hospital organized as a political subdivision of Williamson County, Tennessee (the "County"). The Medical Center constitutes a component unit of the County, which is considered the primary government unit. The County Commission adopted a resolution in 1992, in conjunction with acquiring title to the property and equipment of the District, giving the District complete authority and responsibility to manage and operate the Medical Center as provided in Chapter 107 of the Private Act of 1957 passed by the Tennessee legislature. The County is financially accountable as it appoints a voting majority of the District's Board of Trustees and the full faith and credit of the County is pledged for payment of principal and interest on the outstanding hospital revenue and tax bonds.

The primary mission of the Medical Center is to provide inpatient and outpatient healthcare services to citizens of Williamson County and surrounding areas. The Medical Center also provides ambulance services in Williamson County.

Discretely Presented Component Unit: Williamson Medical Center Foundation (the "Foundation") is a tax-exempt organization which was established in 2003. The Foundation was formed to coordinate the fund-raising and development activities of the Medical Center which is the sole member of the organization. The activities of the Foundation are reflected in the operating, nonoperating revenues (expenses) and capital grants and contributions as they relate to the Foundation in the accompanying statements of revenues, expenses, and changes in net position. All assets of the Foundation, other than unconditional promises to give, are shown as part of assets limited as to use in the accompanying statements of net position. No contributions to the Foundation were used for capital purposes, and thus all contributions during 2016 and 2015 were classified as operating activities.

The Medical Center follows the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*. As a result, the Foundation is included in the accompanying financial statements as a discretely presented component unit of the Medical Center.

As required by accounting principles generally accepted in the United States of America, these financial statements present both Williamson Medical Center and its discretely presented component unit (collectively referred to as the reporting entity).

Financial statements for the discretely presented individual component unit may be obtained at the following address:

Williamson Medical Center
4321 Carothers Parkway
Franklin, TN 37067

(2) Summary of significant accounting policies

(a) Basis of presentation

The Medical Center utilizes the proprietary fund method of accounting whereby revenues and expenses are recognized on the accrual basis, which is an economic resources measurement focus approach to accounting. In December 2010, GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.* GASB 62 makes the GASB *Accounting Standards Codification* the sole source of authoritative accounting technical literature for governmental entities in the United States of America. In June 2011, GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources, and Net Position*. GASB 62 and 63 were effective for periods beginning after December 15, 2011.

(b) Cash and cash equivalents

The Medical Center considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of amounts maintained in bank deposits and overnight repurchase agreements which are insured by the Federal Deposit Insurance Corporation or are otherwise collateralized.

(c) Inventories

Inventories consist principally of medical and pharmaceutical supplies and are stated at the lower of cost, determined on the first-in, first-out (FIFO) basis, or market (net realizable value).

(d) Assets limited as to use

Assets limited as to use include cash and investments designated by the Board of Trustees for future capital improvements and debt repayment, over which the Board retains control and may at its discretion use for other purposes; cash and investments from County bond proceeds to be used for capital improvements; and restricted cash and investments from donors through the Foundation. Investments are reported at fair value in accordance with GASB No. 72, *Fair Value Measurement and Application*.

(e) Property and equipment

Property and equipment are recorded at cost. The Medical Center capitalizes purchases that cost a minimum of $5,000 and have a useful life greater than 2 years. Assets are depreciated on a straight-line basis over their estimated useful lives as follows: land improvements 2-25 years; buildings generally 40 years; fixed equipment 5-20 years; and major movable equipment 3-20 years. Assets under capital leases are included in property and equipment and the related amortization and accumulated amortization is included in depreciation and amortization expense and accumulated depreciation and amortization, respectively. The Medical Center reviews the carrying values of long-lived assets if facts and circumstances indicate that recoverability may have been impaired. Costs of maintenance and minor repairs are expensed as incurred. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

(f) Investment in joint ventures

Investments in joint ventures are accounted for under the equity method of accounting and the Medical Center recognizes its proportionate share in the results of the underlying activities of the joint ventures.

