Ladies and Gentlemen:

Transmitted herewith is the financial and compliance audit of the Tennessee State School Bond Authority for the year ended June 30, 2011. You will note from the independent auditor's report that an unqualified opinion was given on the fairness of the presentation of the financial statements.

Consideration of internal control over financial reporting and tests of compliance resulted in no audit findings.

Sincerely,

Financial and Compliance Audit
Tennessee State School Bond Authority
For the Year Ended June 30, 2011

AUDIT OBJECTIVES

The objectives of the audit were to consider the Authority's internal control over financial reporting; to determine compliance with certain provisions of laws, regulations, and contracts (including the bond resolutions); to determine the fairness of the presentation of the financial statements; and to recommend appropriate actions to correct any deficiencies.

AUDIT FINDINGS

The audit report contains no findings.

OPINION ON THE FINANCIAL STATEMENTS

The opinion on the financial statements is unqualified.

Tennessee State School Bond Authority For the Year Ended June 30, 2011

INTRODUCTION

POST-AUDIT AUTHORITY

This is a report on the financial and compliance audit of the Tennessee State School Bond Authority. The audit was conducted pursuant to Section 4-3-304, *Tennessee Code Annotated*, which authorizes the Department of Audit to “perform currently a post-audit of all accounts and other financial records of the state government, and of any department, institution, office, or agency thereof in accordance with generally accepted auditing standards and in accordance with such procedures as may be established by the comptroller.”

Section 8-4-109, *Tennessee Code Annotated*, authorizes the Comptroller of the Treasury to audit any books and records of any governmental entity that handles public funds when the Comptroller considers an audit to be necessary or appropriate.

BACKGROUND

The Tennessee State School Bond Authority was established by the Tennessee State School Bond Authority Act, Chapter 256 of the Public Acts of 1965. As provided in this act and in Chapter 429 of the Public Acts of 1999, the Authority is to act as a corporate governmental agency of the State of Tennessee for financing projects of the state’s higher education institutions and qualified zone academy projects for primary and secondary schools of local government. The Authority is empowered to issue negotiable bonds and notes as a means of providing funds for financing approved projects. These projects include buildings, equipment, structures, and improvements. In 1980, the legislature amended the original act to include, as a project, a program for student loans. To date, the Authority has not issued debt to fund a student loan program. The amount of funds provided should be sufficient to cover the actual project costs, as well as the Authority’s administrative expenses, including the cost of conducting the bond and note sales.

In 2009, the Authority was designated by the General Assembly as the Education Agency for the Qualified School Construction Bonds (QSCBs). The QSCBs are tax credit bonds that were authorized in the American Recovery and Reinvestment Act of 2009 and Section 49-3-12, *Tennessee Code Annotated*, as amended. Through the designation, the Authority is authorized to issue QSCBs to make loans to local governments to fund K-12 school construction and renovations.

ORGANIZATION

The Tennessee State School Bond Authority consists of seven members: the Governor, the State Treasurer, the Secretary of State, the Commissioner of Finance and Administration, the Comptroller of the Treasury, the Chancellor of the Tennessee Board of Regents, and the President of the University of Tennessee. The Governor serves as chairman, and the Comptroller of the Treasury serves as secretary. The Director of the Division of State and Local Finance serves as the assistant secretary; the division provides administrative and financial services to the Tennessee State School Bond Authority.

An organization chart for the Tennessee State School Bond Authority is on the following page.

AUDIT SCOPE

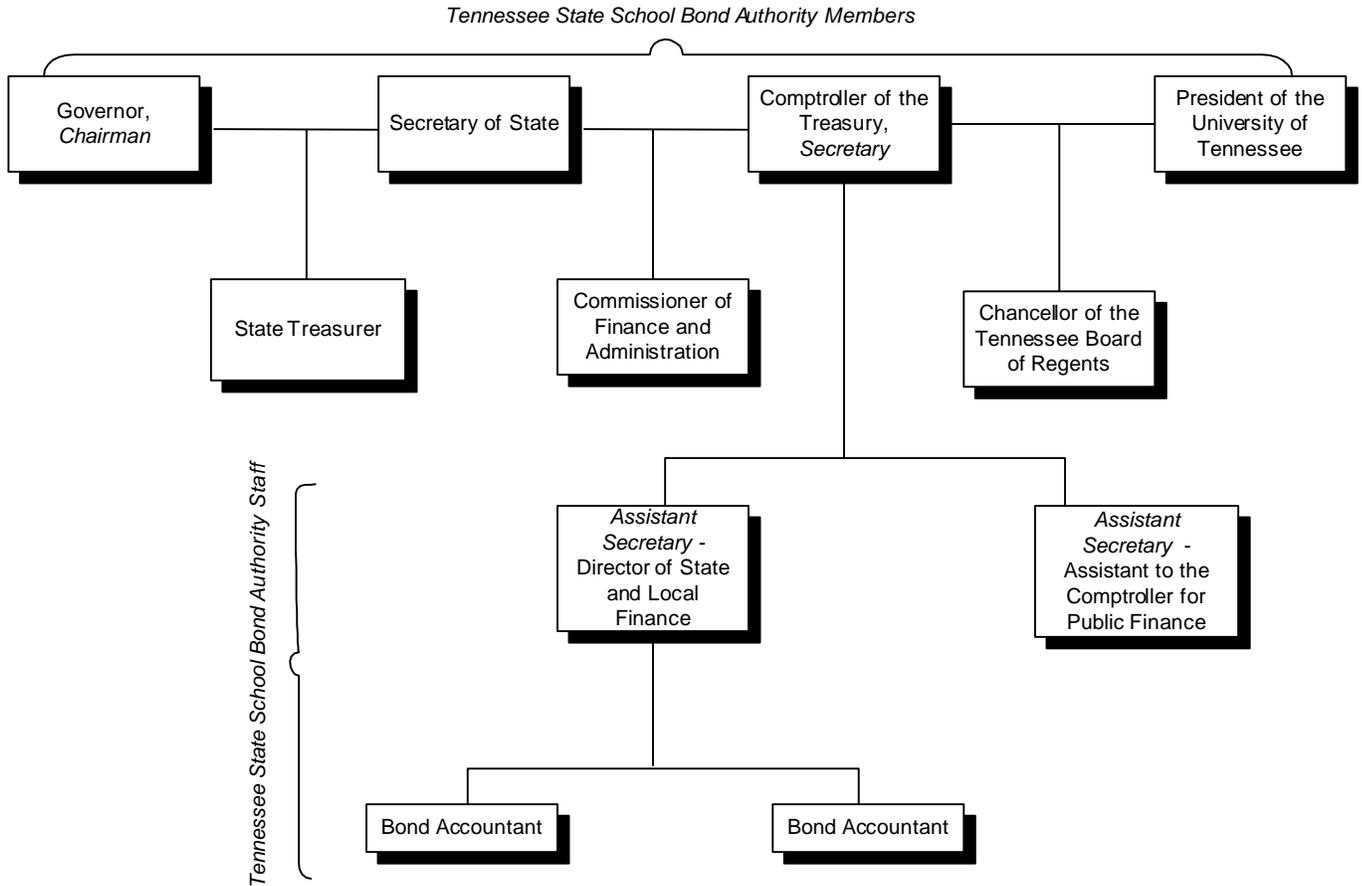

The audit was limited to the period July 1, 2010, through June 30, 2011, and was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in generally accepted government auditing standards. Financial statements are presented for the year ended June 30, 2011, and for comparative purposes, the year ended June 30, 2010. The Tennessee State School Bond Authority has been included as a component unit in the *Tennessee Comprehensive Annual Financial Report*.

OBJECTIVES OF THE AUDIT

The objectives of the audit were

1. to consider the Authority's internal control over financial reporting as a basis for designing auditing procedures for the purpose of expressing an opinion on the financial statements;
2. to determine compliance with certain provisions of laws, regulations, and contracts (including the bond resolutions);
3. to determine the fairness of the presentation of the financial statements; and
4. to recommend appropriate actions to correct any deficiencies.

Tennessee State School Bond Authority Organization Chart

PRIOR AUDIT FINDINGS

There were no findings in the prior audit report.

OBSERVATIONS AND COMMENTS

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Tennessee State School Bond Authority for its *Comprehensive Annual Financial Report (CAFR)* for the year ended June 30, 2010. This is the ninth year that the Authority has prepared a comprehensive annual financial report and received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The Authority has submitted its *Comprehensive Annual Financial Report* for the fiscal year ended June 30, 2011, to the GFOA Certificate of Achievement Program.

MANAGEMENT'S RESPONSIBILITY FOR RISK ASSESSMENT

Auditors and management are required to assess the risk of fraud in the operations of the entity. The risk assessment is based on a critical review of operations considering what frauds could be perpetrated in the absence of adequate controls. The auditors' risk assessment is limited to the period during which the audit is conducted and is limited to the transactions that the auditors are able to test during that period. The risk assessment by management is the primary method by which the entity is protected from fraud, waste, and abuse. Since new programs may be established at any time by management or older programs may be discontinued, that assessment is ongoing as part of the daily operations of the entity.

