## Additional savings opportunity – 457(b)

- The 457(b) plan has the same investment options as the 401(k) plan
- Contributions to the plan are made through voluntary salary deferral and any earnings can grow tax deferred until withdrawn, usually during retirement
- Members may contribute up to IRS annual limits
- The 457(b) and 401(k) do not share a contribution limit
- For more information about the differences between the plans, read the 401(k)/457(b) Plan Comparison Guide on RetireReadyTN.gov

- You can roll over approved balances from a former employer's 401(a), 401(k), 403(b) or governmental 457(b)<sup>1</sup> or from an IRA
- You should consult your personal legal, tax, or other advisors prior to making this decision
- You should contact your previous plan administrator to inquire about rollovers out of that plan

1If you rollover any governmental 457 dollars to another type of plan or account, the withdrawals made prior to you reaching age 59½ may be subject to a 10% federal early withdrawal penalty upon distribution from the non-457 account.

- For more information about TCRS benefits for beneficiaries, review the TCRS *Selecting a Beneficiary* Guide at RetireReadyTN.gov
- You may select multiple beneficiaries for TCRS and the 401(k)
- You must select beneficiary(s) for your TCRS, and 401(k) plans separately, even if designating the same beneficiary for all plans
- Remember, your beneficiary(s) will not automatically be changed in the event of a birth, marriage, divorce, and death, or other change in circumstance

27

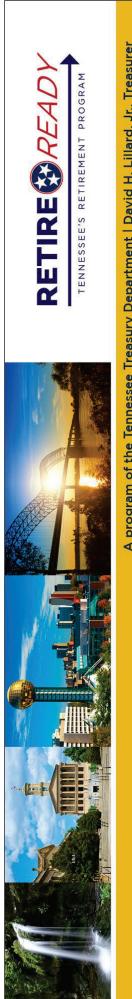

## TCRS Retirement Plan Option Selection

- Single Life Annuity Plans
  1. Member Only Option - Maximum monthly benefits payable to member for life. Benefits cease at death.
  2. Social Security Leveling - An increased benefit payable to member until age 62, then a reduced benefit payable after that date. The reduction would be equal to the full amount the member is eligible to receive from Social Security at age 62.
- Four Joint and Survivor Plans

28

## TCRS Retirement Plan Options – Joint and Survivor Plans

- *Option 1 (100% Joint and Survivor)*
  - Permanently reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the member's beneficiary(s) will receive the same benefit amount as the member for the remainder of the beneficiary's lifetime.
- *Option 2 (50% Joint and Survivor)*
  - Permanently reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive 50% of the member's benefit for the remainder of the beneficiary's lifetime.

With option 1 and 2, if a member has designated more than one beneficiary, the benefit amount will be divided equally between the beneficiaries. If any or all beneficiaries pass away before the member, the member's benefit amount will remain the same.

29

30

## TCRS Retirement Plan Options – Joint and Survivor Plans

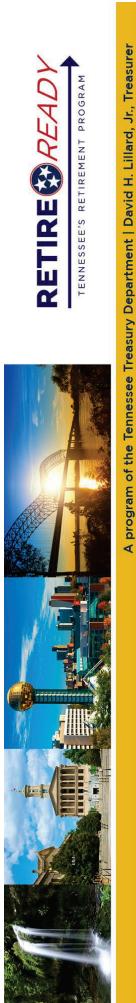

- *Option 3 (Modification of Option 1)*
  - Permanently reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive the same benefit amount as the member for the remainder of the beneficiary's lifetime.
- *Option 4 (Modification of Option 2)*
  - Permanently reduces the member's maximum retirement benefit based on the dates of birth of the member and his or her beneficiary(s). In the event the member passes away, the beneficiary(s) will receive 50% of the member's benefit for the remainder of the beneficiary's lifetime.

With Option 3 and 4, if a member has designated more than one beneficiary, the benefit will be divided equally between the beneficiaries. In the event the beneficiary passes away before the member, the member's benefit will increase to the member's maximum benefit under the Member Only Option. If multiple beneficiaries have been designated, a portion of the member's benefit that was designated for a beneficiary that dies before the member will revert to the amount the member would have received under the Member Only Option.

- If the separation from service is due to disability, the member may apply for disability retirement benefits

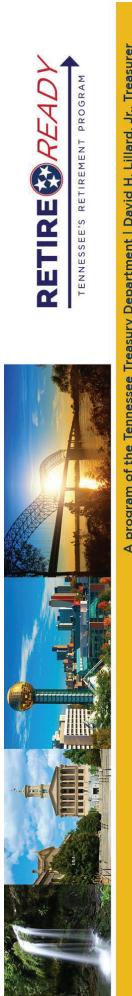

## Separation from Service – DC Plans

- Funds may remain in the 401(k) and 457(b) plans or be rolled over to another qualified retirement plan

- **457(b)**—You may begin taking qualified distributions at any age without early withdrawal penalty as long as you have separated from service