(g) Excess consideration provided for acquisition

The Medical Center evaluates excess consideration provided for acquisition for impairment on an annual basis or more frequently if impairment indicators arise. In the event excess consideration provided for acquisition is considered to be impaired, a charge to earnings would be recorded during the period in which management makes such impairment assessment.

(h) Accrual for compensated absences

The Medical Center recognizes an expense and accrues a liability for compensated future employee absences in the period in which employees' rights to such compensated absences are earned. Compensated absences consist of paid days off including holiday, vacation and sick days to qualifying employees.

(i) Patient service revenue

The Medical Center has agreements with third-party payors that provide for payments to the Medical Center at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

(j) Risk management

The Medical Center is exposed to various risks of loss from medical malpractice; torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; and natural disasters. Commercial insurance is purchased for claims arising from such matters. The Medical Center is self-insured for employee medical and other healthcare benefit claims and judgments as discussed in Note 15.

(k) Income taxes

The Medical Center is classified as an organization exempt from federal income taxes as it is a political subdivision of Williamson County. The Foundation is classified as an organization exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

(l) Net position

The Medical Center's net position is classified in three components. The *net investment in capital assets* consist of capital assets net of accumulated depreciation and reduced by the remaining balances of any outstanding borrowings used to finance the purchase or construction of those assets. The *restricted net position* is the noncapital net position that must be used for a particular purpose, as specified by creditors, grantors, or contributors external to the Medical Center, including amounts related to County contributions and bond indebtedness restricted for specific purposes. The *unrestricted net position* is the remaining net position that does not meet the definition of *net investment in capital assets or restricted.* The Medical Center first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. During 2015, restricted net position increased $23. During 2016, $45,341 of net position was released from restrictions and reclassified from restricted to unrestricted.

(m) Operating revenues and expenses

The Medical Center's statement of revenues, expenses and changes in net position distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing healthcare services, the Medical Center's principal activity. Nonexchange revenues, including grants and contributions received by the Medical Center for purposes other than capital asset acquisition, are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide healthcare services, other than financing costs.

(n) Charity care

The Medical Center accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies of the Medical Center. In assessing a patient's inability to pay, the Medical Center utilizes generally recognized poverty income levels. Because the Medical Center does not pursue collection of amounts determined to qualify as charity care, charges related to charity care are not included in net patient service revenue. These costs are estimated based on the ratio of total costs to gross charges. In addition to these charity care services, the Medical Center provides a number of other services to benefit underprivileged patients for which little or no payment is received, including providing services to TennCare and state indigent patients and providing various public health education, health evaluation and screening programs.

(o) Contributed resources

The Medical Center receives grants from the County, as well as from individuals and private organizations through the Foundation. Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts received by the Medical Center that are unrestricted or that are restricted for specific operating purposes are reported as nonoperating income (expenses). Amounts received by the Foundation that are unrestricted or that are restricted for specific operating purposes are reported as operating revenues. Amounts restricted to capital acquisitions are reported as other increases in net position.

(p) Adoption of new accounting pronouncements

In February 2015, the GASB issued Statement No. 72, *Fair Value Measurement and Application*. This statement addresses accounting and financial reporting issues related to fair value measurements and is effective for financial statements for fiscal years beginning after June 15, 2015. Therefore, the Medical Center adopted this standard at the beginning of fiscal year 2016.

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This statement, which supersedes Statement No. 55, addresses how to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles, and is effective for financial statements for fiscal years beginning after June 15, 2015. Therefore, the Medical Center adopted this standard at the beginning of fiscal year 2016.

The impact of adopting these accounting standards were not material to the financial statements.

(q) Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(r) Performance indicator

Excess of revenues over expenses reflected in the accompanying statements of revenues, expenses and changes in net position is a performance indicator.

(s) Events occurring after reporting date

The Medical Center has evaluated events and transactions that occurred between June 30, 2016 and September 22, 2016, which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Fair value measurements

Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, fair value accounting standards establish a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity including quoted market prices in active markets for identical assets (Level 1), or significant other observable inputs (Level 2) and the reporting entity's own assumptions about market participant assumptions (Level 3). The Medical Center does not have any fair value measurements using significant unobservable inputs (Level 3) as of June 30, 2016 and 2015. All of the Medical Center's investments are classified as Level 1 under the hierarchy above.