Risks of fraud, waste, and abuse are mitigated by effective internal controls. It is management's responsibility to design, implement, and monitor effective controls in the entity. Although internal and external auditors may include testing of controls as part of their audit procedures, these procedures are not a substitute for the ongoing monitoring required of management. After all, the auditor testing is limited and is usually targeted to test the effectiveness of particular controls. Even if controls appear to be operating effectively during the time of the auditor testing, they may be rendered ineffective the next day by management

override or by other circumventions that, if left up to the auditor to detect, will not be noted until the next audit engagement and then only if the auditor tests the same transactions and controls. Furthermore, since staff may be seeking to avoid auditor criticisms, they may comply with the controls during the period that the auditors are on site and revert to ignoring or disregarding the control after the auditors have left the field.

The risk assessments and the actions of management in designing, implementing, and monitoring the controls should be adequately documented to provide an audit trail both for auditors and for management, in the event that there is a change in management or staff, and to maintain a record of areas that are particularly problematic. The assessment and the controls should be reviewed and approved by the head of the entity.

FRAUD CONSIDERATIONS

Statement on Auditing Standards No. 99, *Consideration of Fraud in a Financial Statement Audit*, promulgated by the American Institute of Certified Public Accountants requires auditors to specifically assess the risk of material misstatement of an audited entity's financial statements due to fraud. The standard also restates the obvious premise that management, not the auditors, is primarily responsible for preventing and detecting fraud in its own entity. Management's responsibility is fulfilled in part when it takes appropriate steps to assess the risk of fraud within the entity and to implement adequate internal controls to address the results of those risk assessments.

During our audit, we discussed these responsibilities with management and how management might approach meeting them. We also increased the breadth and depth of our inquiries of management and others in the entity as we deemed appropriate. We obtained formal assurances from top management that management had reviewed the entity's policies and procedures to ensure that they are properly designed to prevent and detect fraud and that management had made changes to the policies and procedures where appropriate. Top management further assured us that all staff had been advised to promptly alert management of all allegations of fraud, suspected fraud, or detected fraud and to be totally candid in all communications with the auditors. All levels of management assured us there were no known instances or allegations of fraud that were not disclosed to us.

RESULTS OF THE AUDIT

AUDIT CONCLUSIONS

Internal Control

As part of the audit of the Tennessee State School Bond Authority's financial statements for the year ended June 30, 2011, we considered internal control over financial reporting as a basis for designing auditing procedures for the purpose of expressing an opinion on the financial statements, as required by auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in generally accepted government auditing standards. Consideration of internal control over financial reporting disclosed no material weaknesses.

Compliance and Other Matters

The results of our audit tests disclosed no instances of noncompliance or other matters that are required to be reported under generally accepted government auditing standards.

Fairness of Financial Statement Presentation

The Division of State Audit has rendered an unqualified opinion on the Tennessee State School Bond Authority's financial statements.

**Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
*Government Auditing Standards***

December 21, 2011

The Honorable Bill Haslam, Governor
and
Members of the General Assembly
State Capitol
Nashville, Tennessee 37243
and
Members of the Tennessee State School Bond Authority
State Capitol
Nashville, Tennessee 37243

Ladies and Gentlemen:

We have audited the financial statements of the Tennessee State School Bond Authority, a component unit of the State of Tennessee, as of and for the year ended June 30, 2011, and have issued our report thereon dated December 21, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in generally accepted government auditing standards.

Internal Control Over Financial Reporting

Management of the Tennessee State School Bond Authority is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts (including the bond resolutions), noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under generally accepted government auditing standards.

This report is intended solely for the information and use of the General Assembly of the State of Tennessee, the board of directors, management, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record.

Sincerely,

Arthur A. Hayes, Jr., CPA
Director

AAH/ddm

Independent Auditor's Report

December 21, 2011

The Honorable Bill Haslam, Governor
and

Members of the General Assembly
State Capitol
Nashville, Tennessee 37243

and
Members of the Tennessee State School Bond Authority
State Capitol
Nashville, Tennessee 37243

Ladies and Gentlemen:

We have audited the accompanying statements of net assets of the Tennessee State School Bond Authority, a component unit of the State of Tennessee, as of June 30, 2011, and June 30, 2010, and the related statements of revenues, expenses, and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements, based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of directors of the Tennessee State School Bond Authority. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Tennessee State School Bond Authority.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tennessee State School Bond Authority as of June 30, 2011, and June 30, 2010, and the changes in its financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the Authority implemented GASB Statement 53, "Accounting and Financial Reporting for Derivative Instruments" for the year ended June 30, 2010.

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements. The accompanying financial information listed as supplementary schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with generally accepted government auditing standards, we have also issued our report dated December 21, 2011, on our consideration of the Tennessee State School Bond Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts (including the bond resolutions) and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with generally accepted government auditing standards and should be considered in assessing the results of our audit.

Sincerely,

Arthur A. Hayes, Jr., CPA
Director

AAH/ddm

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the Tennessee State School Bond Authority (the "Authority"), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities as presented in the financial statements and notes to the financial statements of the Authority for the fiscal year ended June 30, 2011. These activities are compared to the results of the fiscal years ended June 30, 2010, and 2009. We encourage readers to consider the information presented here in conjunction with the Independent Auditor's Report, the audited financial statements, and accompanying notes of this report.

Program Activity Highlights

The Authority's purpose is to provide loans to the state's higher education institutions by issuing bonds and notes of the Authority and to local governments on behalf of local education agencies ("LEAs") through Qualified Zone Academy Bonds ("QZABs") and Qualified School Construction Bonds ("QSCBs"). The tables below summarize this business activity.

	Higher Education Facilities Programs		
	2011	2010	2009
Number of institutions with outstanding loans	20	20	23
Total number of outstanding loans	252	266	305

Bonds issued in fiscal year	\$ 212,440,000	\$ 177,000,000	\$ -

The financial statements and the analysis provided in the remainder of this report reflect the financial results of this activity.

Debt Administration

Pursuant to Section 49-3-1201 et seq., *Tennessee Code Annotated*, the General Assembly of the State of Tennessee created the Tennessee State School Bond Authority to issue revenue bonds and notes to fund capital projects for the higher education institutions including both four-year institutions and two-year community colleges. Such loans are payable from user fees or savings generated from the projects in the case of energy conservation projects. The statute was amended in 1999 to authorize the Authority to issue QZABs and again in 2009 to authorize the Authority to issue QSCBs on behalf of LEAs throughout the state. For more specific financial information on long-term debt activity, see Note 5, Debt Payable, in the Notes to the Financial Statements.

The state is not liable on the bonds, and the bonds are not a debt of the State of Tennessee.

Higher Education Facilities Programs. When an institution applies for project funding through the Authority, an analysis of the financial feasibility of each loan application is undertaken before it is approved by the Authority. Each higher education system (the University of Tennessee and the Tennessee Board of Regents) must include in its annual budget sufficient funds to repay total debt service. This pledge is a gross revenue pledge of the institution and its system. In addition, the Boards agree in the Financing Agreements that the Commissioner of Finance and Administration, after notice from the Authority that the Board has failed to pay its Annual Financing Charges or Administrative Fees, shall deduct from the institution's appropriations the amount required to make it current with respect to the unpaid Annual Financing Charges and Administrative Fees.

Generally, under the financing program for higher education institutions, a project is funded through the Authority's commercial paper program during its construction phase. When there is commercial paper outstanding totaling \$50 million or greater for projects that are completed or near completion, the Authority fixes the interest rate for the term of the projects by issuing long-term debt. The range of the commercial paper interest rates are shown below for the fiscal year ended June 30, 2011, as compared to

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

the fiscal years 2010 and 2009. The range of the commercial paper interest rates was a function of the term of the commercial paper and a volatile capital market.

