

Office of the Comptroller Introduces New Online Submission System

The Office of the Comptroller has created a new online submission system called Public Portal. The Public Portal was created to provide the public and other governmental offices and agencies with the capacity to submit a wide variety of correspondence, reports, and other information.

The Public Portal will be available on the Comptroller's website effective January 31, 2013. It does not replace other existing online systems within our office that provide assistance with submitting information specific to the following programs and systems:

- [Certified Municipal Finance Officer \(CMFO\)](#)
- [Contract and Report System \(CARS\)](#)
- [Filing Electronic Appeals](#)
- [Filing Electronic Ad Valorem Tax Reports](#)
- [Industrial Development Board/Health & Education Report](#)

Rather, the portal provides a convenient, centralized and secure way to file other types of correspondence with our office including:

- Reports as required by statute or policy
- Comptroller Forms
- Applications
- Filings
- Policies
- Statements

Please visit the Comptroller's website to access the [Public Portal](#).

If you have any questions about the Public Portal or need technical assistance with this online resource, please contact the Information Technology Help Desk at IGHelpDesk@cot.tn.gov or (615)-401-7800.