(a) Financial assets

The carrying amount of financial assets, consisting of cash, accounts receivable, accounts payable, accrued expenses and current portions of long-term debt and capital lease obligations approximate their fair value due to their relatively short maturities. Long-term debt and capital lease obligations are carried at amortized cost, which approximates fair value.

(b) Non-financial assets

The Medical Center's non-financial assets, which include property and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required and the Medical Center is required to evaluate the non-financial instrument for impairment, a resulting asset impairment would require that the non-financial asset be recorded at the fair value. During the years ended June 30, 2016 and 2015, there were no triggering events that prompted an asset impairment test of the Medical Center's non-financial assets. Accordingly, the Medical Center did not measure any non-recurring, non-financial assets or recognize any amounts in earnings related to changes in fair value for non-financial assets for the years ended June 30, 2016 and 2015.

(4) Net patient service revenue

A significant portion of the amount of services provided by the Medical Center is to patients whose bills are paid by third-party payors such as Medicare, TennCare and private insurance carriers.

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the statements of revenues, expenses and changes in net position is as follows:

		2016	2015
Gross patient service charges		$ 556,096,830	$ 521,076,459
Less:	Medicare contractual adjustments	(165,233,597)	(157,133,224)
	TennCare contractual adjustments	(26,547,023)	(22,312,352)
	Other contractual adjustments	(166,703,333)	(158,682,007)
	Bad debt	(11,957,701)	(13,171,452)
	Charity Care	(870,243)	(866,426)
Net patient service revenue		$ 184,784,933	$ 168,910,998

Net patient accounts receivable consists of the following:

	2016	2015
Commercial and managed care plans	$ 12,891,886	$ 11,432,851
Medicare	4,193,077	3,557,829
TennCare	632,002	530,403
Patients, including self-insured	12,015,464	11,450,259
	29,732,429	26,971,342
Less: allowance for uncollectible accounts	(8,992,729)	(8,633,182)
	$ 20,739,700	$ 18,338,160

(5) Third-party reimbursement programs

The Medical Center renders services to patients under contractual arrangements with the Medicare and Medicaid programs. Effective January 1, 1994, the Medicaid program in Tennessee was replaced with TennCare, a managed care program designed to cover previous Medicaid eligible enrollees as well as other previously uninsured and uninsurable participants.

Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Activity with respect to audits and reviews of governmental programs and reimbursement has increased and is expected to increase in the future. No additional reserves or allowances have been established with regard to these increased audits and reviews as management is not able to estimate such amounts. In the opinion of management, any adjustments which may result from such audits and reviews will not have a material impact on the financial statements; however, due to the uncertainties involved, it is at least reasonably possible that management's estimates will change in the future. In addition, participation in these programs subjects the Medical Center to significant rules and regulations; failure to adhere to such could result in fines, penalties or expulsion from the programs.

The Medicare program pays for inpatient services on a prospective basis. Payments are based upon diagnostic related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized.

The Medicare program reimburses for outpatient services under a prospective method utilizing an ambulatory payment classification system which classifies outpatient services based upon medical procedures and diagnosis codes.

The Medical Center contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates and per diem amounts.

Net patient service revenue related to Medicare and TennCare was approximately $53,772,000 and $3,250,000, respectively, in 2016, and approximately $53,536,000 and $3,870,000, respectively, in 2015.

The Medical Center has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, case rates and discounts from established charges.

The American Recovery and Reinvestment Act of 2009 (ARRA) established incentive payments under the Medicare and Medicaid programs for hospitals that implemented "meaningful use" certified electronic health record (EHR) technology. In order to receive incentive payments, a hospital which is able to meet the meaningful use criteria must attest that during the EHR reporting period, the hospital used certified EHR technology and specify the technology used, satisfied the required meaningful use objectives and associated measures for the applicable stage, and must specify the EHR reporting period and provide the result of each applicable measure for all patients admitted to the inpatient or emergency department of the hospital during the EHR reporting period for which a selected measure is applicable. A hospital may receive an incentive payment for up to four years, provided it successfully demonstrates meaningful use of certified EHR technology for the EHR reporting period. Hospitals that adopt a certified EHR system and are meaningful users can begin receiving incentive payments in any federal fiscal year from 2011 (October 1, 2010 - September 30, 2011) to 2015; however, the incentive payments will decrease for hospitals that first start receiving payments in federal fiscal year 2014 or 2015.