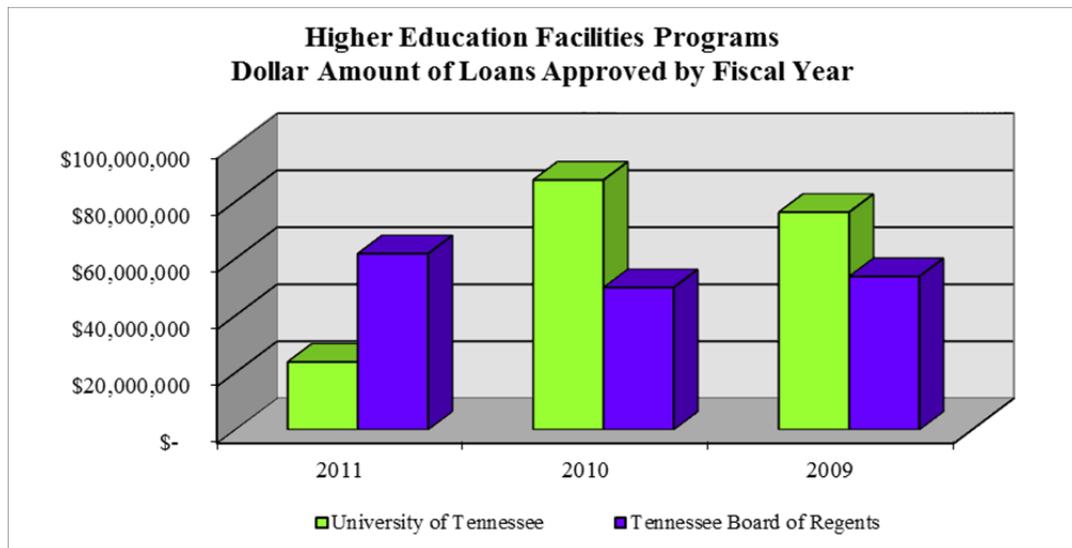

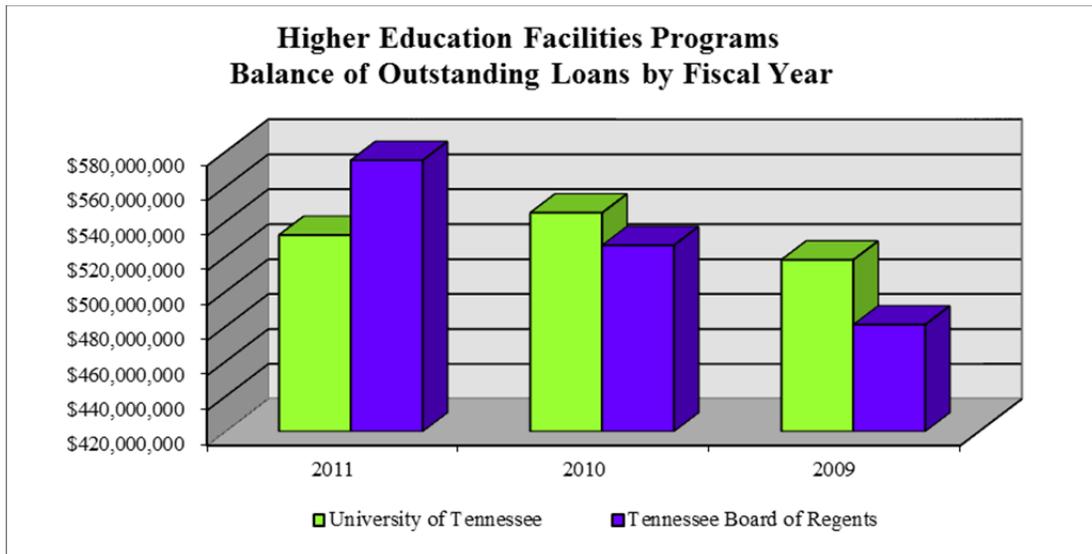

Higher Education Facilities Programs Commercial Paper Interest Rates Range				
Fiscal Year	Tax-Exempt		Taxable	
	Low	High	Low	High
2011	0.14%	0.34%	0.20%	0.40%
2010	0.17%	0.55%	0.15%	0.50%
2009	0.35%	5.00%	0.35%	6.25%

The Authority currently has a Credit Agreement with State Street Bank that allows for a total amount of \$300,000,000 of commercial paper to be outstanding. The Credit Agreement with State Street Bank has an expiration date of March 30, 2014, and a commitment fee of .105% which is charged quarterly in arrears. If the liquidity facility is called upon, pursuant to the Advance Agreement, the Authority is obligated to reimburse the Bank for all amounts drawn and paid under the Liquidity Facility, together with interest thereon if not reimbursed on the same day. If not reimbursed on the same day of the advance, the principal amount will convert to a term loan with six equal semi-annual payments. As of the fiscal year ended June 30, 2011, the Authority did not have to call upon the liquidity facility.

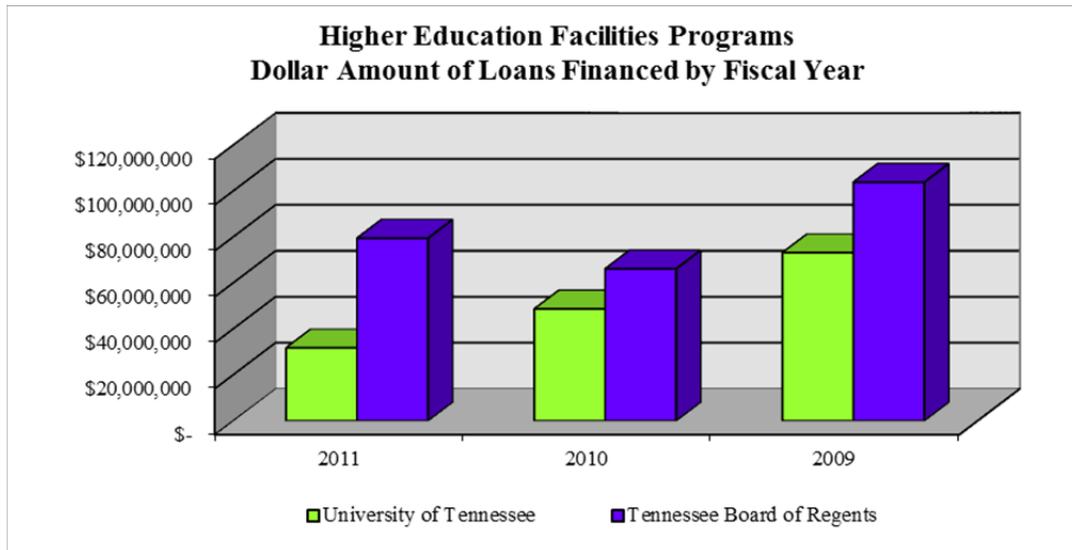

For the fiscal year ended June 30, 2011, interest rates on the higher education facilities long-term fixed-rate tax-exempt bonds ranged from a low of 2.00% to a high of 5.50%, and the interest rates on the higher education facilities long-term fixed-rate taxable bonds ranged from a low of 2.00% to a high of 5.66%. By pooling the financing of the capital needs for all public higher education facilities, management believes that economic efficiency is achieved through a single large borrowing administered by one agency. The creditworthiness of both large and small institutions is blended into one credit resulting in a lower cost of borrowing and providing a more equitable cost to students and other users who repay the debt through various user fees and charges and student debt service fees.

Higher Education Facilities Programs Debt Ratings. As of the fiscal year ended June 30, 2011, the Authority's higher education facilities program is rated AA+, Aa1, and AA by Fitch, Moody's Investors Service, and Standard & Poor's Rating Group, respectively.

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

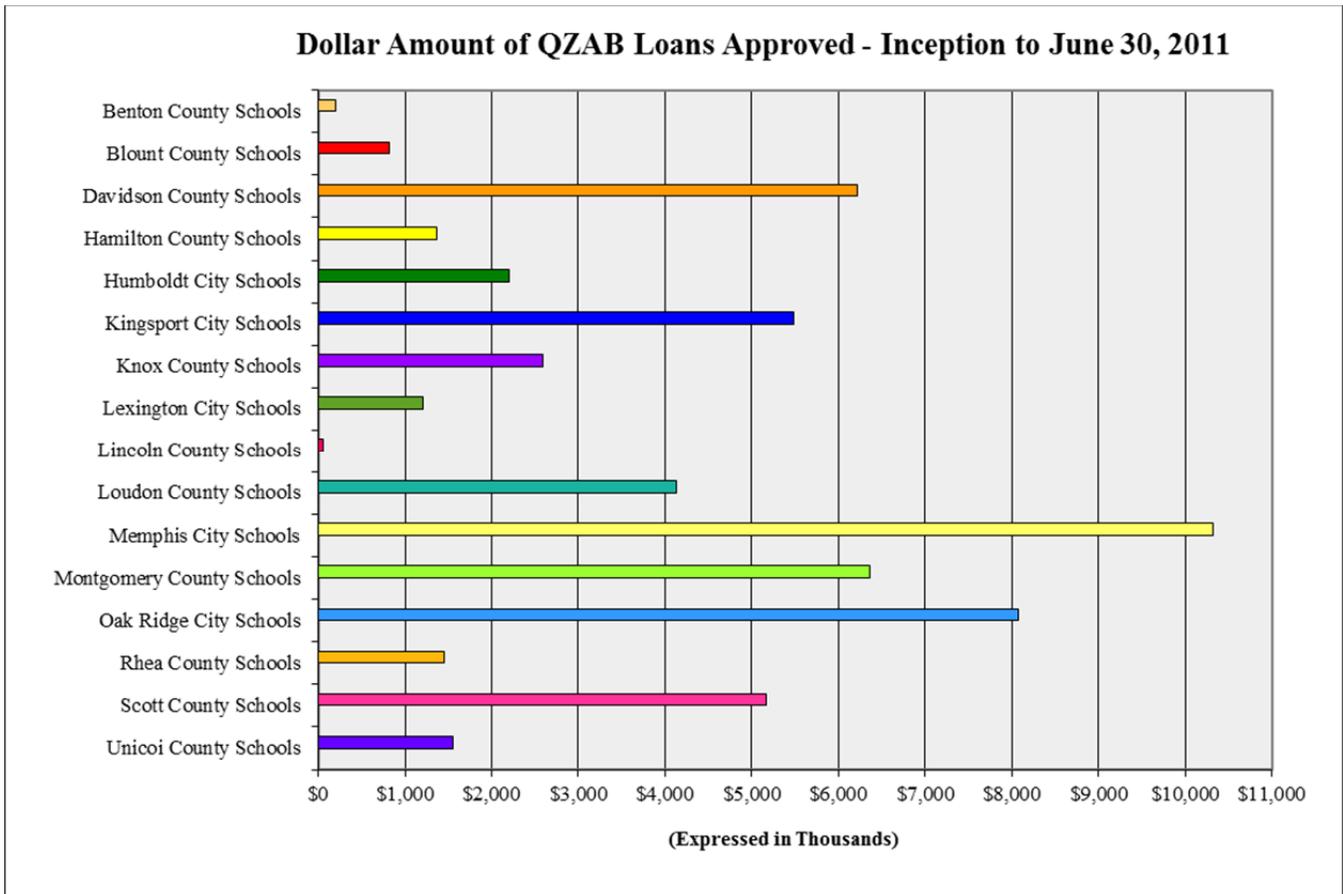

Qualified Zone Academy Bond Program. The QZAB program is a capital financing program authorized by the federal government under the Taxpayer Relief Act of 1997, Section 227(a). A QZAB is a taxable bond issued by the state, the proceeds of which are used to finance certain eligible public schools' renovation projects and equipment purchases. During the time the bond is outstanding, an eligible holder of a QZAB is generally allowed annual federal income tax credits in lieu of receiving periodic interest payments from the issuer. These credits compensate the holder for lending money to the borrower and function as payments of interest on the bonds. The Tennessee Department of Education distributes the application for a QZAB allocation to all local education agencies in the state. The Department recommends those projects that best meet the requirements of the program to the Authority for funding.

The local education agencies and the city or county supporting the agency must provide a general obligation pledge to the Authority for the repayment of its loans. The Authority is authorized to intercept the local community's state-shared taxes, should the local education agency/local government fail to repay its loan timely.

As of June 30, 2011, the QZAB program has unused allocations totaling \$74,912,000. Of this amount, \$33,416,000 of the 2009 allocation will expire on December 31, 2011. The state has up to two years after the yearly allocations are made by the federal government to issue bonds or the allocations will be forfeited.

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

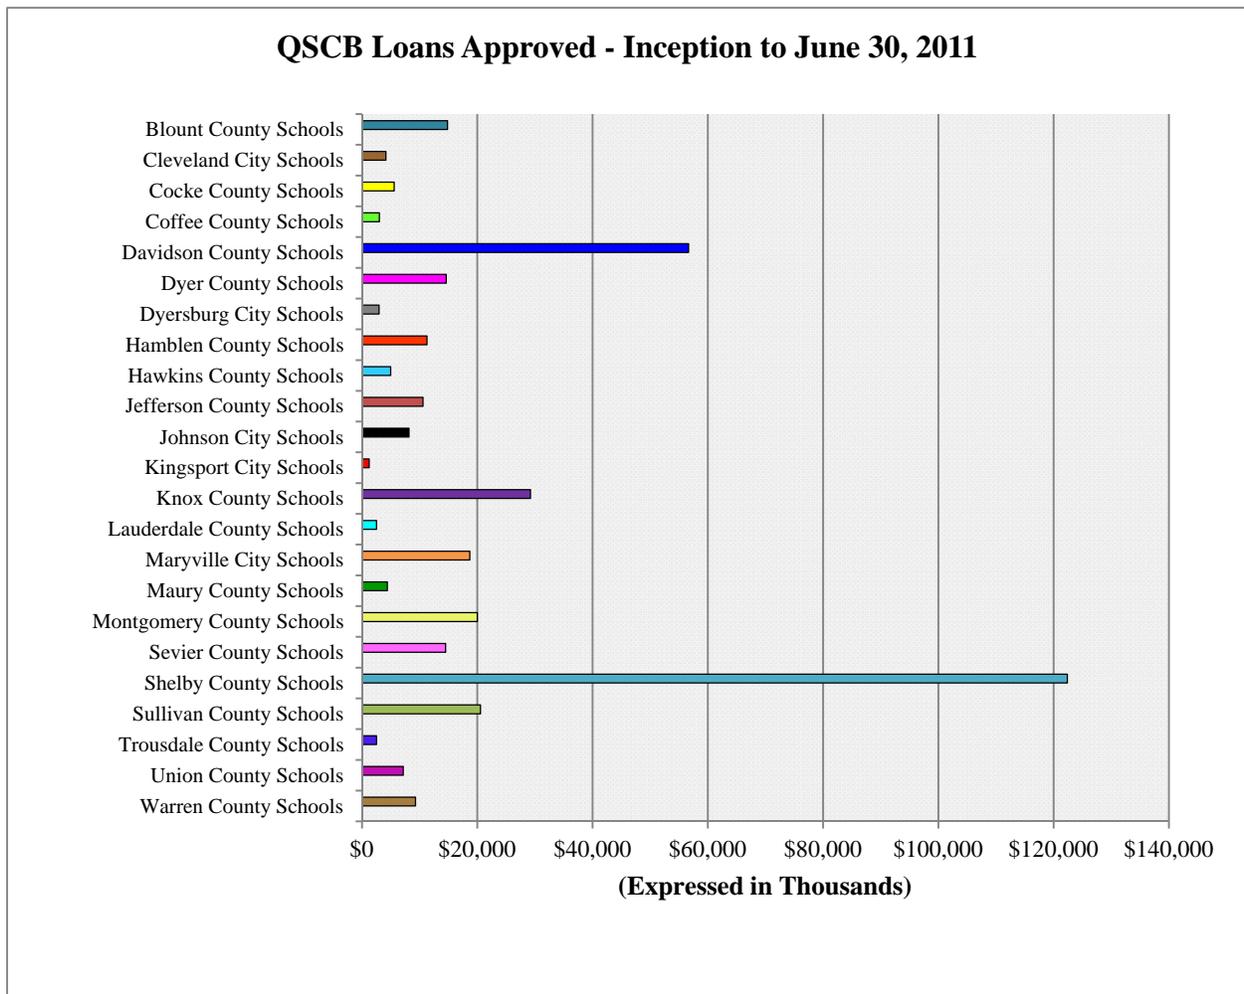

Qualified Zone Academy Bond Program Debt Ratings. All of the QZABs have been placed with private investors. The QZABs are not rated.

Qualified School Construction Bond Program. The QSCB program is a capital financing program originally authorized by the federal government under the American Recovery and Reinvestment Act of 2009 and Section 49-3-12, *Tennessee Code Annotated*, as amended. The QSCBs are bonds issued by the state, the proceeds of which are used to finance certain eligible public schools' renovation and rehabilitation projects, equipment purchases, new building construction, and land acquisition. The Series 2009 QSCB is a tax credit bond under which an eligible holder of a QSCB is generally allowed quarterly federal income tax credits in addition to quarterly supplemental interest payments from the issuer during the time the bond is outstanding. These credits compensate the bondholder for lending money to the borrower and function as partial payments of interest on the bonds. The Series 2010 QSCB is a direct subsidy payment bond under which the holder of the bond is compensated with a semi-annual cash interest payment that is subsidized by the Federal Government. The Authority elects to receive the direct interest subsidy payments from the United States Treasury, and the loan agreements provide that the subsidy payments received by the Authority will then be transferred to the borrowers.

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT’S DISCUSSION AND ANALYSIS (CONT.)**

In calendar year 2010, the United States Secretary of the Treasury allocated \$204.836 million of QSCBs for issuance in the state. The Authority combined the 2010 allocation with \$7.604 million of the remaining allocation from calendar year 2009 and issued QSCBs totaling \$212.44 million (2010 QSCBs), the proceeds of which were loaned to 15 local government units.

The Authority distributes the applications for a QSCB allocation to all the local education agencies of the state. The Tennessee Advisory Committee on Intergovernmental Relations (“TACIR”) recommends those projects that best meet the requirements of the program to the Authority for funding. The city or county supporting the LEA must provide a general obligation pledge to the Authority for the repayment of its loans. The Authority is authorized to intercept the local community’s state-shared taxes, should the local government fail to repay its loan timely.

TENNESSEE STATE SCHOOL BOND AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)

Qualified School Construction Bonds Program Debt Ratings. As of the fiscal year ended June 30, 2011, the Authority's QSCB program is rated Aa2, AA, and AA by Moody's Investors Service, Inc., Standard & Poor's Ratings Service, and Fitch Ratings, respectively.

Overview of the Financial Statements

The Authority is a discretely presented component unit of the State of Tennessee and uses proprietary fund accounting. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America using the accrual basis of accounting and the flow of economic resources measurement focus. This basis recognizes revenues when earned and expenses at the time liabilities are incurred. Using the economic resources measurement focus, a reader is presented information that allows him/her to determine the transactions and events that have increased or decreased the total economic resources for the period.

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements comprise two components: 1) the basic financial statements and 2) notes to the financial statements. The basic financial statements consist of the Statement of Net Assets; Statement of Revenues, Expenses, and Changes in Net Assets; and the Statement of Cash Flows.