The Medical Center met the meaningful use criteria during 2016 and 2015. As a result, the Medical Center recognized income of approximately $1,022,000 and $378,000 from Medicare in 2016 and 2015, respectively. The income is reported as other revenue on the accompanying statements of revenue, expenses and changes in net position. The Medical Center does not expect to receive any Medicaid EHR incentive payments.

The Medical Center's final incentive payment under the EHR incentive program is expected to be received during fiscal year 2017.

(6) Assets limited as to use

Assets limited as to use consist of the following:

	2016	2015
Cash restricted by Board for capital improvements	$ 24,402,878	$ 26,403,462
Cash restricted by Board for bond principal and interest payments	2,668,666	2,673,366
Cash and cash equivalents restricted by donors	1,501,207	796,611
Investments restricted by donors	807,544	827,528
Assets limited as to use	$ 29,380,295	$ 30,700,967

Balances consist of cash and mutual funds at June 30, 2016 and 2015. The mutual funds are held by the Foundation, which is a discretely presented component unit of the Medical Center and a 501(c)(3) organization. Amounts are classified as noncurrent assets to the extent they are not expected to be used to satisfy current obligations.

Amounts classified as current assets will be used to make bond principal and interest payments.

All assets limited as to use relating to the primary enterprise at June 30, 2016 and 2015 are insured by the Federal Deposit Insurance Corporation, registered or otherwise collateralized by the financial institution through the State of Tennessee Collateral Bank Pool. See Note 15 for additional information related to the Medical Center's risks with respect to its investments.

(7) Property and equipment

The major classifications and changes in property and equipment as of and for the years ended June 30, 2016 and 2015 are as follows:

	Balance at June 30, 2015	Additions	Transfers/ Retirements	Balance at June 30, 2016
Land	$ 10,112,140	$ 3,007,615	$ 480,000	$ 13,599,755
Land improvements	2,383,068	-	-	2,383,068
Building and fixed equipment	138,592,661	-	60,927,438	199,520,099

The construction in progress at June 30, 2016 consists primarily of various projects to renovate certain leased office space, develop certain owned property and upgrade accounting software. Estimated costs to complete these projects amount to approximately $1,600,000 at June 30, 2016.

(8) Investments in joint ventures

The Medical Center has an investment in Shared Hospital Services, Inc. (S.H.S.) which provides laundry and linen services. This investment is in a joint venture in which the Medical Center owns approximately 7% at June 30, 2016 and 2015. Equity earnings are distributed based upon tons of laundry processed by S.H.S.

The Medical Center paid S.H.S. approximately $588,000 and $578,000 for laundry services for 2016 and 2015, respectively.

On June 30, 2013, the Medical Center purchased a 49% ownership interest in Vanderbilt Health and Williamson Medical Center Clinics and Services, LLC (VHWMCCS). VHWMCCS owns and operates two primary care, walk-in clinics located in Williamson County, Tennessee.

On July 31, 2013, the Medical Center purchased a 20% ownership interest in Williamson Imaging, LLC, doing business as Cool Springs Imaging, LLC for $4,500,000. In connection with this purchase and the purchase of the the 49% ownership interest in VHWMCCS discussed above, the Medical Center assumed a $6,700,000 note payable (see Note 10).