The Statements of Net Assets present the Authority's financial position at June 30, 2011, and June 30, 2010. The Statements of Revenues, Expenses, and Changes in Net Assets portray the results of operations and the change in net assets for the years presented. The Statements of Cash Flows summarize the sources and uses of cash for the fiscal years presented. These statements are accompanied by notes to the financial statements that provide information that is essential to the reader's understanding of the financial statements. The Authority's basic financial statements are followed by supplementary information containing the financial statement information at the program level.

Financial Analysis of the Authority

Standard indicators of financial success are not applicable to the Authority. The financial goals of the Authority are to provide timely access to the capital markets for qualified educational institutions and local governments on behalf of LEAs at the lowest possible cost, to repay debt timely and to achieve the highest possible rating for its debt. The Authority achieved these goals under volatile market conditions. During the fiscal year ended June 30, 2011, the Authority frequently entered the short-term market. The Authority was also able to enter the long-term capital market on a timely basis. At no time did the Authority deny approval of a loan application due to its inability to access the capital market. There were no incidents requiring the Authority to withdraw funds from the debt service reserve fund or the commercial paper credit agreement to pay debt service timely. The Authority maintained both its long- and short-term credit ratings with all rating agencies.

Statements of Net Assets Summary			
(in thousands)			
	<u>2011</u>	<u>2010</u>	<u>2009</u>
Current assets	\$ 131,102	\$ 103,132	\$ 108,126
Noncurrent assets	<u>1,576,698</u>	<u>1,306,432</u>	<u>1,042,164</u>
Total assets	<u>1,707,800</u>	<u>1,409,564</u>	<u>1,150,290</u>
Current liabilities	100,783	74,910	67,672
Noncurrent liabilities	<u>1,599,186</u>	<u>1,326,610</u>	<u>1,074,527</u>
Total liabilities	<u>1,699,969</u>	<u>1,401,520</u>	<u>1,142,199</u>
Net assets (unrestricted)	<u>\$ 7,831</u>	<u>\$ 8,044</u>	<u>\$ 8,091</u>

Note: The Authority owns no capital assets.

At June 30, 2011, current assets include \$31,917,018 of unexpended bond proceeds and commercial paper that will fund approved loans as compared to \$19,196,131 at June 30, 2010, and \$37,566,295 at June 30, 2009. During the fiscal year ended June 30, 2011, the Authority issued \$231,935,000 in Higher Education Facilities Second Program Bonds which were used to retire \$220,366,027 of commercial paper proceeds with the remainder to be used to fund various costs of the projects involved and \$212,440,000 in QSCBs which were used to fund various costs associated with the projects involved. During the fiscal year ended June 30, 2010, the Authority issued \$177,000,000 in QSCBs which were used to fund various costs of the projects involved. During the fiscal year ended June 30, 2009, the Authority issued \$276,895,000 in Higher Education Facilities Second Program Bonds which were used to retire \$225,808,000 of commercial paper proceeds with the remainder to be used to fund various costs of the projects involved. Principal payments were made on the outstanding long-term bonds in the amounts of \$47,493,000 in 2011; \$47,352,000 in 2010; and \$35,147,000 in 2009. No QZAB bonds were issued or retired during fiscal year 2011, 2010, or 2009. No QSCB bonds were retired during fiscal years 2011, 2010, or 2009.

Net assets are available to fund ongoing operations and other expenses necessary to meet the goals of the Authority. Assets and liabilities increase in correlation to the increase in debt issuance and resulting loans and decrease in correlation to the repayment of debt and loans. The change in net assets can be attributed largely to the addition of the QSCB program. With interest earned by the Authority on funds placed with the Treasurer in the State Pooled Investment Fund, the Authority continues to absorb certain administrative costs associated with bonded indebtedness of the higher education facilities program rather than passing those costs to the borrowers of the program.

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

Statements of Revenues, Expenses, and Changes in Net Assets Summary (in thousands)			
	<u>2011</u>	<u>2010</u>	<u>2009</u>
Operating Revenues			
Revenue from loans	\$ 57,310	\$ 43,377	\$ 38,979
Federal subsidy on bonds	7,524	0	0
Investment earnings	<u>512</u>	<u>386</u>	<u>742</u>
Total operating revenue	<u>65,346</u>	<u>43,763</u>	<u>39,721</u>
Operating Expenses			
Interest expense	55,355	42,114	37,456
Subsidy to borrowers	8,061	291	511
Other expenses	<u>2,143</u>	<u>1,405</u>	<u>1,513</u>
Total operating expenses	<u>65,559</u>	<u>43,810</u>	<u>39,480</u>
Operating income (loss) and change in net assets	<u>\$ (213)</u>	<u>\$ (47)</u>	<u>\$ 241</u>
<i>Note: The Authority has no non-operating revenues or expenses.</i>			

The Authority's operating revenues include revenue from loans in the form of administrative fees, interest on loans, and income earned on investments. Operating expenses include interest expense on outstanding bonds and commercial paper, administrative expenses, and the amortization of bond costs of issuance. The issuance of the bonds mentioned above increased both the revenue from loans and interest expense. The 2010 QSCB bonds are Federally Taxable-Direct Subsidy Payment bonds of which periodic direct cash subsidy payments are received from the United States Treasury. These subsidy payments increased total operating revenue but were offset by the transfer of the subsidy to borrowers as permitted by the provisions of the QSCB program loan agreements. The change in operating income and net assets can be attributed largely to the addition of the QSCB program.

For the fiscal year ended June 30, 2011, the Authority elected to return the investment income that it earned on funds held by the Trustee and interest earned on unspent bond proceeds to its borrowers in the higher education facilities program as a subsidy in the form of a credit to amounts due on debt service from the borrowers.

Pursuant to the bond resolution for the QZABs, Sinking Fund payments are invested in the State Pooled Investment Fund ("SPIF"). SPIF rates for fiscal year ended June 30, 2011, ranged from 0.14% to 0.25%. Investment earnings related to the QZAB program are held by the Authority for the benefit of the LEAs participating in the program and credited to their individual debt service sinking fund payment on an annual basis. Pursuant to the supplemental bond resolutions for the 2004 and 2005 Series QZABs, sinking fund payments are invested in Forward Delivery Agreements, which guarantee a fixed rate of interest of 3.00% and 3.64%, respectively, on investments. The investments are held by the State Treasurer in the Authority's name.

TENNESSEE STATE SCHOOL BOND AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)

Investment earnings related to the QSCB program are held by the Authority for the benefit of the local governments participating in the program and are credited on a monthly basis to the amounts due on their individual debt service principal and interest payments.

Future Financing Activities

Higher Education Facilities Programs. As Tennessee enters an economic era that emphasizes the human capital potential of its citizens rather than physical capital and natural resources, the higher education system must be positioned to serve the broader-based need for access to post-secondary education. A host of policy and environmental factors influence both demands for access and the means through which this demand will be met:

- Economic conditions of 2008 through 2010 have produced a surge in enrollments in Tennessee. University enrollment increased 7 percent from 2008 to 2010, while community college enrollment increased 22 percent in the same time period, the largest increase in more than two decades.
- The demographic composition of the state is changing dramatically and the higher education system must position itself to serve the needs of an increasingly diverse population.
- The advent of the Tennessee Education Lottery Scholarship program allowed more Tennesseans to attend college. In 2009-10, the Tennessee Lottery provided an estimated \$284 million in scholarships to more than 98,000 students.

In January 2010, Tennessee passed the Complete College Tennessee Act (CCTA), a comprehensive reform agenda that seeks to transform public higher education through changes in academic, fiscal, and administrative policies at the state and institutional level. The primary goal of these reforms is for more Tennesseans to be better educated and trained. At the heart of the CCTA is a new Public Agenda for higher education which establishes the direct link between the state's economic development and its educational system. The overarching goal of the Public Agenda is to have Tennessee meet the projected national average in educational attainment by 2025. The primary state policy levers for addressing the state's educational needs are a new funding formula, which incorporates outcomes in lieu of enrollment; a new Performance Funding program, which focuses on quality assurance; and the establishment of institutional mission statements or profiles, which distinguish each institution by degree level, program offerings, and student characteristics. Other major components of the reform agenda include more efficient student transfer, a more integrated community college system, reforms to the delivery of student remediation programs, and an enhanced research focus for the University of Tennessee Knoxville and the University of Memphis, the state's two public Carnegie Research institutions.

In the Knowledge Economy, the importance of receiving training beyond high school is significant. In 2008, 24.5 percent of Tennessee's working-age adults held a college degree, compared to the national average of 29.5 percent. To reach the national average educational attainment levels, Tennessee would need an additional 170,000 citizens with a bachelor's degree or higher, more than double the current annual degree production of the state's public and private institutions. Furthermore, the percentage of

**TENNESSEE STATE SCHOOL BOND AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)**

adults in the state with an associate's degree or some college in 2008 was 31.3 percent, in comparison with the national average of 37.9 percent. To reach the national average, Tennessee would need an additional 220,000 citizens with an associate's degree or higher. The availability of new and/or improved learning facilities near work and home will have a major impact on the state's success in achieving these goals.