Summary information for the joint ventures as of June 30, 2016 and 2015 and for the years then ended, is as follows:

	2016 (Unaudited)	2015 (Unaudited)
Total assets	$ 26,050,000	$ 24,189,000
Total liabilities	$ 5,015,000	$ 5,882,000
Net revenues	$ 37,540,000	$ 34,620,000
Net earnings	$ 6,827,000	$ 5,645,000
Medical Center's interest:		
Investments in joint ventures	$ 14,615,957	$ 13,956,759
Equity in earnings of joint ventures	$ 1,600,601	$ 1,299,933

Financial statements for the joint ventures can be obtained from their respective administrative offices at the following addresses:

Shared Hospital Services, Inc.
641 Mainstream Dr
Nashville, TN 37228

Vanderbilt Health and Williamson Medical Center Clinics and Services, LLC
512 Autumn Springs Court, Suite C
Franklin, TN 37067

Cool Springs Imaging, LLC
2000 Richard Jones Road
Century Plaza, Suite 270
Nashville, TN 37215

(9) Williamson County ambulance service

Pursuant to terms of an agreement with the County, which has been and may continue to be renewed annually upon agreement by both parties, the Medical Center controls and operates the Williamson County Ambulance Service. In accordance with this agreement, the County made unrestricted donations to the Medical Center of $1,943,624 in 2016 and 2015, which are included in nonoperating income in the accompanying statements of revenues, expenses and changes in net position. The agreement also provides for the Medical Center to return all related assets (as defined) of the ambulance service to the County at the end of the contract period. The net book value of assets related to the ambulance service was $1,583,656 and $1,747,184 at June 30, 2016 and 2015, respectively.

(10) Long-term debt

A schedule of changes in the Medical Center's long-term debt is as follows:

	Balance at June 30, 2015	Additions	Reductions	Balance at June 30, 2016	Amounts Due Within One Year

	$ 74,628,586	$ 2,572,500	$ 7,304,183	$ 69,896,903	$ 7,193,495

On December 1, 2004, the County issued $15,110,000 in Hospital Revenue and Tax Bonds, Series 2004B (the Series 2004B Bonds) for the purpose of constructing improvements and renovations to and equipping of the Medical Center. Specifically, the 2004B Bonds were used for a multi-phase facility expansion and renovation project, which extended over several years and was substantially completed in 2007. The remaining Series 2004B Bonds became due and were paid on May 1, 2016.

On June 1, 2004, the County issued $15,110,000 in Hospital Revenue and Tax Bonds, Series 2004A (the Series 2004A Bonds) for the purpose of constructing improvements and renovations to and equipping of the Medial Center. Specifically, the 2004A Bonds were also used for the multi-phase facility expansion and renovation project. The remaining Series 2004A Bonds bore interest at 4.125% became due and were paid on May 1, 2015.

In June 2012, the County issued $17,780,000 in General Obligation Refunding Bonds, Series 2012A (the Series 2012A Bonds) for the purpose of refunding a portion of the Series 2004B and 2004A Bonds ($8,790,000 of the Series 2004B Bonds and $8,990,000 of the Series 2004A Bonds). The Series 2012A Bonds bear interest at rates ranging from 2.000% to 4.000% and are due through May 1, 2025.

The Series 2004A, Series 2004B, and Series 2012A Bonds are collateralized by a pledge of the net revenues of the Medical Center and security interests in accounts receivable and certain other assets. In the event of a deficiency, the Bonds are payable from unlimited ad valorem taxes levied on all taxable property within the County. The trust indentures related to the Bonds contain certain covenants and restrictions, involving the issuance of additional debt and income available for debt service.

In November 2013, the County issued $30,000,000 in General Obligation School and Public Improvement Bonds, Series 2013 for the purpose of funding the Vanderbilt Pediatrics Clinic expansion project pursuant to a resolution of the County Commission. The bonds were issued at a premium resulting in future principal payments of $27,790,000. The bond premium in the amount of $2,210,000 is amortized as a reduction to interest expense over the term of the bonds. The Series 2013 Bonds bear interest at rates ranging from 3.0% to 5.0% and are due through May 1, 2034.

The Medical Center also issues notes payable to finance certain property and equipment additions. The 3.09% note payable to bank represents amounts drawn under a $10,000,000 line of credit, which converted to a term loan on March 1, 2005, with monthly principal and interest payments based on a 20 year amortization, and was fully paid in March 2016. The 3.005% note payable to bank represents amounts drawn under a $7,500,000 construction loan, which converted to a term loan on December 1, 2008 and was amended again in November 2013 to extend monthly principal and interest payments in the amount of $56,631 through November 2016. This loan is secured by security interests in accounts receivable, excluding Medicare payments. The 2.70% note payable to bank is payable in monthly amounts of principal and interest ranging from $18,716 to $19,871 through March 2017 with all outstanding principal and interest payments due in April 2017 and is secured by certain accounts receivable of the Medical Center. The 2.46% note payable to bank secured by certain personal property of the Medical Center and the 1.44% note payable to bank secured by accounts receivable were refinanced in June 2016 with the 2.4% note payable. The 2.4% note payable to bank is payable in monthly principal and interest payments of $135,595 based on a 5 year amortization and matures in June 2019. The 4.50% note payable to bank is payable in monthly amounts of principal and interest of $20,390 through February 2019 and is secured by the Medical Center's deposit accounts and security interests in accounts receivable, excluding Medicare payments. The 2.2% note payable to bank is payable in monthly principal and interest payments of $23,902 based on a 20 year amortization, and matures on October 9, 2020. In November 2017, the interest rate will be adjusted to an annual rate equal to 1.3 basis points in excess of the weekly average yield on United States Treasury securities adjusted to a constant maturity of three years. The interest rate will never exceed 3% and all outstanding principal and interest is due on October 9, 2020. The loan is secured by the encumbering property. The 2.2% note payable to bank (2016) is payable in monthly principal and interest of $20,236 through April 2031 and is secured by the encumbering property.

The debt service requirements at June 30, 2016 related to long-term debt are as follows:

Year	Principal Maturities or Sinking Fund Requirements, net of Bond Premium	Interest
2017	$ 12,661,897	$ 1,971,000
2018	5,053,287	1,688,000
2019	8,293,533	1,510,000
2020	3,581,267	1,275,000
2021	4,624,134	1,135,000
2022 - 2026	16,928,446	3,701,000
2027 - 2031	8,762,935	1,616,000
2032 - 2034	6,043,096	184,000
	$ 65,948,595	$ 13,080,000

The Medical Center capitalized interest relating to construction projects in the amount of approximately $575,000 and $1,076,000 in 2016 and 2015, respectively.

Further detail of future maturities and interest of long-term debt by issue is as follows:

Year Ending June 30:	Notes to Banks		
	Principal	Interest	Total
2017	9,897,310	415,000	10,312,310
2018	2,153,700	248,000	2,401,700

2031	1,884,587	192,000	2,076,587
2032	1,954,587	121,000	2,075,587
2033	2,029,587	47,000	2,076,587
2034	2,058,922	16,000	2,074,922
	$ 44,661,901	$ 11,906,000	$ 56,567,901

(11) Other receivables

Other current and long-term receivables at June 30, 2016 and 2015 include receivables from certain physicians and donors. Receivables from certain physicians which were made as part of the Medical Center's recruitment program to attract physicians to the Medical Center's service area amounted to $518,795 and $62,694 at June 30, 2016 and 2015, respectively. Under terms of the related agreements, such receivables will be forgiven over a period of time, generally over three years, as long as the physician continues to practice in the area. The Medical Center is amortizing these loans over the physicians' service commitments. Contributions receivable amounted to $1,353,061 at June 30, 2016 and 2015, respectively. The Foundation solicits pledges of support from board members and others for contributions to be used for specific purposes. The pledges are discounted when recorded to reflect the present value of expected future collections due after one year. Contributions receivable are reported as restricted net assets in the accompanying financial statements and are scheduled to be received as follows:

	2016	2015
Receivable in less than one year	$ 730,000	$ 430,000
Receivable in one to five years	1,199,000	1,467,000
	1,929,000	1,897,000
Less allowance for uncollectible pledges	(381,000)	(380,000)
Less discount	(194,939)	(163,939)
	$ 1,353,061	$ 1,353,061