The increased enrollment and continued demand for advanced education and training will put stress on the capital facilities at all campuses. As a result, the state anticipates an increased need for funding of various facilities through the Authority.

Qualified Zone Academy Bonds and Qualified School Construction Bonds Programs. The QZAB and QSCB programs are limited to the amounts allocated by the federal government. At this time, the Authority does not anticipate further issuance of debt for the QZAB program due to economic and financial conditions and constraints. The QSCB program expired December 31, 2010.

Contacting the Authority's Management Team

This discussion and analysis is designed to provide our citizens, education agencies, investors, and creditors with a general overview of the Authority's finances and to demonstrate its accountability for the monies it receives. If you have questions about this report or need additional financial information, contact the Director of State and Local Finance, State of Tennessee, Suite 1600, James K. Polk Center, 505 Deaderick St., Nashville, Tennessee 37243-1402, visit our website at www.comptroller.tn.gov/TSSBA/, or call (615) 747-5370.

Tennessee State School Bond Authority
Notes to the Financial Statements
June 30, 2011, and June 30, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Tennessee State School Bond Authority (the Authority) was created to provide a mechanism for financing capital projects for the state's higher education institutions. During 1999, the General Assembly empowered the Authority to issue Qualified Zone Academy Bonds (QZABs) for local governments to borrow for financing improvement projects on behalf of local education agencies pursuant to the federal program authorized in the Taxpayer Relief Act of 1997. In addition, under the American Recovery and Reinvestment Act of 2009, the Authority was authorized to issue Qualified School Construction Bonds (QSCBs) for local governments to borrow on behalf of local education agencies at nominal or zero percent interest for financing renovation and rehabilitation projects, equipment purchases, new building construction and land acquisition.

The Authority is a component unit of the State of Tennessee (the state) and a separate legal entity. In accordance with the Governmental Accounting Standards Board's (GASB) Statement No. 14, *The Financial Reporting Entity*, the Authority is discretely presented in the *Tennessee Comprehensive Annual Financial Report* because a majority of the Authority's board consists of state officials which include the Governor, the State Treasurer, the Secretary of State, the Commissioner of Finance and Administration, the Comptroller of the Treasury, the Chancellor of the Tennessee Board of Regents, and the President of the University of Tennessee. The Governor serves as chairman, and the Comptroller of the Treasury serves as secretary. The Director of the Office of State and Local Finance serves as the assistant secretary; the office provides administrative and financial services to the Authority. Therefore, the state has the ability to affect the day-to-day operations of the Authority.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The Authority has the option of following subsequent private-sector guidance subject to this same limitation. The Authority has elected not to follow subsequent private-sector guidance.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Measurement Focus and Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting and the flow of economic resources measurement focus. Under this basis, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering services in connection with principal ongoing operations. The Authority's principal ongoing operation is to provide loans for constructing capital projects, renovating and rehabilitating facilities, acquiring land, and acquiring equipment to higher educational facilities and to local government units pursuant to the criteria set by the federal government for the QZAB and QSCB programs. Therefore, the Authority also recognizes income on investments as operating revenue. The Authority's operating expenses include interest paid on borrowings, subsidies to borrowers, bond issuance costs, arbitrage, and administrative expenses. Any revenues and expenses not meeting this definition would be reported as nonoperating revenues and expenses.

Investments

Investments for the Higher Education and QZAB Programs are stated at fair value. Investments for the QSCB program will be held to maturity and are stated at amortized value.

Amortized Amounts

- A. **Bond Issuance Costs.** The Authority amortizes bond issuance costs using the straight-line method over the life of the bonds. Unamortized bond issuance costs are reported as deferred charges.

- B. **Bond Discounts, Premiums, and Deferred Amount on Refundings.** The Authority amortizes bond discounts and premiums using the straight-line method over the life of the bonds. The deferred amount on refundings is amortized using the straight-line method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Bonds payable are reported net of the applicable unamortized bond discount or premium and the unamortized deferred amount on refundings.

Amortization of bond discount, premium, and deferred amount on refundings is reported with bond interest expense in the financial statements.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

- C. Accretion. The accretion of the College Saver Bonds (capital appreciation bonds) is the difference between the face amount of the College Saver Bonds and the public offering price. The accretion is not treated as bond discount. Capital appreciation bonds are subject to redemption at prices which increase from the initial public offering price to the face amount. The carrying amount of these bonds is adjusted semi-annually and at June 30 to reflect the increased liability, with a corresponding charge to interest expense.

The accretion of agency zeroes and strips is the difference between the face amount of agency zeroes and strips and the public offering price. The accretion of agency zeroes and strips are not treated as an investment discount. Agency zeroes and strips are subject to redemption at prices which increase from the public offering price to the face amount. The carrying amounts of these investments are adjusted annually at June 30 to reflect the increased value, with a corresponding credit to interest income.

- D. Unearned Revenue. When the Authority issues bonds to finance capital projects, the par amount of the bonds is adjusted by certain amounts (such as bond discount/premium, underwriters' fees, and other costs of issuance) in order to arrive at the amount of bond proceeds available for capital expenditures. These amounts, discussed above, are capitalized and amortized pursuant to accounting principles generally accepted in the United States of America. A similar situation arises when accounting for the loans to the higher education institutions and local governments. Because of the adjustments mentioned above (discount, costs of issuance, etc.), the principal amount of the loan differs from the actual amount of funds available for capital expenditures. Because the higher education institutions and the local governments bear the cost of this difference, it is carried on the statement of net assets as unearned revenue and amortized on a straight-line basis over the life of the related bond. When the premium exceeds the costs of issuance and underwriters fees, the adjustment is carried on the statement of net assets as deferred charges.

The Authority requires the higher education institutions to contribute funds to the Interest Rate Reserve Fund based on the amount of outstanding commercial paper. The principal of the Interest Rate Reserve Fund is credited back to the institution as commercial paper is redeemed. The Interest Rate Reserve Fund is reported on the statement of net assets as unearned revenue and is not amortized.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

The Authority requires the QSCB borrowers to prepay bondholder interest to the Debt Service Fund as outlined in the loan agreements. The interest of the Debt Service Fund is credited back to the borrower as bondholder interest payments are made. The prepaid interest is reported on the statement of net assets as unearned revenue and is not amortized.

- E. **Deferred Charges.** When the Authority issues bonds to finance capital projects, the Authority incurs certain costs of issuance and underwriters' fees. These amounts, discussed above, are capitalized and amortized pursuant to accounting principles generally accepted in the United States of America. These costs are carried on the statement of net assets as deferred charges and amortized on a straight-line basis over the life of the related bond.

When the Authority issues bonds to finance capital projects, the par amount of the bonds is adjusted by certain amounts (such as bond premium, underwriters' fees, and other costs of issuance) in order to arrive at the amount of bond proceeds available for capital expenditures. When the premium exceeds the costs of issuance and underwriters fees, the higher education institutions and the local governments bear the benefit of this difference. Because of this, it is carried on the statement of net assets as a deferred charge and amortized on a straight-line basis over the life of the related bond.

- F. **Reclassification.** As discussed above under Deferred Charges, bond premiums exceeding the costs of issuance and underwriters fees are reported on the statement of net assets as deferred charges. These bond premiums were previously netted against bond discounts and reported as unearned revenue on the June 30, 2010, statement of net assets. The Authority reclassified these bond premiums of \$8.4 million as deferred charges on the June 30, 2010, statement of net assets.

Change in Accounting Principle

Effective July 1, 2009, the Authority adopted Statement Number 53 of the Governmental Accounting Standards Board, *Accounting and Financial Reporting for Derivative Instruments*. GASB Statement Number 53 requires that derivative instruments be reported at fair value on the statement of net assets. The classification of derivative instruments depends on whether they represent assets or liabilities.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

NOTE 2. DEPOSITS AND INVESTMENTS

The investments under the Higher Education First Program General Bond Resolution of the Authority can be invested in direct obligations of the United States, or obligations of which the principal and interest are guaranteed by the United States. Moneys pertaining to the Higher Education Second Program General Bond Resolution, the Qualified Zone Academy Bonds First Program Resolution and the Qualified School Construction Bonds General Bond Resolution of the Tennessee State School Bond Authority, pursuant to *Tennessee Code Annotated*, Section 49-3-1205, can be invested, pursuant to each Bond Resolution listed above, in obligations of the United States or its agencies under flexible repurchase agreements which are fully collateralized by obligations of the United States or obligations the timely payment of the principal of and interest on which are guaranteed by the United States, the state's pooled investment fund as provided in *Tennessee Code Annotated*, Section 9-4-603, and any other investment authorized by the state investment policy adopted by the State Funding Board pursuant to *Tennessee Code Annotated*, Section 9-4-602.

Deposits

The Authority has cash on deposit in the State Pooled Investment Fund and Local Government Investment Pool administered by the State Treasurer. The funds' investment policy and required risk disclosures are presented in the *State of Tennessee's Treasurer's Report*. That report is available on the state's website at www.treasury.tn.gov or by calling (615) 741-2956.