(12) Employees' retirement plan

The Medical Center participates in a tax sheltered annuity program (the "Plan") for substantially all of its employees that have one or more years of service, more than one thousand scheduled hours, and have attained the age of 21. Benefits expense includes approximately $1,866,000 and $1,705,000 in 2016 and 2015, respectively, related to the Medical Center's share of expenses for contributions and service charges on tax-sheltered annuities for covered employees. The Medical Center's contribution percentage is 7% of covered wages for physicians and 10% of covered wages for executives as of June 30, 2016. The Medical Center also matches executives up to 2% of compensation, administrative and non-physician department heads up to 9% of compensation and all other employee contributions up to 5% of compensation. Employees may make voluntary contributions so long as the total amount contributed by the employee does not exceed 25% of the employee's wages or maximum amounts as provided by law. The Plan's investments at June 30, 2016 and 2015 consist of various mutual fund and fixed income investments.

(13) Functional expenses

The following is a summary of management's functional classification of operating expenses:

	2016	2015
Healthcare services	$ 104,479,527	$ 92,523,155
General and administrative	78,799,915	68,753,774
	$ 183,279,442	$ 161,276,929

(14) Leases

The Medical Center leases equipment and office space under capital and operating lease agreements. Future minimum lease payments under capital leases and noncancellable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2016 are as follows:

Year	Capital Leases	Operating Leases
2017	$ 212,760	$ 1,799,000
2018	89,225	1,570,000
2019	-	1,378,000
2020	-	1,178,000
2021	-	1,015,000
Total future minimum lease payments	301,985	$ 6,940,000
Less amounts representing interest	(5,491)	
Present value of net minimum lease payments	$ 296,494	

Lease expense for the years ended June 30, 2016 and 2015 was $1,824,579 and $1,797,675, respectively.

A schedule of changes in the Medical Center's capital leases is as follows:

	2016	2015
Balance at beginning of year	$ 531,680	$ 160,231
Additions	-	617,126
Reductions	(235,186)	(245,677)
Balance at end of year	296,494	531,680
Current portion of capital lease obligations	207,948	218,031
Capital lease obligations, excluding current portion	$ 88,546	$ 313,649

The Medical Center generates rental income primarily from operating leases of two medical office buildings. Rental revenue was $1,856,685 and $1,977,638 in 2016 and 2015, respectively, and is included in other revenue.

Approximate future minimum rental revenue under noncancellable leases at June 30, 2016 is as follows:

Year	
2017	$ 1,384,000
2018	559,000
2019	489,000
2020	448,000
2021	416,000
2022 and later years	835,000
	$ 4,131,000

Future minimum rental payments generally include minor annual increases for inflation.

(15) Commitments and contingencies

Medical malpractice liability is limited under provisions of the Tennessee Governmental Tort Liability Act (T.C.A. 29-20-403, et seq.), which removed tort liability from governmental entities which, in the opinion of management and legal counsel, includes the Medical Center. In addition to requiring claims to be made in conformance with this Act, special provisions include, but are not limited to, special notice of requirements imposed upon the claimant, a one year statute of limitations, and a provision requiring that the governmental entity purchase insurance or be self-insured within certain limits. This Act also prohibits a judgment or award exceeding the minimum amounts of insurance coverage set out in the Act ($300,000 for bodily injury or death of any one person and $700,000 in the aggregate for all persons in any one accident, occurrence or act) or the amount of insurance purchased by the governmental entity.

The Medical Center maintains commercial insurance on a claims-made basis for medical malpractice liabilities. Insurance coverages are $1,000,000 per claim and $3,000,000 in the aggregate annually with a deductible of $100,000 per claim. In addition, the Medical Center maintains an annual aggregate excess liability policy. Management intends to maintain such coverages in the future. During the past five fiscal years, no settlements of malpractice claims have exceeded insurance coverage limits.

There are known incidents occurring through June 30, 2016 that have resulted in the assertion of claims, although other claims may be asserted, arising from services provided to patients in the past. Management of the Medical Center is of the opinion that such liability, if any, related to these asserted claims will not have a material effect on the Medical Center's financial position. No amounts have been accrued for potential losses related to unreported incidents, or reported incidents which have not yet resulted in asserted claims as the Medical Center is not able to estimate such amounts.

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, Medicare fraud and abuse, and, most recently under the provisions of the Health Insurance Portability and Accountability Act of 1996, matters related to patient records, privacy and security. Recently the government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Medical Center is self-insured for medical and other healthcare benefits provided to its employees and their families. The Medical Center maintains reinsurance through a commercial excess coverage policy which covers annual individual employee claims paid in excess of $100,000 for the plan year. Contributions by the Medical Center and participating employees are based on actual claims experience. A provision for estimated incurred but not reported claims has been provided in the accompanying financial statements. Total expenses under this program amounted to approximately $9,761,000 and $9,136,000 for the years ended June 30, 2016 and 2015, respectively.

The Medical Center is exposed to risks related to its cash and investments, a portion of which is included in assets limited as to use, although certain risks such as credit risk are mitigated due to the Medical Center's practice of maintaining investments primarily in cash and cash equivalents. The Medical Center's investment policy includes certificates of deposit, bank demand and savings accounts, and investment vehicles of the United States Government. The Medical Center is subject to investment rate risk, the risk that changes in interest rates will adversely affect the fair value of an investment; however, the Medical Center's cash and investments are short-term in nature. The Medical Center's investment policy does not specifically address custodial credit risk, the risk that in the event of failure of a counterparty to a transaction, the Medical Center will not be able to recover the value of the investment or any collateral securities that are in the possession of an outside party, or concentration of credit risk, the risk that the amount of investments the Medical Center has with any one issuer exceeds 5% of its total investment. Substantially all of the Medical Center's cash and assets limited as to use are with a financial institution.

Management continues to implement policies, procedures, and compliance overview organizational structure to enforce and monitor compliance with the Health Insurance Portability and Accountability Act of 1996 and other government statues and regulations. The Medical Center's compliance with such laws and regulations is subject to future government review and interpretations, as well as regulatory actions which are unknown or unasserted at this time.

The Centers for Medicare and Medicaid Services ("CMS") have implemented a Recovery Audit Contractors ("RAC") program. The purpose of the program is to reduce improper Medicare payments through the detection and recovery of overpayments. CMS has engaged subcontractors to perform these audits and they are being compensated on a contingency basis based on the amount of overpayments that are recovered. While management believes that all Medicare billings are proper and adequate support is maintained, certain aspects of Medicare billing, coding and support are subject to interpretation and may be viewed differently by the RAC auditors. The Medical Center has not recorded any potential losses as of June 30, 2016; however, the amount of actual losses incurred could differ materially from this estimate.

In March 2010, the Patient Protection and Affordable Care Act was signed into law, along with the Health Care and Education Reconciliation Act of 2010 (collectively, the "Affordable Care Act"). The passage of the Affordable Care Act has resulted in comprehensive reform legislation that is expected to expand health care coverage to millions of currently uninsured people beginning in 2014 and provide for significant changes to the U.S. health care system over the next ten years. To help fund this expansion, the Affordable Care Act outlines certain reductions in Medicare reimbursements for various health care providers, as well as certain other changes in Medicare payment methodologies. This comprehensive health care legislation provides for extensive future rulemaking by regulatory authorities, and also may be altered or amended.

Due to the complexity of the Affordable Care Act's laws, lack of current implementation regulations and interpretive guidance, and response by CMS and other participants in the health care industry to the choices available under the law, it is difficult for the Medical Center to predict the full impact of the law on the Medical Center's operations. Additionally, pending legislative proposals which may be adopted may affect the Medical Center. The provisions of the legislation and other regulations implementing the provisions of the Affordable Care Act may materially impact the Medical Center through increased costs, decreased revenues, and additional exposure to potential liability.

LBMC MAKE A GOOD BUSINESS BETTER

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees
Williamson County Hospital District
Franklin, Tennessee:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Williamson County Hospital District (Williamson Medical Center) (the "Medical Center"), a component unit of Williamson County, Tennessee, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Medical Center's basic financial statements, and have issued our report thereon dated September 22, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Medical Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Medical Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Medical Center's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Medical Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that would be required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Medical Center's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medical Center's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