The Authority's deposits are held in a financial institution, which participates in the bank collateral pool administered by the State Treasurer. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

Investments

As of June 30, 2011, the Authority has the following Higher Education and QZAB investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
U.S. Treasury Bill	November 17, 2011	\$ 4,159,126
U.S. Treasury Notes	November 30, 2011	4,992,394
	April 30, 2012	402,460
	September 15, 2013	8,540,545
	October 15, 2013	23,673,012
U.S. Government Supported Corporate Debt	September 28, 2012	4,171,044
	December 28, 2012	4,212,283
U.S. Treasury Securities:		
State and Local Government Series		<u>4,944,110</u>
Total Investments		<u>\$55,094,974</u>

As of June 30, 2011, the Tennessee State School Bond Authority holds two separate State and Local Government Series U.S. Treasury Securities. One security covers the debt of the QZAB borrower's remaining loan balance of \$4,434,886, and the other security covers the remaining loan balance of \$509,224 of the Higher Education borrower's debt.

As of June 30, 2011, the Authority has the following QSCB investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amortized Value</u>
U.S. Treasury Notes	August 15, 2026	\$5,098,034
U.S. Treasury Securities:		
Agency Zeroes & Strips	August 15, 2026	<u>3,969,372</u>
Total Investments		<u>\$9,067,406</u>

**Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010**

As of June 30, 2010, the Authority had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
U.S. Treasury Bills	October 28, 2010	\$24,544,925
	November 18, 2010	3,411,542
	December 2, 2010	3,920,939
U.S. Treasury Securities:		
State and Local Government Series		<u>5,033,477</u>
Total Investments		<u>\$36,910,883</u>

As of June 30, 2010, the Tennessee State School Bond Authority held two separate State and Local Government Series U.S. Treasury Securities. One security covered the debt of the QZAB borrower's remaining loan balance of \$4,419,476, and the other security covered the remaining loan balance of \$614,001 of the Higher Education borrower's debt.

Interest Rate Risk

Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to interest rate risk. The Authority's investments are specifically identified above.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2011, and June 30, 2010, the Authority's investments were in U.S. Government obligations, or obligations of which the principal and interest are guaranteed by the United States.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Authority will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Authority's investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Authority, and are held by either the counterparty or the counterparty's trust department or agent but not in the Authority's name. At June 30, 2011, and June 30, 2010, the Authority's investments were registered in the name of the Authority.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Concentration of Credit Risk

A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. At June 30, 2011, and June 30, 2010, the Authority's investments were in U.S. Treasury securities, or obligation of which the principal and interest are guaranteed by the United States.

Forward Delivery Agreements

On November 24, 2004, the Authority entered into a Forward Delivery Agreement (the "Agreement") with Bank of America, N.A. related to the series 2004 QZAB Bonds. The Agreement guarantees to the Authority a fixed rate of interest of 3%. Cash from borrowers' loan repayments will be used to purchase securities from Bank of America, N.A. in accordance with the Agreement. The accumulated funds will be used to redeem the \$12,600,000 series 2004 QZAB Bonds at maturity. As a result of the Agreement, borrowers will repay only \$9,984,800 of the \$12,600,000 principal. The investments will be held by the State Treasurer in the Authority's name. As of June 30, 2011, there is \$4,159,126 invested through the Agreement. As of June 30, 2010, there was \$3,411,542 invested through the Agreement. The Authority negotiated a "one way" termination provision in the event of counterparty default on the Agreement. The Authority also has the right to optionally terminate the Agreement at any time.

On December 28, 2005, the Authority entered into a Forward Delivery Agreement (the "Agreement") with J.P. Morgan Chase Bank, N.A. related to the series 2005 QZAB Bonds. The Agreement guarantees to the Authority a fixed rate of interest of 3.64%. Cash from borrowers' loan repayments will be used to purchase securities from J.P. Morgan Chase Bank, N.A. in accordance with the Agreement. The accumulated funds will be used to redeem the \$17,545,000 series 2005 QZAB Bonds at maturity. As a result of the Agreement, borrowers will repay only \$13,438,510 of the \$17,545,000 principal. The investments will be held by the State Treasurer in the Authority's name. As of June 30, 2011, there is \$4,992,394 invested through the Agreement. As of June 30, 2010, there was \$3,920,939 invested through the Agreement. The Authority negotiated a "one way" termination provision in the event of counterparty default on the Agreement. The Authority also has the right to optionally terminate the Agreement at any time.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Terms of the Forward Delivery Agreements

	QZAB Series 2004	QZAB Series 2005
Trade Date	11/24/2004	12/28/2005
Provider	Bank of America, N.A	J.P. Morgan Chase Bank, N.A.
Notional Amount	\$12,600,000	\$17,545,000
Guaranteed Interest Rate	3.00%	3.64%
Amount Invested in Agreement at 6/30/11 at fair value	\$4,159,126	\$4,992,394
Amount Invested in Agreement at 6/30/10 at fair value	\$3,411,542	\$3,920,939
Date of Deposits	Nov. 24, 2005 through 2020	Dec. 8, 2006 through 2020

For the fiscal year ended June 30, 2011, the Forward Delivery Agreement for the 2004 QZAB bonds has a negative fair value of (\$761,795) and the Forward Delivery Agreement for the 2005 QZAB bonds has a negative fair value of (\$554,729). For the fiscal year ended June 30, 2010, the Forward Delivery Agreement for the 2004 QZAB bonds had a negative fair value of (\$715,213) and the Forward Delivery Agreement for the 2005 QZAB bonds had a negative fair value of (\$897,463). The Authority did not enter into these agreements as interest rate hedges. These negative fair values are reported as liabilities on the statement of net assets. The agreements were valued by an independent investment advisor using the parameters contained in the Forward Delivery Agreements and prevailing market conditions and benchmark yields on June 30, 2011, upon which the fair values depend. Borrowers pay no interest on these bonds. The interest rate credit is established by the federal government. The Forward Delivery Agreements are agreed to as one of the terms of purchase to induce the investor to purchase the bond. The Authority has a scheduled amount of Qualified Securities required to be on deposit on specified delivery dates. These Forward Delivery Agreements are forward contracts, or commitments to deliver the same Qualified Securities on the scheduled dates at a pre-determined rate. Therefore, these are hedging derivative instruments employed as a fair value hedge of the Qualified Securities for the required deposits. These forward contracts meet all criteria under GASB 53, Paragraph 39, that addresses the consistent critical terms method for forward contracts. All terms of the required deposits and the Forward Delivery Agreements are consistent; therefore, hedge accounting is applied.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Termination Risk

Termination risk is the risk that counterparty will terminate a Forward Delivery Agreement at a time when the state owes it a termination payment. The state has mitigated this risk by specifying that the counterparty has the right to terminate only as a result of the following events: the failure by the state, for any reason, to purchase Qualified Securities in accordance with the Agreement; the amount to purchase Qualified Securities on the Delivery date is less than the Scheduled Fund Amount; the state is not in compliance with any covenant or obligation, incorporated by reference in, this Agreement; any representation or warranty of the state contained in the Agreement proves to have been incorrect, false, or misleading; insolvency of the state; or the principal amount under the Bonds becomes due and payable for any reason prior to the maturity date.

If the current market interest rate is higher than the fixed interest rate agreed to in the Forward Delivery Agreement, the Forward Delivery Agreement has a negative fair value. In the event of termination under this circumstance, the state owes a termination payment to the counterparty. If the fair value is positive, the state is due a termination payment from the counterparty. As of June 30, 2011, the fair value of the state's Forward Delivery Agreements is a total negative value of (\$1,316,524). As of June 30, 2010, the fair value of the state's Forward Delivery Agreements was a total negative value of (\$1,612,676). Therefore, if the Agreement was terminated, for any reason, the state would owe a termination payment of this amount.

NOTE 3. LOANS RECEIVABLE

Higher Education Facilities Programs

The Authority has entered into financing agreements with both the Board of Trustees of the University of Tennessee (the Board of Trustees) and the Tennessee Board of Regents of the State University and Community College System of the State of Tennessee (the Tennessee Board of Regents). The First Financing Agreement and the Second Financing Agreement (the "Agreements") are dated May 1, 1967, and November 1, 1997, respectively, as amended. Under the Agreements, the Authority agrees to finance construction projects for the Board of Trustees or the Tennessee Board of Regents. Annual financing charges payable under the Agreements must be sufficient to pay the debt obligations of the Authority and the costs of administering the programs.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Qualified Zone Academy Bonds Program

The Authority has entered into loan agreements with the local governments on behalf of local education agencies for the 1999 QZABs, dated November 30, 1999; the 2001 QZABs dated December 18, 2001; the 2003 QZABs dated December 23, 2003; the 2004 QZABs dated November 24, 2004; and the 2005 QZABs dated December 28, 2005. Under the agreements, the Authority agrees to finance renovation projects and equipment for the local education agencies. On the date designated in the agreements, annual financing charges must be paid by the borrower sufficient to pay the annual principal payment, which is deposited into a bond sinking fund held by the State Treasurer that will pay the bonds at maturity, and the costs of administering the program.

Qualified School Construction Bonds Program

The Authority has entered into loan agreements with the local governments on behalf of local education agencies for the 2009 QSCBs, dated December 1, 2009, and the 2010 QSCBs, dated October 1, 2010. Under the agreements, the Authority agrees to finance renovation and rehabilitation projects, equipment purchases, new building construction, and land acquisition for the local education agencies. On the date designated in the agreements, monthly financing charges must be paid by the borrower sufficient to pay the monthly principal payment, which is deposited into a bond sinking fund held by the State Treasurer that will pay the bonds at maturity, and the costs of administering the program.

NOTE 4. RESTRICTED ASSETS

Cash and Investments

The General Higher Education Facilities Bond Resolution (the First Program) requires that an amount equal to the maximum annual debt service requirement be placed in a debt service reserve account with the trustee. The first general bond resolution is effective for all bonds issued prior to 1998.

The Higher Education Facilities Second Program General Bond Resolution, effective for all bonds issued in 1998 and thereafter, permits the Authority to satisfy the debt service reserve requirement by either placing an amount equal to the maximum semiannual debt service requirement in a debt service reserve account or by maintaining a Reserve Fund Credit Facility. The Authority obtained a surety bond, constituting a Reserve Fund Credit Facility under the Resolution, in lieu of maintaining a debt service reserve fund for the 1998 Series A, B, C, and D; 2000

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Series A and B; 2002 Series A; 2004 Series A, B, and C; 2005 Series A and B; 2006 Series A and B; 2007 Series A, B, and C; and 2008 Series A Bonds. Due to market conditions at the time of issuance of the 2008 Series B, 2009 Series A, 2010 Series A, and 2010 Series B Bonds, the Authority deposited funds into a debt service reserve account equal to the maximum semiannual debt service for those bonds.

The first program bond resolution of the QZABs requires the establishment of a special trust fund, the bond sinking fund account. This account represents the funds set aside to redeem the QZABs at maturity.

The first program bond resolution of the QSCBs requires the establishment of a special trust fund, the bond sinking fund account. This account represents the funds set aside to redeem the QSCBs at maturity.

NOTE 5. DEBT PAYABLE

The State of Tennessee shall not be liable on the bonds issued by the Authority and the bonds shall not be a debt of the State of Tennessee.

Higher Education Facilities Programs

- A. Bonds. The bonds issued under the First and Second Program Higher Education Facilities Bond Resolutions constitute special obligations of the Authority. The First Program, which commenced in 1967, is no longer utilized, but any payments by the Boards thereunder will be superior to the Boards' payments under the Second Program Higher Education Facilities Bond Resolution. The principal, Sinking Fund Installments, if any, and Redemption Price of and interest on the bonds are payable solely from the Annual Financing Charges, Legislative Appropriations, and other moneys and securities held or set aside under the Resolutions.
- B. Commercial Paper. Commercial paper constitutes a special obligation of the Authority. Principal of and interest on the commercial paper is payable from the following sources: (i) as to principal only, the proceeds of the sale of commercial paper issued to pay the principal of other outstanding commercial paper, (ii) the proceeds of draws on the Liquidity Facility, (iii) available revenues, (iv) the moneys and securities (if any) on deposit in the Reimbursement Fund and in the Debt Service Fund, (v) the moneys and securities (if any) on deposit in the Project Construction Account for such projects, and (vi) the proceeds of bonds or notes issued to make such payments.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

Qualified Zone Academy Bonds Program

On September 9, 1999, the Authority adopted a Qualified Zone Academy Bond Resolution authorizing the issuance of Qualified Zone Academy Bonds to make loans to local governments on behalf of local education agencies for the purpose of financing eligible costs of certain projects. The State Department of Education recommends the projects to the Authority that should be funded under the QZAB program. The Taxpayer Relief Act of 1997 provided this financial tool whereby interest on QZABs is paid by the federal government in the form of an annual tax credit to the financial institutions that hold the QZABs. The bonds are secured solely by the payments made by the borrowers under the Loan Agreements, including amounts collected from unobligated state-shared taxes in the event of non-payment by the local governments and by certain funds held under the Qualified Zone Academy Bond Resolution.

Qualified School Construction Bonds Program

On November 5, 2009, the Authority adopted a Qualified School Construction Bond Resolution authorizing the issuance of Qualified School Construction Bonds to make loans to local governments on behalf of local education agencies for the purpose of financing eligible costs of certain projects. The Tennessee Advisory Commission on Intergovernmental Relations (TACIR) recommends the projects to be funded by the Authority under the QSCB program. The American Recovery and Reinvestment Act of 2009 provided this financial tool whereby interest on QSCBs, Series 2009, is paid by the federal government in the form of a quarterly tax credit to the financial institutions that hold the QSCBs. Market conditions at the time of issuance demanded the borrowers pay an additional quarterly interest payment to supplement the tax credit to the investors. The 2010 QSCBs were issued as direct subsidy payment bonds, a financial tool whereby the interest on the QSCBs is fully subsidized by the federal government. The bonds are secured solely by the payments made by the borrowers under the Loan Agreements, including amounts collected from unobligated state-shared taxes in the event of non-payment by the local governments and by certain funds held under the Qualified School Construction Bond Resolution.

Changes in debt payable for the year ended June 30, 2011, and 2010 are as follows (expressed in thousands):

The above principal for bonds is more than that presented on the accompanying financial statements by \$17.328 million, representing the deferred amount on bond refundings. This amount is deducted from bonds payable in the accompanying financial statements but is included in the debt service schedule above.

The Authority may issue taxable and/or tax-exempt bonds. Proceeds for the tax-exempt bonds issued after September 1, 1986, are subject to the 1986 Tax Reform Act. The Authority invests, records, and reports these proceeds in the manner set forth by the U.S. Treasury and Internal Revenue Service to maintain the tax-exempt status of the bonds. Arbitrage liabilities, when applicable, are reported as a current accrued liability. For the years ended June 30, 2011, and June 30, 2010, the Authority did not have a liability for arbitrage.

On September 15, 2010, the Authority issued two new series of bonds, 2010 Series A and B. The 2010 Series A tax-exempt bond proceeds in the amount of \$213,920,000 were issued to redeem \$94,035,610 of the Authority's tax-exempt commercial paper and \$110,498,299 of the Authority's taxable commercial paper. The 2010 Series B taxable bond proceeds in the amount of \$18,015,000 were issued to redeem

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

\$15,832,118 of the Authority's taxable commercial paper. The balance of the proceeds of the 2010 Series A and B was used to pay for new construction projects, various costs of issuance, and to fund the debt service reserve fund.

On December 17, 2009, the Authority issued the 2009 Qualified School Construction Bonds ("2009 QSCB"). The 2009 QSCB proceeds in the amount of \$177,000,000 were issued for the purposes of financing various qualifying QSCB projects and to pay the costs of issuance of the 2009 QSCBs.

On October 7, 2010, the Authority issued the 2010 Qualified School Construction Bonds ("2010 QSCBs"). The 2010 QSCB proceeds in the amount of \$212,440,000 were issued for the purpose of financing various qualifying QSCB projects and to pay the costs of issuance of the 2010 QSCBs.

Prior-Year Defeasance of Debt

In prior years, certain Authority bonds were defeased by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Authority's financial statements. On June 30, 2011, \$199,575,000 of bonds outstanding is considered defeased.

Commercial Paper Program

The Tennessee State School Bond Authority issues short-term debt to finance certain capital projects for the State of Tennessee's higher education institutions. The maximum principal to be issued by the Authority is \$300,000,000. Commercial paper may be issued as tax-exempt or as taxable. At the program's inception, commercial paper refinanced certain outstanding bond anticipation note indebtedness that the Authority had previously issued to finance capital projects. The commercial paper dealer is J.P. Morgan Chase. At June 30, 2011, \$145,058,000 of tax-exempt commercial paper and \$17,595,000 of taxable commercial paper is outstanding. At June 30, 2010, \$139,552,000 of tax-exempt commercial paper and \$142,230,000 of taxable commercial paper was outstanding.

The maturity of the paper may not exceed 270 days, and the maximum interest rate may not exceed 12%. Upon maturity, the paper is remarketed by the commercial paper dealer, redeemed, or extinguished with long-term debt. Interest rates on commercial paper ranged from 0.14% to 0.40% during the fiscal year. Interest is payable upon maturity.

Tennessee State School Bond Authority
Notes to the Financial Statements (Cont.)
June 30, 2011, and June 30, 2010

The Authority currently has State Street Bank and Trust Company as their liquidity provider under a Credit Agreement with an expiry date of March 30, 2014, subject to extension and earlier termination. The total available commitment is \$304,593,750. The obligation of State Street Bank and Trust Company is to purchase unremarketed commercial paper. In the event the liquidity facility is called upon, the Authority must repay the advance on the earlier of (i) the date of such Advance or (ii) the Termination Date. Unless the Authority repays the advance by the Term Loan Closing Date, the principal amount will convert to a term loan with six equal semi-annual payments. In accordance with Financial Accounting Standards Board *Accounting Standard Codification (ASC) 275 Risk and Uncertainties*, this agreement meets the criteria of a financing agreement; thus, the commercial paper payable is classified as a long-term liability.
